FY 2015-2019 CONSOLIDATED PLAN

Executive Summary

ES-05 Executive Summary - 24 CFR 91.200(c), 91.220(b)

1. Introduction

As an “entitlement” recipient of formula grant funds from the U.S. Department of Housing and Urban Development (HUD), the City of North Miami, FL is required to submit a Consolidated Plan under Federal Regulations at 24 CFR Part 91. The Consolidated Plan must be prepared every five years and must be updated annually, via the preparation of an Annual Action Plan for the use of the formula grant funds received from HUD. The formula grant programs guided by the North Miami Consolidated Plan includes the Community Development Block Grant (CDBG) and the Home Investment Partnerships Program (HOME). The purpose of the City of North Miami’s FY 2015-2019 Consolidated Plan is to assess the City’s housing and community development needs; analyze the City’s housing market; establish housing and community development priorities, goals and strategies to address the identified needs; identify the resources to address them; and to stipulate how funds will be allocated to housing and community development activities. Available resources from the CDBG and HOME entitlement grants, as well as Program Income received, will be combined with private sector and other public sector funding to address the needs and implement the strategies. The five year period of the plan is from October 1, 2015 through September 30, 2019. The City of North Miami is a participant in the Miami Dade County Continuum of Care (CoC). In addition to the Consolidated Plan, HUD requires that cities and states receiving CDBG funding take actions to “affirmatively further fair housing choice.”

2. Summary of the objectives and outcomes identified in the Plan Needs Assessment Overview

Identified below are the objectives and outcomes that the City of North Miami has identified as the basis for its strategies and related activities that are to be carried out under the Consolidated Plan for fiscal years 2015-2019. Actual activities may vary each Annual Action Plan year and will be based on priorities established during the Consolidated Plan process and the amount of the City’s annual allocation. While objectives and outcomes are identified in the Consolidated Plan with estimated funding, actual funding for activities will be based on the Annual Action Plan Goals and Objectives.

Federal objectives. Federal law requires that housing and community development grant funds primarily benefit low- and moderate-income persons (LMI), whose household incomes are at or below 80% of the Area Median Income levels as determined by HUD and adjusted annually. The following are HUD objectives, outcomes and performance indicators for the Plan period for the City of North Miami:

OBJECTIVE 1 - Decent, Affordable Housing (DH). Activities that fall within this objective are designed to cover the wide range of housing eligible under CDBG and HOME programs. This objective focuses on housing programs with the goal of meeting individual family and community needs.

Outcome: Availability/Accessibility for the Purpose of Providing Decent Housing (DH-1)

Performance Indicator: 109 Households Assisted.

DH1.1 Rehabilitation of rental units and owner occupied units; DH1.2 Rental assistance; DH1.3 Acquisition of residential properties for resale to eligible households;

Outcome: Affordability for the Purpose of Providing Decent Housing (DH-2)

Performance Indicator: 15 Households Assisted.

DH2.1 New production of rental and owner units; DH2.3 Homebuyer assistance; and DH2.4 Emergency Financial Assistance to prevent homelessness.

OBJECTIVE 2 - Suitable Living Environment (SL). Activities that fall within this objective are designed to benefit communities, families, or individuals by addressing issues in their environment.

Outcome: Availability/Accessibility for the Purpose of Creating Suitable Living Environments (SL-1);

Performance Indicator: Number of Projects that Ensure Access to a Suitable Living Environment/ 35,000 -Number of Persons Provided with New Access to Improvements.

SL1.1 Construction of public facilities for uses such as child care, health care, homeless, the elderly, and persons with disabilities. SL1.2 Removal of architectural barriers to provide accessibility.

Outcome: Affordability for the Purpose of Creating Suitable Living Environments (SL-2); Performance Indicator: 5,000 Number of Projects to Support Housing Opportunities.

SL2.1 Provision of public service activities to support housing.

Outcome: Sustainability for the Purpose of Creating Suitable Living Environments (SL-3); Performance Indicator: Five (5) Number of Projects that Sustain a Suitable Living Environment/Number of Persons Benefitting from New/Improved Environment

SL3.1 Installation/Improvement to infrastructure; SL3.2 Demolition of blighted structures; SL3.3 Construction/Improvements to parks and recreational facilities; SL3.4 Provision of public services.

OBJECTIVE 3 - Expanded Economic Opportunities (EO). This objective applies to types of activities related to economic development, commercial revitalization, or job creation.

Outcome: Affordability for the Purpose of Creating Economic Opportunities (EO-2); Performance Indicator: 40 Number of Businesses Assisted.

EO2.1 Assistance to microenterprises or small businesses.

Outcome: Sustainability for the Purpose of Creating Economic Opportunities (EO-3); Performance Indicator: Number of Economic Development Projects Directed to Businesses within Selected Areas.

EO3.1 To fund or support the funding of neighborhood revitalization projects.

Based on the City's prioritized housing and community development needs and the above objectives, outcomes, and goals, the City will conduct the following activities using CDBG and HOME funds leveraged with other public and private sector funding during the Consolidated Plan period:

- Single Family Housing Rehabilitation including emergency home repair for the elderly
- New construction or acquisition and rehabilitation of existing houses for first time homebuyers
- Rental assistance to prevent homelessness
- Economic development including microenterprise/small business development and job creation
- Slum and blight removal through demolition and clearance
- Public services meeting the needs of youth, elderly, persons with disabilities, and other needs
- Public facilities and infrastructure improvements in low- and moderate-income areas
- Planning and grant administration for CDBG and HOME programs

These activities will be funded during the five year period but activities will be funded based on the availability of funding from HUD each year and the Annual Action Plan goals, objectives, and priorities determined by the City during the Consolidated Plan period.

3. FY 2015-2019

Based on the current CDBG and HOME allocation for FY 2015-2016, the City estimated that it will receive a total of \$3,734,545 in CDBG grants and \$988,500 in HOME funds over the five year period beginning October 2015 and ending September 2020. An amount of \$42,220 in program income is also anticipated. The actual amounts received will be based on annual congressional appropriations to HUD and actual program income received.

4. FY 2015-2016 Allocation and Proposed Activities

The City has been advised by HUD that it was allocated \$746,909 in CDBG and \$197,700 in HOME funds for FY 2015-2016. An amount of \$8,443.76 in CDBG program income will also be available for owner-occupied housing rehabilitation. Up to 20% of the CDBG grant and 10% of the HOME grant can be expended on Planning and Administration. Florida State Housing Initiatives Partnership (SHIP) and City general funds will be leveraged with the federal funds. CDBG funds allocated to Public Services will be awarded through a Request for Proposal process for eligible and qualified Community Based Organizations (CBOs). No more than 15% of the CDBG grant can be expended on public service activities. The specific public service activities to be funded will be based on the priority set by the Consolidated Plan and applications submitted by the CBOs. Based on community engagement and participation

process, the following table shows the proposed funding allocation for this first year Annual Action Plan:

No.	Activity	Funding Allocation
1	CDBG Program Administration (20%)	\$149,381.00
2	CDBG Housing Rehabilitation Program	\$375,492.00
3	CDBG Economic Development	\$50,000.00
4	CDBG Public Services – Non-profit Community Based Organizations & YOB Program (15%)	\$112,036.00
5	CDBG Public Facilities (Capital Project)	\$30,000.00
6	CDBG Elderly Emergency Repairs	\$ 30,000.00
	CDBG Subtotal	\$746,909.00
	Recaptured funds for Housing Rehab	\$8,443.76
	CDBG Total	\$755,352.76
7	HOME Program Administration	\$19,770.00
8	HOME Community Housing Development Organization (CHDO) Set-aside	\$29,655.00
9	HOME Single-Family Rehabilitation Program	\$125,775.00
10	HOME First-time Homebuyer Program	\$20,000.00
11	HOME Tenant Based Rental Assistance Program	\$2,500.00
	HOME Total	\$197,700.00
	TOTAL CDBG & HOME FUNDS	\$953,052.76

5. Evaluation of past performance

As a recipient of CDBG program funds, the City is required to submit at the end of each program year a Consolidated Annual Performance and Evaluation Performance Report (CAPER). The CAPER summarizes the accomplishments of each program year and the progress made towards the goals established in the Consolidated Plan. The City's 2010-2014 Consolidated Plan identified the following strategies and activities to meet its objectives: 1) **Decent Housing (DH)** – home rehabilitation, first time homebuyer assistance, temporary housing/homeowner assistance, homeless shelter for individuals, and fair housing services. 2) **Suitable Living Environment (SL)** – Public services, services for persons with disabilities, neighborhood revitalization, infrastructure, and public facilities. 3) **Economic Opportunities** – commercial facade. The highest priorities based on community input were elimination of substandard housing, expansion of economic opportunities, improvements to existing public infrastructure, and increase in the capacity of public facilities and public services.

The CAPERs for Fiscal Years 2010-2011, 2011-2012, 2012-2013, and 2013-2014 were reviewed to assist with the formulation of goals and objectives as stated in this Plan. The City expended CDBG and HOME funds of \$1,724,726 in FY 2010-2011, \$1,673,014 in FY 2011-2012, \$1,547,577 in FY 2012-2013, and \$848,698 in FY 2013-2014. The City addressed the Decent/Affordable Housing and Homeless objective by funding owner-occupied housing rehabilitation activities including lead based paint abatement, rental assistance, and homebuyer assistance. The City addressed the Suitable Living Environment objective by funding home modifications for persons with disabilities, public facility renovations, infrastructure

improvements, and public services that assist seniors, youth, homeless persons, and address fair housing issues. In addition, the City addressed the Expanding Economic Opportunities goal by providing funding for visual improvements to business facades. These efforts served as a basis to formulate the Five-Year Plan objectives, but the anticipated CDBG resources to be made available to address identified needs will limit the actual services that the City can offer.

Estimates for the units of service to be produced were established for the Consolidated Plan based on previous levels of funding from HUD, past performance, and historical allocations by the City Council to activities annually. The annual allocations are multiplied by the number of years to come up with goals for the Consolidated Plan. The evaluation of progress towards meetings goals are determined by a number of factors including the unit goals, amount of funds that are received in each year of the Consolidated Plan period, the allocations that are made to each activity, per unit cost of each activity, and the completion pace. Several of these factors may be outside of the City's direct control. For example, for homebuyer assistance, low wages, higher housing prices, limited resources, and credit issues makes it difficult to fund homebuyer assistance. CDBG funds have to be leveraged with other sources but still leaves a funding gap.

The City's FY 2013 CAPER which was the fourth year of the five year Consolidated Plan showed most activities had met most of the five year goals. HUD uses the CDBG timeliness measure to determine CDBG performance. The entitlement rules for timeliness states that a grantee cannot have more than 1.5 times their current allocation unexpended in their line of credit at the U.S. Treasury. HOME also uses commitment and expenditure deadlines. The City of North Miami has met all of its CDBG timeliness deadlines and HOME commitment dates over the Consolidated Plan period. The City is committed to monitoring outcomes compared to intended objectives and evaluating their effectiveness in addressing community needs and reprogramming funding that is not being efficiently used, if needed.

6. Summary of citizen participation process and consultation process

Program activities are considered and approved based on extensive public participation, input from North Miami's non-profit partners, related City Department staff, City Council goals, community resident input, and supporting data that identifies urgent community needs. Citizen Participation is a key component of the consolidated planning process. Residents, especially those who are low-income, likely to be beneficiaries of federal CDBG and HOME, and ESG funding were encouraged to participate in the development of the Consolidated Plan, its substantial amendments and the CAPER. Per 24 CFR Part 91.105, citizen participation requirements should guide the development of the Consolidated Plan process. For the subject Consolidated Plan and first year Annual Action Plan for FY 2015-2016, the City used a very comprehensive process and strategies to elicit public comments which included:

- Holding two public meetings and two focus group meetings from June 10-12, 2015 for different audiences such as the general public, faith based groups, and non-profits serving the homeless, veterans, elderly, and persons with disabilities, youth, health, education and employment.
- Publishing newspaper ads in local papers. See newspaper ad as Appendix III – Public Notice.

- Distributing over 300 flyers door to door and at City events about the meetings and the process.
- Sending “email blasts” from the City’s list as well as a separate list of 500 North Miami homes.
- Using the City’s website See the following link to notice on the City’s website: <http://www.northmiamifl.gov/News.aspx?id=166>
- Soliciting input from City of North Miami’s related departments including Community Planning and Development, Public Works, Parks and Recreation, Planning, Economic Development, Code Enforcement, Public Safety, and Public Information
- Soliciting input from regional organizations including the local Continuum of Care and the Miami Dade Public Housing Authority.
- Publishing two online housing and community development surveys from March 10, 2015 through June 26, 2015 that were completed by the public and service provider agencies identifying current levels of services and future needs. Nine service provider agencies and 94 residents completed the online surveys and the results were used to determine housing and community development needs and priorities along with other factors.
- Conducting interviews on ethnic radio stations about the Consolidated Plan on June 12, 2015.
- Publishing the Consolidated Plan and first year Annual Action Plan for a 30-day comment period from July 15 through August 14, 2015. An electronic copy of the Plans was posted on the City’s website and hard copies made available for review at City Hall, and community locations.
- Acknowledging written comments received during the public comment period in writing.
- Conducting a presentation and getting input from the City’s Downtown Action Plan Advisory Committee which is a body whose members are appointed by the Mayor and City Council to advise the City on economic development and downtown development.
- Meeting with the North Miami Community Redevelopment Agency (CRA) and document review.
- Holding presentations and public hearings before the City’s Planning Commission. The Commission is a housing and community development advisory citizen committee appointed by the Mayor and City Council to oversee the annual grant application process and facilitate citizen participation in the CDBG and HOME funding process and the Consolidated Plan process.

Accommodations for public meetings and information on the Consolidated Plan were also made available for persons with disabilities including the hearing impaired and persons with Limited English Proficiency. Meetings were held in the evenings and at times that would be convenient for working families including households with children.

7. Summary of public comments

Below is a summary of the input received from the public participation process. A more detailed analysis is provided as an attachment to the Consolidated Plan. Any public comments received during the 30-day comment period were included in the final document. The intent of the public participation was to assist the City in identifying key needs and priorities related to affordable housing, public services, supportive housing, homelessness and non-homeless community development issues. Public comments from public

meetings, focus groups, and online need survey results identified housing and community development needs. See Appendix I – Public and Agency Survey and Meeting Input for more details.

The profile of respondents to the resident surveys showed that majority (90%) lived in zip code 33161, and none from zip code 33261. The racial and ethnic makeup of the respondents were 68.5% African American, 11.2% White, and 11.2% who described themselves as “Other” in some cases describing themselves as Haitian or Haitian American. Very few persons described themselves in terms of their Hispanic or non-Hispanic ethnicity. Only 6.7% identified themselves as Hispanic and 3.4% identified themselves as non-Hispanic. The largest age groups among the respondents were 29.2% in the age group 56-67 and 20.2% in the age group 36-45. Only 27% of respondents indicated that they had a household member that had a disability. The largest number of respondents indicated family sizes between two and four members (76.5%) with the largest percentage two person households (31.5%). The income profile of the respondents was very diverse with the highest percentage of persons (27.2%) in the income range of \$30,001 - \$45,000. Only 37% of the respondents had incomes below \$20,000.

Participants identified and ranked the following housing and community development priorities:

- **High priority need** activities were defined as those that the City is encouraged to use federal funds through this plan to address unmet needs. Activities selected were affordable homeownership housing, owner-occupied rehabilitation, Homelessness prevention including rental assistance, services for seniors, public infrastructure, community and youth centers, economic development: job creation and retention, youth services including education, crime prevention programs, commercial rehabilitation, and public services aimed at addressing substance abuse, educational support, persons with disabilities, community health services, child care, and fair housing.
- **Low or no priority need** activities were defined as those that the City is discouraged from spending federal dollars on altogether or only in the case where federal funds are available or other public and private funds are not available. Activities selected included rental housing, transitional housing and shelters, slum and blight, small business or microenterprise assistance, legal services, redevelopment infrastructure, accessibility, domestic violence prevention, etc.

8. Summary of comments or views not accepted and the reasons for not accepting them

There were no comments or views that were not accepted or considered unacceptable by City staff.

9. Summary

The City’s five-year plan for FY 2015-2019 outlines the City’s affordable housing, supportive housing and homeless needs as well as non-housing, community development needs. To carry out the plans, the City developed a comprehensive and coordinated strategy for implementation of the programs funded by CDBG and HOME funds in addition to other selected funds being leveraged those identified to address identified priorities and goals. The first year Annual Action Plan for FY 2015-16 covers the first year of

the five-year Consolidated Plan based on the City's actual allocation of CDBG and HOME funds from HUD. [REDACTED] comments were received on the draft FY 2015-2019 Consolidated Plan or the draft FY 2015-2016 Annual Action Plan when submitted for public comment during the 30-day comment period.

The City used a variety of strategies to solicit public input including public meetings, focus groups, the City's website, social media, online agency and resident surveys, and a 30-day comment period.

The City's Consolidated Plan objectives are to provide decent, affordable housing, create a suitable living environment, and create expanded economic opportunities. The related outcomes are availability, accessibility, and sustainability. Performance indicators are households assisted, decent and affordable housing, number of projects, and number of jobs created.

The City addressed its Consolidated Plan objectives by allocating funding for owner-occupied housing rehabilitation, affordable housing for homeownership, home modifications for elderly and persons with disabilities, public facility and infrastructure improvements, economic development, and public services that assist seniors, youth, persons with disabilities, mental health, child care, and fair housing issues.

The Process

PR-05 Lead & Responsible Agencies 24 CFR 91.200(b)

1. Describe agency/entity responsible for preparing the Consolidated Plan and those responsible for administration of each grant program and funding source

The following are the agencies/entities responsible for preparing the Consolidated Plan and those responsible for administration of each grant program and funding source.

Agency Role	Name	Department/Agency
Lead Agency	NORTH MIAMI	Community Planning and Development

Table 1 – Responsible Agencies

Narrative

The City of North Miami's Community Planning and Development Department located at 776 NE 125 Street, North Miami, FL 33161 is the lead agency and responsible agency for the development of the Consolidated Plan. The Department's mission statement taken from the City's website is to "collaborate with residents, businesses, and community partners to attract quality development, provide decent workforce housing, and encourage investments that will guide the City's future." The Department is responsible for the direction and coordination of all growth, development, and redevelopment related programs.¹

Consolidated Plan Public Contact Information

The administrator for the CDBG and HOME and ESG programs is:

Tanya Wilson-Sejour, A.I.C.P.

Planning Manager

12400 NE 8 Avenue, North Miami, FL 33161

Telephone: 305-895-9826

Email: tsejour@northmiamifl.gov

PR-10 Consultation - 91.100, 91.200(b), 91.215(l)

1. Introduction

HUD Consolidated Plan regulations mandates that the City consults with other public and private agencies, the state, and public housing authorities for preparation of the Consolidated Plan. In its operation of federal block grant programs, the City works with local, regional, and statewide non-profit organizations to ensure that services are provided within the City. A comprehensive consultation process was conducted with stakeholders in the housing and community development industry. Consultation was also conducted with other City Departments and instrumentalities such as the North Miami CRA that receive or are eligible to receive CDBG funds for eligible households and neighborhoods.

Provide a concise summary of the jurisdiction's activities to enhance coordination between public and assisted housing providers and private and governmental health, mental health and service agencies (91.215(l)).

The City works with local and regional non-profit housing providers and social service agencies to coordinate public and private sector affordable housing efforts. The City provides CDBG public service funding and HOME Community Housing Development Organization (CHDO) set-aside funding for these agencies providing services to North Miami residents. Some agencies are locally based while others are regional agencies providing services including homeless prevention to City residents. Over the past two fiscal years, the City funded up to 14 public service agencies and one HOME CHDO.

The City also receives State Housing Initiatives Partnership (SHIP) Program funding from the State of Florida Housing Finance Corporation to provide affordable housing for very low, low, and moderate-income households. The City will receive funds for fiscal years 2014-2015, 2015-2016, and 2016-2017 through its Local Housing Assistance Plan (LHAP). The SHIP Program encourages the development of local housing partnerships between the City, lenders, real estate professionals, and advocates.

The City does not have a public housing authority or has any public housing units. However, the Miami – Dade Public Housing Agency provides portable Housing Choice Vouchers that may be used in the City. The City has chartered a public housing authority and selected a board but has not developed an Action Plan for its operation. The City's lead agency also collaborates with the North Miami CRA on housing.

The City also works with and receives technical assistance from the Florida Housing Coalition. According to the organization's website, the Coalition "is a nonprofit, statewide membership organization whose mission is to bring together housing advocates and resources so that all Floridians have a quality affordable home and suitable living environment."²

² Florida Housing Coalition website, http://www.flhousing.org/?page_id=2 , Accessed June 22, 2015

Describe coordination with the Continuum of Care and efforts to address the needs of homeless persons (particularly chronically homeless individuals and families, families with children, veterans, and unaccompanied youth) and persons at risk of homelessness.

The City does not receive federal funds directly to prevent homelessness. Residents who become homeless or are at risk of being homeless are eligible for emergency, transitional, rapid rehousing, permanent housing and homeless prevention services under the Miami-Dade County Homeless Program. In 1993, the Board of County Commissioners created the Miami-Dade County Homeless Trust in 1993 to address homelessness in Miami-Dade County. The Homeless Trust Board also oversees the Miami-Dade Continuum of Care (CoC) that implements the Miami-Dade County Community Homeless Plan. The City of North Miami is a participant in the CoC. The Continuum conducts a County homeless count but does not do a homeless count for the City.

Describe consultation with the Continuum(s) of Care that serves the jurisdiction's area in determining how to allocate ESG funds, develop performance standards and evaluate outcomes, and develop funding, policies and procedures for the administration of HMIS.

The City of North Miami does not receive Emergency Solution Grant funding and consulted with the CoC by reviewing the Miami-Dade County Community Homeless Plan. The City makes referrals for persons needing homeless assistance through the County's local outreach process, called "Outreach, Assessment and Placement" (OAP). The City Community Planning and Development Department will increase its participation in the CoC to ensure that the needs of the City's homeless population are being adequately addressed.

2. Describe Agencies, groups, organizations and others who participated in the process and describe the jurisdictions consultations with housing, social service agencies and other entities

The following list of agencies, groups, organizations, and City Departments were consulted in the development of the Consolidated Plan through focus groups, key person interviews, website and document review, and survey questionnaires:

1	Agency/Group/Organization	Russell Life Skills & Reading Foundation
	Agency/Group/Organization Type	Services-Youth Services - Education
	What section of the Plan was addressed by Consultation?	Non-housing Community Development Strategy, Agency consultation
	How was the Agency/Group/Organization consulted and what are the anticipated outcomes of the consultation or areas for improved coordination?	Input gathered through focus group and completion of online survey questionnaire. Increase in awareness of services
2	Agency/Group/Organization	Little Haiti Cultural Center
	Agency/Group/Organization Type	Services-Education, regional agency
	What section of the Plan was addressed by Consultation?	Non-housing Community Development Strategy, Agency consultation
	How was the Agency/Group/Organization consulted and what are the anticipated outcomes of the consultation or areas for improved coordination?	Input gathered through document review and focus group/questionnaire. Increase in awareness of services
3	Agency/Group/Organization	Haitian American Community Dev. Corp.
	Agency/Group/Organization Type	Housing, Community Housing Development Organization (CHDO)
	What section of the Plan was addressed by Consultation?	Housing Needs assessment, Market Analysis, Priority Needs, Projects
	How was the Agency/Group/Organization consulted and what are the anticipated outcomes of the consultation or areas for improved coordination?	Input gathered through document review, focus group and questionnaire. Need for leveraging homebuyer funding
4	Agency/Group/Organization	Haitian American Chamber of Commerce
	Agency/Group/Organization Type	Business leaders, regional organization
	What section of the Plan was addressed by Consultation?	Non-housing Community Development Strategy, Economic Development, Anti-Poverty Strategy
	How was the Agency/Group/Organization consulted and what are the anticipated outcomes of the consultation or areas for improved coordination?	Input gathered through document review and focus group/questionnaire. Need for business assistance/training

5	Agency/Group/Organization	Alhambra Heights Resident Association
	Agency/Group/Organization Type	Neighborhood organization
	What section of the Plan was addressed by Consultation?	Housing, market analysis, barriers to affordable housing. Housing needs assessment
	How was the Agency/Group/Organization consulted and what are the anticipated outcomes of the consultation or areas for improved coordination?	Input gathered through focus group. Need for more coordination with neighborhood association to create greater awareness of programs
6	Agency/Group/Organization	Family Impressions Foundation
	Agency/Group/Organization Type	Services-Children and youth, Foundation, Child Welfare Agency
	What section of the Plan was addressed by Consultation?	Non-housing Community Development Strategy, Anti-Poverty Strategy
	How was the Agency/Group/Organization consulted and what are the anticipated outcomes of the consultation or areas for improved coordination?	Input gathered through focus group. Need to create greater awareness of programs
7	Agency/Group/Organization	Sunkist Grove Homeowners Association
	Agency/Group/Organization Type	Neighborhood organization
	What section of the Plan was addressed by Consultation?	Housing, barriers to affordable housing, housing needs assessment
	How was the Agency/Group/Organization consulted and what are the anticipated outcomes of the consultation or areas for improved coordination?	Input gathered through focus group. Need for more coordination with neighborhood association to create greater awareness
8	Agency/Group/Organization	North Miami CRA
	Agency/Group/Organization Type	Other government-City department
	What section of the Plan was addressed by Consultation?	Non-housing Community Development Strategy, Anti-Poverty Strategy, economic development, housing needs
	How the Agency/Group/Organization consulted and what was are the anticipated outcomes of the consultation or areas for improved coordination?	Input gathered through key person interview, and document review. Need for more affordable housing and small business direct assistance downtown

9	Agency/Group/Organization	Downtown Action Plan Advisory Committee
	Agency/Group/Organization Type	Other – City Advisory Board
	What section of the Plan was addressed by Consultation?	Non-housing Community Development Strategy, Anti-Poverty Strategy, housing
	How the Agency/Group/Organization consulted and what was are the anticipated outcomes of the consultation or areas for improved coordination?	Input gathered through meeting presentation and discussion. Need for more affordable housing and business assistance downtown
10	Agency/Group/Organization	Miami-Dade Homeless Trust
	Agency/Group/Organization Type	Services – Homeless, Regional Agency, Other government - County
	What section of the Plan was addressed by Consultation?	Homeless needs and homelessness strategy
	How the Agency/Group/Organization consulted and what was are the anticipated outcomes of the consultation or areas for improved coordination?	Input gathered through document review & City staff. Need for more coordination on homeless issues and need for a City of North Miami homeless count
11	Agency/Group/Organization	Sant La Haitian Neighborhood Center
	Agency/Group/Organization Type	Advocacy Organization Services - Employment Training Services - Victims Of Domestic Violence
	What section of the Plan was addressed by Consultation?	Non-housing Community Development Strategy, Special needs, Priority Needs
	How the Agency/Group/Organization consulted and what was are the anticipated outcomes of the consultation or areas for improved coordination?	Input gathered through completion of online survey questionnaire. Need for more awareness of services
12	Agency/Group/Organization	Housing Opportunities Project for Excellence, Inc.
	Agency/Group/Organization Type	Services - The Elderly Advocacy Organization Services - Fair Housing Services - Persons With Disabilities Services - Persons With HIV/AIDS Services - Victims Of Domestic Violence Services - Homeless Prevention Services - Legal Assistance Services: Mental Health

	What section of the Plan was addressed by Consultation?	Non-housing Community Development Strategy, Special needs, Priority Needs
	How the Agency/Group/Organization consulted and what was are the anticipated outcomes of the consultation or areas for improved coordination?	Input gathered through completion of online survey questionnaire. Need for more awareness of services
13	Agency/Group/Organization	Venice Park Gardens, Inc.
	Agency/Group/Organization Type	Services - Fair Housing Housing Provider – Homeownership Housing Provider - Owner Occupied Rehab
	What section of the Plan was addressed by Consultation?	Housing Needs assessment, Market Analysis, Priority Needs, Barriers to Affordable Housing
	How the Agency/Group/Organization consulted and what was are the anticipated outcomes of the consultation or areas for improved coordination?	Input gathered through completion of online survey questionnaire. Need for more funding for rental housing and homebuyer subsidy
14	Agency/Group/Organization	Opa-Locka Community Development Corporation
	Agency/Group/Organization Type	Housing Provider - Rental Housing Housing Provider – Homeownership Other: Housing Counseling
	What section of the Plan was addressed by Consultation?	Housing Needs assessment, Market Analysis, Priority Needs, Barriers to Affordable Housing
	How the Agency/Group/Organization consulted and what was are the anticipated outcomes of the consultation or areas for improved coordination?	Input gathered through completion of online survey questionnaire. Need for more funding for affordable rental housing and homebuyer subsidy
15	Agency/Group/Organization	North Miami Foundation for Senior Citizens' Services, Inc.
	Agency/Group/Organization Type	Services - The Elderly
	What section of the Plan was addressed by Consultation?	Non-housing Community Development Strategy, Special needs, Priority Needs
	How the Agency/Group/Organization consulted and what was are the anticipated outcomes of the consultation or areas for improved coordination?	Input gathered through completion of online survey questionnaire. Need for more awareness of services

16	Agency/Group/Organization	Youth of Valor Empowerment (Y.O.V.E.)
	Agency/Group/Organization Type	Services - Youth Services
		Services - Employment Training
	What section of the Plan was addressed by Consultation?	Non-housing Community Development Strategy, Economic Development, Priority Needs, Public Services
	How was the Agency/Group/Organization consulted and what are the anticipated outcomes of the consultation or areas for improved coordination?	Input gathered through completion of online survey questionnaire. Need for more awareness of services
17	Agency/Group/Organization	Miami-Dade County Continuum
	Agency/Group/Organization Type	Services – Homeless persons Services – Homeless, Regional Agency, Other government - County
	What section of the Plan was addressed by Consultation?	Homeless needs and homelessness strategy
	How was the Agency/Group/Organization consulted and what are the anticipated outcomes of the consultation or areas for improved coordination?	Input gathered through document review & City staff. Need for more coordination on homeless issues and need for a City of North Miami homeless count

Table 2 – Agencies, groups, organizations who participated

Identify any Agency Types not consulted and provide rationale for not consulting

Publicly funded institutions and systems of care discharging persons into homelessness were not consulted because the City does not see evidence of a significant homeless population in the City. These institutions and systems of care are addressed through the Miami Dade County CoC with referrals from the City. Consultations are included in the Miami-Dade County's Consolidated Plan. Business and Civic leaders were not directly consulted but discussions regarding homelessness were addressed with the North Miami CRA staff and from a review of meeting minutes of the Downtown Action Plan Advisory Committee.

Adjacent units of general local government were not consulted directly on the Plan but the City through its Comprehensive Plan amendment, now in process, has included policies addressing regional issues (housing, transportation and sustainability) and encouraging collaboration between the City and other agencies. The City also has inter local agreements with Miami Dade School Board for school concurrency.

Other local/regional/state/federal planning efforts considered when preparing the Plan

Name of Plan	Lead Organization	How do the goals of your Strategic Plan overlap with the goals of each plan?
Miami-Dade Homeless Plan 2014	Miami-Dade Homeless Trust	As a member of the CoC, the City of North Miami wants to ensure that its goals of homelessness prevention are aligned with the CoC Homeless Plan.
North Miami Final Downtown Concept Plan	North Miami CRA	The economic development objectives of the Strategic Plan may benefit from the Downtown Concept Plan in relation to the development of small business and microenterprises
Draft Comprehensive Plan 2015 – Housing Element Amended	North Miami Community Planning and Development	The goals of Housing Element and the Economic Element of the Comp. Plan and the Consolidated Plan concur. However, alignment needs to be monitored during implementation of both plans
2013-2017 Miami Dade Consolidated Plan	Miami Dade County Public Housing and Community Development	The County's public housing and Housing Choice Voucher assisted need and strategy overlaps with City's goal of assisting low and very low income households and homeless prevention
The 2013 Rental Housing Study: Affordable Housing Needs	The Shimberg Center for Housing Studies	The strategic Goals of the strategic plan addresses affordable housing needs for renters and goals in both plans are similar
2011 Annual Childhood Lead Poisoning Surveillance Report	Florida Department of Health	The goal of the Florida Healthy Homes & Lead Poisoning Prevention Program is to eliminate childhood exposure to all lead hazards and the City through the housing rehabilitation program addresses lead-based paint in home constructed prior to 1978.

Table 3 – Other local / regional / federal planning efforts

Describe cooperation and coordination with other public entities, including the State and any adjacent units of general local government, in the implementation of the Consolidated Plan (91.215(l))

The City coordinated housing and homelessness prevention activities along with Miami-Dade County in carrying out its Consolidated Plan. This included coordination with the North Miami CRA to provide housing rehabilitation assistance to residents of the City. The City contributes to homelessness prevention by providing funding for tenant based rental assistance to allow residents to stay in affordable housing as many renters in the City are cost burdened as discussed in the Needs Assessment section of this plan.

Community based organizations providing services for the homeless or homeless prevention may apply for City of North Miami for CDBG public services funding to serve those needs. The City also plans to leverage its limited HOME funding for homebuyer subsidy with similar funds from Miami-Dade County to assist North Miami residents.

Narrative (optional):

PR-15 Citizen Participation

1. Summary of citizen participation process/Efforts made to broaden citizen participation Summarize citizen participation process and how it impacted goal-setting

Residents were given multiple opportunities to comment on the plan before and after development. A variety of methods were used to allow citizens to provide input in the form of questions, suggestions and opinions on the City's housing and community development needs for the next five years. Consultation included public meetings, focus groups, as well as presentations. The City also consulted with various agencies providing social services. Input was elicited from residents as well as agencies via the use of resident survey and agency questionnaire, in hard copy and online formats at City events. Nine agencies and 94 residents responded to the online surveys.

Reasonable accommodations and opportunities were provided for persons with disabilities and Limited English Proficiency to provide input, upon request. Notices and Plan documents stated that they could be provided in alternative formats, if required. Notices about meetings and hard copies of the surveys were distributed to Creole speaking individuals by native speakers and a Spanish language survey was provided for non-English speaking persons. The public meetings and online surveys were advertised in English and Creole through an interview on a local radio station on June 6, 2015.

Public meetings were held at a time of day that would facilitate members of the public who work and information. Notices about the Consolidated Plan meetings and surveys were sent in an "email blast" to the City's email list as well as a separate list of 500 North Miami homes. City Council members were also notified.

Copies of the notices and hard copies of the survey questionnaires were distributed at City sponsored events with most of the responses coming from District 3 which has a higher low- to moderate-income population. A notice with survey links was placed on the City's website: <http://www.northmiamifl.gov/News.aspx?id=166>. Over 300 flyers about the public meetings and the resident survey were distributed door to door particularly on 6th Avenue, 125th, and 135th.

Input was sought concomitantly for the preparation of the Consolidated Plan and the Annual Action Plan. The City held two focus groups and two public meetings between June 10 and 12, 2015. The City also used its Planning Commission meeting on June 10 as a public hearing to receive input prior to the development of the Plans. An initial presentation and public hearing on the Consolidated Plan and the 2015-2016 Annual Action Plan was held on Wednesday, June 10, 2015 at the Planning Commission meeting. A total of 13 residents and six (6) agency representatives were in attendance at focus groups and public meetings. A presentation on the Plans and the process was made to the Downtown Action Plan Advisory Committee.

Subsequently, the draft Plans were submitted for review by the Planning Commission on July 7, 2015 and a final approval before the City Council on July 14, 2015. These meetings were advertised as public hearings and the public had the opportunity to provide feedback at these meetings. The Consolidated

Plan and Annual Action Plan were published for a 30-day period from July 15, 2015 to August 14, 2015. A pdf copy of the plans were available on the City's website and hard copies provided at the City's main library and City Hall.

Heads of the various related City Departments were asked to give input on the Plans including Community and Planning and Development, Code Compliance Department, the Police Community Services Section, Planning, Public Works, Parks and Recreation, Public Information, and the CRA.

The more affirmative and comprehensive approach to the public participation process resulted in significant public and agency responses in defining housing and community development needs and facilitated the development of the objectives and goals. Agencies and individuals were asked to identify priority needs using a high, low or no priority. High priority needs were used for which CDBG and HOME funds will be used to address. Low or nor priority needs would only be addressed if federal funds were available or other non-federal funds were available. The scores were collated and priorities determined from the cumulative totals. The development of priorities were also based on statistical and demographic data. For example, owner-occupied housing rehabilitation remained a high priority because 87% of the City's housing stock was built before 1980 and 53% of the occupied housing was owner occupied. Historical allocation of CDBG and HOME funds were also used to determine goals and priorities as well as responses to Request for Proposals and agency capacity such as in the case of Public Services.

Needs Assessment

NA-05 Overview

Needs Assessment Overview

This section introduces the key points of the Needs Assessment in regards to the different levels of need in the areas of affordable housing, homelessness, special needs, and community development.

Housing Needs Assessment: The City of North Miami experiences four types of housing problems: substandard housing, overcrowding, cost burden, and severe cost burden. Housing affordability is the most common housing problems for residents of the City. There is a significant need for affordable housing for both renters and owners, especially for the very low income households.

Disproportionately Greater Need: A disproportionately greater need exists when the members of a racial or ethnic group at a specific income level experience housing problems at a greater rate (10% or more) than the income level as a whole. The 2007-2011 CHAS data shows that Asians households experience housing problems and severe housing problems disproportionately however, the Asian population in North Miami makes up approximately 2.2% of the total population therefore the figures are skewed by the small number of households. A disproportionately greater need exists for Hispanic households at the 50%-80% AMI and 80%-100% AMI income levels in regards to housing problems. At the 50%-80% AMI income level, Hispanic households are experiencing a disproportionately greater need with 51.3% of Hispanic households having a severe housing problem.

Public Housing: The City of North Miami does not have an active public housing agency. The public housing needs of North Miami residents are met by the Miami Dade County Public Housing and Community Development Department through the administration of the Section 8 Housing Choice Voucher Program. Based on data available from the HUD CPD Mapping Tool, there are 787 vouchers being utilized within North Miami census tracts.

Homeless Needs Assessment: According to the Florida Coalition for the Homeless, the major cause of homelessness is the lack of affordable housing. The 2015 PIT survey for Miami-Dade County identified 4,156 homeless persons on the day of the county (3,316 in shelter and 840 unsheltered). Any persons that become homeless in The City of North Miami are referred to homeless providers that are part of Miami-Dade County CoC.

Non-Homeless Special Needs Assessment: The City of North Miami has identified the non-homeless special needs population as: elderly persons, persons with disabilities, persons with alcohol or other drug addictions, persons with HIV/AIDS and their families, and victims of domestic violence. The City addresses the vast needs of these groups by utilizing CDBG funding to support agencies that provide services that address the needs of the population.

Non-Housing Community Development Needs: Based on public input received and data from needs assessments for public improvements and facilities, the City of North Miami has the following non-housing community development needs: Public facilities including neighborhood and community centers, youth centers, mental health facilities, and park improvements; Public improvements including sidewalk, streets, and water and sewer improvements; and Public Services including services for seniors, youth, and persons with disabilities, educational support, childcare services, fair housing services, health services, and substance abuse prevention programs.

DRAFT

NA-10 Housing Needs Assessment - 24 CFR 91.205 (a,b,c)

Summary of Housing Needs

Housing needs can be defined by income range, family type, and type of housing problems. Typically lower income households have the greatest housing needs and experience more housing problems including substandard housing, overcrowding, cost burden and severe cost burden.

According to the 2011 CHAS, the City of North Miami had a population of 58,995 persons. Compared to the 2000 census, the population decreased by 1% between 2000 and 2011. There were 18,120 households of which 11,000 (60.7%) were of low- and moderate-income. The household types and sizes are as follows: 8,125 small family households comprised of two to four members; 2,515 large family households with five or more members; 3,575 households with an elderly family member (62-74 years); 1,365 households with a frail elderly family member (age 75 and older); and there were 3,113 households with one or more children 6 years old or younger.

The Florida Housing Data Clearinghouse provides data about housing needs and supply for Florida communities. According to Clearinghouse data, in 2013, 12,119 (60%) North Miami households were cost-burdened meaning that they paid more than 30% of their income for housing costs. This included 7,010 (35%) households that were severely cost-burdened meaning that they spent more than 50% of their income for housing costs. A greater number of renter households were cost-burdened compared to owner households (52.5% renter vs 47.5% owner).

Among income groups, 84.6% of low- and moderate-income households were cost-burdened as follows: 31.6% very-low income; 30.0% low income; and 23.0% moderate income. Only 15.3% of households earning more than 80% AMI were cost-burdened.

Table 12 – Crowding Information – 2/2

Describe the number and type of single person households in need of housing assistance.

According to the 2011 ACS, there are a total of 18,120 households in the City of North Miami of which 5,890 or 32.5% are in nonfamily households. Nonfamily households include persons living alone or with nonrelatives only. The 2011 ACS shows that 79.9% of nonfamily households live alone. Almost 19% of householders living alone are 65 years and older.

In regards to housing tenure, the majority of nonfamily households are renters. According to the 2011 ACS, 53.2% of nonfamily households reside in renter-occupied housing and 46.8% own their home.

In terms of housing needs, single person households are included in the 'Other' household categories in the cost burden and crowding tables (Tables 9-11). The 2007-2011 CHAS data shows that within the 0-80% AMI income categories there are 1,400 single person renter households that are cost-burdened of which 900 (64.3%) are severely cost-burdened. Single person renter households represent 27% of the total number of low- and moderate-income cost-burdened renter households. Housing affordability is a greater housing problem for single person renter households than overcrowding. According to the CHAS data, only 10 single person renter households are impacted by overcrowding.

There are 705 single person owner households that are experiencing cost burden of which 600 (85%) are severely cost-burdened. Single person owner households represent 18.4% of the total number of low- and moderate-income cost burdened owner households. There are no single person owner households that live in a crowded situation.

Estimate the number and type of families in need of housing assistance who are disabled or victims of domestic violence, dating violence, sexual assault and stalking.

According to the 2013 ACS, 7.8% (4,638 persons) of North Miami's civilian non-institutionalized population reported a disability. The highest percentage of persons with disabilities occurred in the 65 years and over age group (29.6%). Many of the individuals have more than one reported disability; therefore, there is duplication between categories of disability (hearing difficulty, vision difficulty, cognitive difficulty, ambulatory difficulty, self-care difficulty, independent living difficulty).

The 2008-2010 ACS was used to develop CHAS data on disability status. HUD defines disabled as having a mobility or self-care limitation. According to this CHAS data, there were 7,410 households with a disabled member and 4,490 (60.6%) of the households had one of the four housing problems.

The income of disabled persons may indicate a housing problem and the need for housing assistance. In North Miami, over 10% of persons with a disability live below less than 50% of the poverty level compared to 8.1% without a disability. Based on CHAS data available for 2008-2010 ACS, 60.6% of households with a disabled member experienced one of the four housing problems.

In regards to victims of domestic abuse, the HUD 2014 Continuum of Care Homeless Populations and Subpopulation report indicated that as of January 2014, there were 317 persons that are victims of domestic abuse in Miami-Dade County. Over 47% (151) of the victims of domestic abuse were unsheltered.

What are the most common housing problems?

The most common housing problems experienced by both renters and owners in North Miami is cost burden. There are 11,000 low- and moderate-income households in North Miami and 81.7% (8,985 households) are cost burdened. Of the total low-and moderate-income households, 57.3% are renters and 42.7% are owners.

Are any populations/household types more affected than others by these problems?

The following household types are more affected than others by cost burden and severe cost burden:

Of the total low-and moderate-income renter households experiencing cost burden, 42.3% are Small Related Households, followed by 27.2% Other Households. Of those renters experiencing severe cost burden, 41.2% are Small Related Households with 62% of those households are in the 0-30% AMI income level, followed by Other Households at 28.1% and Elderly Households at 19.1%.

Of the total low-and moderate-income owner households experiencing cost burden, 41.3% are Small Related Households with 50.1% in the >50-80% AMI, followed by Elderly Households at 23.3%, and Other Households at 18.4%. Of those owners experiencing severe cost burden, 40.6% are Small Related Households, followed by, Other Households at 22.1%.

Describe the characteristics and needs of Low-income individuals and families with children (especially extremely low-income) who are currently housed but are at imminent risk of either residing in shelters or becoming unsheltered 91.205(c)/91.305(c)). Also discuss the needs of formerly homeless families and individuals who are receiving rapid re-housing assistance and are nearing the termination of that assistance

According to the 2007-2011 CHAS data, there are 2,340 low- and moderate-income households with one or more children 6 years and younger.

In the past, the City has utilized HOME funding for a tenant based rental assistance activity. The program provides one-time assistance to families who can no longer afford to rent their existing units due to unforeseen circumstances. In FY 2013-2014, three households were assisted: two extremely low-income households and one low-income household. Two of the households were Black/African American and the other household was Hispanic.

The City of North Miami received \$507,641 in Homeless Prevention and Rapid Re-Housing assistance under the American Recovery and Reinvestment Act of 2009. The City utilized the funds to provide housing stabilization assistance to households at risk of becoming homeless and rapid re-housing for persons who were homeless. A total of 295 persons or 98 households received homeless prevention assistance including rental assistance, security and utility deposits, utility payments, moving cost assistance, and motel/hotel vouchers. Another 17 persons or seven households received homeless assistance.

If a jurisdiction provides estimates of the at-risk population(s), it should also include a description of the operational definition of the at-risk group and the methodology used to generate the estimates:

The City of North Miami has not estimated the number of households at-risk of homelessness.

Specify particular housing characteristics that have been linked with instability and an increased risk of homelessness

The National Alliance to End Homelessness published on June 19, 2007 Fact Sheet: *Affordable Housing Shortage*³ where it describes how as incomes are failing to keep pace with housing costs, Americans face

³ National Alliance to End Homelessness Fact Sheet, June 19, 2007:
<http://www.endhomelessness.org/library/entry/fact-sheet-affordable-housing-shortage>

complicated choices such as buying groceries, educate their children, and keep a roof over their head. It continues by saying that those that cannot manage that balancing act become homeless or live on the periphery. The 2007 Fact Sheet provides a synopsis of the affordable housing shortage in the U.S. and reaches the following conclusions: “Millions of Americans face housing cost burden; Cost burden is concentrated among low-income households; Incomes fail to keep pace; Affordable housing stock is dwindling; Housing vouchers are being lost; There are long waiting lists for housing subsidies; and The HUD budget has been trending downward for affordable housing.”

The Florida Coalition for the Homeless published a report in 2010 titled *Homelessness in Florida: Homeless and Extremely Low Income Families and Individuals Needs Housing Options*⁴. The data used in the report is from the Florida Department of Children and Families FY 2008-2009 Annual Report on Homeless Conditions in Florida. The report indicated that the main cause of homelessness is the lack of affordable housing. Housing needs include affordable and permanent housing, permanent supportive housing, emergency shelter, and transitional housing. Other factors that contribute to homelessness include loss of employment, poverty, domestic violence, health problems and related costs, lack of transportation, foreclosure, low-paying jobs, addictions, family crisis, disasters, and physical and mental disabilities.

In Florida, homeless people identified the following reasons for their homelessness: employment / financial reasons (50%); medical / disability problems (16%); housing issues (12%); family problems (12%); forced to relocate from home (7%); other reasons (1%); and natural / other disasters (1%)

The National Alliance to End Homelessness Fact Sheet titled *Foreclosure to Homelessness: The Forgotten Victims of the Subprime Crisis*⁵, found that a survey of housing providers estimated that 5% of their clients experienced homelessness as a result of foreclosure and that those homeless due to foreclosure tended to be renters. This is a significant factor in Miami-Dade County where according to the Florida Housing Data Clearinghouse, as of September 2013, the Miami-Fort Lauderdale- Pompano Beach MSA has the highest foreclosure rate in the State of Florida and is ranked fourth in the nation.

Camillus House is a non-profit agency that serves the homeless in Miami-Dade County. The agency provides a broad range of housing for homeless persons including emergency, transitional, and permanent housing. Clients also receive comprehensive health care and social services. The agency identified the following housing factors as causes for homelessness: poverty, declining wages, decline in public assistance, and lack of affordable health care, domestic violence, mental illness, and addiction disorders.

NA-15 Disproportionately Greater Need: Housing Problems – 91.205 (b)(2)

Assess the need of any racial or ethnic group that has disproportionately greater need in comparison to the needs of that category of need as a whole.

Introduction

A disproportionately greater need: housing problems exists when the members of racial or ethnic group at a given income level experience housing problems at a greater rate (10 percentage points or more) than the income level as a whole experience housing problems. This Section will analyze disproportionate greater need for income levels 0-30%, >30-50%, >50-80%, >80-100% AMI, by race or ethnicity. The *housing problems* included are as follows: lacks complete kitchen facilities, lacks complete plumbing facilities, overcrowding –more than one person per room, and cost burden greater than 30% and less than 50%.

In North Miami, Asian households have a disproportionately greater need at all income levels with the exception of 50%-80% AMI. The Asian population makes up approximately 2.2% of the total population therefore the figures are skewed by the small number of households. A disproportionately greater need exists for Hispanic households at the 50%-80% AMI and 80%-100% AMI income levels. No other racial or ethnic groups had a disproportionately greater need based on the aforementioned definition.

*The four housing problems are:

1. Lacks complete kitchen facilities, 2. Lacks complete plumbing facilities, 3. More than one person per room, 4. Cost Burden greater than 30%

Discussion

Based on the CHAS data, 83.5% of very low income households (0%-30% AMI) with the City of North Miami have a housing problem. Within this income level, Asians have a disproportionately greater need with 100% having a housing problem. However, the need is skewed due to the relatively small Asian population in North Miami.

Within the 30%-50% AMI income level, 95.0% of all households within the City have a housing problem. Again, Asians have a disproportionate greater need because of the size of the population. There are no other groups that have a disproportionately greater need.

Approximately 84% of Hispanic households within the 50%-80% AMI income group have a housing problem and within this income group, 74.1% of all households have a housing problem. Therefore, Hispanic households have a disproportionately greater need at the moderate income level.

Within the 80%-100% AMI income level, 60.1% of households have a housing problem. The entire Asian population at this income level has a housing problem. However, this is once again skewed by the size of the Asian population. Hispanic households have a disproportionately greater need at 80%-100% AMI with 86.4% of Hispanic households having a housing problem.

Figure #1 below shows the percentage of households with housing problems by income and race and ethnicity.

Figure 1- Housing Problems by Race & Ethnicity, North Miami 2007-2011

NA-20 Disproportionately Greater Need: Severe Housing Problems – 91.205 (b)(2)

Assess the need of any racial or ethnic group that has disproportionately greater need in comparison to the needs of that category of need as a whole.

Introduction

A disproportionately greater need exists when the members of racial or ethnic group at a given income level experience *severe housing problems* at a greater rate (10 percentage points or more) than the income level as a whole. This Section will analyze disproportionate greater need for income levels 0-30%, >30-50%, >50-80%, >80-100% AMI, by race or ethnicity. The severe housing problems included are as follows: overcrowding –more than 1.5 persons per room, not including bathrooms, porches, foyers, halls, or half-rooms; and cost burden greater than 50%.

0%-30% of Area Median Income

Severe Housing Problems*	Has one or more of four housing problems	Has none of the four housing problems	Household has no/negative income, but none of the other housing problems

*The four severe housing problems are:

1. Lacks complete kitchen facilities, 2. Lacks complete plumbing facilities, 3. More than 1.5 persons per room, 4. Cost Burden over 50%

Discussion

Based on Tables 17-20, the following households had severe housing problems by income group:

In the 0%-30% AMI income group, 76.7% of all households in the City of North Miami had one or more of the four severe housing problems. Among the racial/ethnic groups, 57.4% of White households experienced severe housing problems, 80.5% of Black or African American households, 100% of Asian households, and 77.4% of Hispanic households.

In the 30%-50% AMI income group, 75.1% of all households experienced at least one severe housing problem. Among the racial/ethnic groups, 68.5% of White households experienced severe housing problems, 73.3% of Black or African American households, 88.9% of Asian households, and 80.9% of Hispanic households.

In the 50%-80% AMI income group, 41.7% of the households experienced severe housing problems. Among the racial/ethnic groups, 37.9% of White households experienced severe housing problems, 39.9% of Black or African American households, and 51.3% of Hispanic households.

In the 80%-100% AMI income group, 31.5% of all households experienced severe housing problems. Among the racial/ethnic groups, 23% of White households experienced severe housing problems, 36.6% of Black or African American households, 100% of Asian households, and 25.8% of Hispanic households.

Analysis of the 2007-2011 CHAS data for North Miami indicates that Asian households at all income levels with the exception of 50% - 80%AMI are experiencing *severe housing problems*, including cost burden greater than 50%, at a disproportionately greater rate in comparison to the jurisdiction as a whole. However, it is important to note that the figures are skewed due to the small size of the Asian population.

At the 50% - 80% AMI income level, 41.7% of all the households in North Miami have a severe housing problem. Hispanic households at the 50% - 80% AMI income level are experiencing a disproportionately greater need with 51.3% of Hispanic households having a severe housing problem.

Figure #2 shows the percentage of households with severe housing problems by income and race and ethnicity.

Figure 2 Severe Housing Problems by Race and Ethnicity N Miami 2007-2011

NA-25 Disproportionately Greater Need: Housing Cost Burdens – 91.205 (b)(2)

Assess the need of any racial or ethnic group that has disproportionately greater need in comparison to the needs of that category of need as a whole.

Introduction:

HUD considers a housing unit affordable if the occupant household expends no more than 30% of its income on housing cost. In the situation where the household expends greater than 30% of its income on housing cost, the household is considered cost burdened. Cost-burdened households have less financial resources to meet other basic needs (food, clothing, transportation, medical, etc.), less resources to properly maintain the housing structure, and are at greater risk for foreclosure or eviction. Generally, for renters, housing costs include rent and utilities; and for owners, housing costs include mortgage payments, taxes, insurance, and utilities.

A disproportionately greater number of *cost-burdened households* exists when the members of racial or ethnic group at a given income level experience *housing cost burden* at a greater rate (10 percentage points or more) than the income level as a whole.

There are no racial or ethnic groups in North Miami with a disproportionately greater number of cost-burdened households.

Housing Cost Burden

Housing Cost Burden	<=30%	30-50%	>50%	No / negative income (not computed)
Jurisdiction as a whole	7,650	4,550	5,865	215
White	2,180	885	835	45
Black / African American	3,410	2,400	2,935	125
Asian	235	60	110	0
American Indian, Alaska Native	0	0	0	0
Pacific Islander	0	0	0	0
Hispanic	1,805	1,180	1,955	40

Table 21 – Greater Need: Housing Cost Burdens AMI

Data Source: 2007-2011 CHAS

Discussion:

Based on the 2007-2011 CHAS, 10,415 North Miami Households (57%) pay more than 30% of their income for housing. This includes 4,550 households (25%) that are cost burdened and 5,865 households (32%) that are severely cost-burdened.

Among cost-burdened households, Black or African American households experienced the greatest incidence of cost burden. Approximately 27.1% of Black or African American households were cost burdened, followed by 23.7% of Hispanic households, 22.4% of White households, and 14.8% of Asian households.

Hispanic households had greatest incidence of severe cost-burden. About 39.9% of Hispanic households were severely cost-burdened, followed by 33.1% of Black of African American households, 27.2% of Asian households, and 21.2% of White households.

The CHAS data indicates that none of the racial or ethnic groups are experiencing housing cost burden (30-50%) or severe housing cost burden (>50%) at a disproportionate rate.

Figures #3 and #4 show cost-burdened and severely cost-burdened households by race and ethnicity.

Figure 3 - Housing Cost Burden by Race and Ethnicity - N Miami 2007-2011

Figure 4 Severe Housing Cost Burden by Race N Miami 2007-2011

NA-30 Disproportionately Greater Need: Discussion – 91.205(b)(2)

Are there any Income categories in which a racial or ethnic group has disproportionately greater need than the needs of that income category as a whole?

According to HUD, a disproportionately greater need exists when the members of a racial or ethnic group at a given income level experience housing problems at a greater rate (10 percentage points or more) than the income level as a whole.

The housing problems are cost burden, overcrowding, lack of complete kitchen facilities or plumbing facilities. Severe housing problems include overcrowded households with more than 1.5 persons per room and households with cost burdens of more than 50% of income.

Asian households at all income levels with the exception of the 50%-80% AMI income level have disproportionate housing problems and severe housing problems. Asians make up approximately 2.2% of the North Miami population therefore the small size of the group skews the outcome.

Person of Hispanic ethnicity are the other group experiencing disproportionately greater housing need. At both the 50%-80% AMI and 80%-100% AMI income levels, Hispanics have a greater incidence of housing problems. Additionally, at the 50% -80% AMI income level, Hispanics are disproportionately represented showing a greater percentage of severe housing problems.

There are no racial or ethnic groups in North Miami experiencing housing cost burden and severe cost burden at a disproportionate rate.

If they have needs not identified above, what are those needs?

There are no additional needs identified by race and ethnicity.

Are any of those racial or ethnic groups located in specific areas or neighborhoods in your community?

There may be overlap between disproportionately greater need for a race and higher levels of housing problems within areas of low-income and minority concentration. A Racially and Ethnically Concentrated Area of Poverty (RECAP) analysis was conducted and based on 2014 census demographic data from the Federal Financial Institutions Examination Council (FFIEC), there are no census tracts in North Miami that meet the definition of racially/ethnically concentrated areas of poverty⁶.

The census tracts included in the analysis, some of which expand beyond the boundaries of the City of North Miami, have a total population of 89,273 persons and a minority population of 77,567 or 86.9%.

⁶ The definition of racially/ethnically concentrated area of poverty as developed by the HUD Office of Policy Development and Research requires R/ECAP census tracts to have a minority population of 50% or more and an individual poverty rate of 40% or more (or an individual poverty rate that is 3 times that of the tract average for the metropolitan area, whichever is lower).

As shown in the table below, all the census tracts, with the exception of census tract 12.05 have a tract minority percentage of 50% or more however, there are no census tracts that have an individual poverty rate of 40% or more or an individual poverty rate that is 3 times the tract average for the metropolitan area.

Census Tract	Tract Median Family Income %	% Below Poverty Line	2014 Tract Minority %	Tract Population	Tract Minority Population
1.09	80.1%	19.5%	75.2%	4,086	3,074
1.20	136.5%	6.6%	55.7%	4,289	2,387
1.24	72.5%	2.4%	78.1%	3,206	2,504
1.28	157.8%	9.7%	60.3%	2,664	1,605

TOTAL			86.9%	89,273	77,567

The CPD Mapping tool identifies the percentages of persons by race/ethnicity in each census tract of a jurisdiction. For North Miami, the census tracts with the greatest percentage of persons of Hispanic ethnicity are as follows in descending order: 1.20; 1.09; 1.24; 3.08; 2.20; 3.06; 3.07; 2.19; 4.10; and 20.09.

NA-35 Public Housing – 91.205(b)

Introduction

The City of North Miami does not have a public housing agency within its city limits. Public housing needs are met by the Miami-Dade Public Housing and Community Development (PHCD). The data in the following tables is for Miami Dade County and not solely the City of North Miami. There are no public housing developments in the City of North Miami however, PHCD allows its Section 8 vouchers to be ported to other communities including North Miami. According to the HUD CPD Mapping Tool, there are 787 Section 8 vouchers being utilized in North Miami census tracts.

The PHCD Five Year PHA Plan identifies the needs of families in public housing and on the waiting list. The need identified is a shortage of affordable housing for eligible populations including very low and low income families and families with disabilities.

The City of North Miami has utilized HOME funding for a Tenant Based Rental Assistance (TBRA) program that serves tenants with similar characteristics to public housing residents. The participants in the TBRA program are generally at-risk of becoming homeless and are in need of emergency financial assistance.

Section 504 Needs Assessment: Describe the needs of public housing tenants and applicants on the waiting list for accessible units:

There are no public housing units located in the City of North Miami therefore the Section 504 needs assessment is not applicable to the City.

For Miami-Dade County public housing units, according to data from PIH Information Center (Table 24), there are 4,113 disabled families and 9,661 elderly persons in all programs provided by PHCD. With such a large elderly and disabled population, there is a significant need for accessible units and units with accessible features. The five year goals of PHCD include continuing to implement the accessibility requirements of Section 504, ADA, and the FHA.

Most immediate needs of residents of Public Housing and Housing Choice voucher holders

According to the PHA Five Year Plan, the needs of those in their program and on the waiting list is the shortage of affordable housing for eligible populations including very low and low income families and families with disabilities.

How do these needs compare to the housing needs of the population at large

The housing needs of the Section 8 and public housing residents are similar to those of the population at large. Section NA-10 identified that the most common housing problem was cost burden, particularly for renters at 0-30% AMI, as 57.3% of these renters were cost burdened. The Resident Characteristics Report (as of May 31, 2015) for Miami-Dade Public Housing indicated that 87% of public housing residents are extremely low income (0%-30% AMI).

Discussion

NA-40 Homeless Needs Assessment – 91.205(c)

Introduction:

The City of North Miami is a member of the Miami-Dade County Continuum of Care (CoC). The lead agency for the CoC is the Miami-Dade County Homeless Trust. Additionally, the Trust develops and implements the annual process to identify gaps and needs for the homeless continuum. According to HUD's CoC Homeless Population and Subpopulations Reports, the most recent survey conducted and posted by the aforementioned CoC was on January 23, 2014. A total of 4,156 homeless persons were counted, with 3,316 in shelters and 840 unsheltered. The reports are based on Point-in-Time (PIT) information provided to HUD by CoCs in their funding applications. The PIT Count provides a count of sheltered and unsheltered homeless persons on a single night during the last ten days in January.

The City of North Miami is not a direct recipient of federal funds to prevent homelessness and does not expect to receive private and/or public funds to address homeless needs and to prevent homelessness. There is no documented homeless population in the City and those residents who become homeless are eligible for emergency, transitional, and permanent housing and services under the Miami-Dade County Homeless program.

If data is not available for the categories "number of persons becoming and exiting homelessness each year," and "number of days that persons experience homelessness," describe these categories for each homeless population type (including chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth):

Figure 5 January 2014 Miami-Dade County CoC Homeless Point-in-Time

Population	Estimate the # of persons experiencing homelessness on a given night		Estimate the # experiencing homelessness each year	Estimate the # becoming homeless each year	Estimate the # exiting homelessness each year	Estimate the # of days persons experience homelessness
	Sheltered	Unsheltered				
Persons in Households with Adult(s) and Child(ren)	385	0				
Persons in Households with Only Children	109	0				
Persons in Households with Only Adults	1,877	820				
Chronically Homeless Individuals	243	445				
Chronically Homeless Families	44	0				
Veterans	175	142				
Unaccompanied Child	128	0				
Persons with HIV	64	50				

Nature and Extent of Homelessness: (Optional)

Race:	Sheltered:	Unsheltered (optional)
Ethnicity:	Sheltered:	Unsheltered (optional)

Estimate the number and type of families in need of housing assistance for families with children and the families of veterans.

The Miami-Dade CoC 2014 point-in-time survey revealed that of the total homeless persons 31.5% were in households with at least one adult and one child. There were no unsheltered persons in households with children. From the data submitted for HUD's 2014 Annual Homeless Assessment Report (AHAR), the Demographic Characteristics of Sheltered Homeless Persons Report showed that on a national level there were 33.2% of homeless people in families on a single night in January 2014.

Of the total homeless persons surveyed during the 2014 Miami-Dade CoC point-in-time survey, 7.1% were veterans.

Describe the Nature and Extent of Homelessness by Racial and Ethnic Group.

According to the Council on Homeless 2014 Report, for the State of Florida, White and Black/African Americans made up 54.3% and 34.0% of the homeless population, respectively.

Information was not available locally for the race/ethnic makeup of the homeless population in Miami-Dade County.

Describe the Nature and Extent of Unsheltered and Sheltered Homelessness.

The 2014 Miami-Dade County Homeless Trust Census found that there were 840 unsheltered homeless persons and 3,316 sheltered homeless persons, for a total of 4,156 homeless persons. The City of North Miami has not conduct a homeless count but plans to do. At this time, there is no homeless data available beyond the PIT Count

The majority of the unsheltered homeless population was located in the City of Miami. Approximately 9% (71) of the homeless individuals were located in Unincorporated Miami-Dade County, North of Kendall Drive to the Broward County line. The sheltered homeless count was comprised of 1,455 persons in emergency shelters, 123 cold weather emergency shelter placements, 222 hotel/motel, 1,490 homeless in transitional housing, and 26 in safe haven.

In 2015, there was a small decrease in the total number of homeless persons, down to 4,152 homeless. While the homeless population remained steady, the living situation was very different between 2014 and 2015. More homeless persons were unsheltered in 2015. Figure #6 below shows the trends in the homeless count between 1996 and 2015.

Figure 6 - Trends in the Homeless Count - 1996 - 2015 Miami -Dade County

NA-45 Non-Homeless Special Needs Assessment - 91.205 (b,d)

Introduction:

The Consolidated Plan requires that, to the extent practicable, the housing needs of persons who are not homeless but require supportive housing be described. This includes, but is not limited to the elderly (defined as persons aged 62 and older); the frail elderly (defined as an elderly persons who require assistance with three or more activities of daily living); persons with disabilities; persons with alcohol or other drug addiction; persons with HIV/AIDS and their families; and victims of domestic violence, dating violence, sexual assault, and stalking.

Describe the characteristics of special needs populations in your community:

The 2013 ACS for North Miami shows the median age of residents as being 34.5 years. According to the 2007-2011 CHAS data, there are 5,724 persons over the age of 65 residing in North Miami. Based on the CHAS data, there are 3,575 households with at least one person between the age of 62-74 years and 1,365 households with a household member 75 years of age and older. The majority of elderly households have incomes greater than 100% AMI followed by households within the 0%-30% AMI income level. For frail elderly households, the majority of households have income between 0%-30% AMI.

The 2013 ACS of Disability Characteristics for the City estimates that of the total civilian non-institutionalized population of 59,547 persons, 7.8% or 4,638 has a disability. Of the population 65 years and over, 1,812 (29.6%) are estimated to have a disability. Based on CHAS data, given the rate of disability for persons 65 years and over, approximately 234 low- and moderate- income households contain at least one elderly person with a disability. According to the 2008-2010 CHAS, there are 7,410 households with a disabled member and 5,170 (70%) of these households are low- and moderate-income. Approximately 74% (3,820) of LMI disabled member households have one of the four housing problems. Households containing persons with ambulatory limitation experience a higher rate of housing problems at 76.4%, followed by households containing persons with cognitive limitation at 74.6%, households containing persons with self-care or independent living limitation at 72.5%, and households containing persons with a hearing or vision impairment at 57%. Very low income households with a disabled member are impacted by a housing problem more than any other income group.

Florida Department of Law Enforcement reports on domestic violence offenses by type of offenses and by County. In 2014, there were 366 domestic violence offenses reported by the North Miami Police Department. The offenses were comprised of 253 simple assaults, 77 aggravated assaults, 22 threat/intimidation incidences, 6 forcible rapes, 4 stalking incidences, 3 murders, and one forcible fondling.

What are the housing and supportive service needs of these populations and how are these needs determined?

Elderly/Frail Elderly Persons

The housing needs of elderly and frail elderly households include affordable housing, accessible housing, and housing rehabilitation assistance due to deteriorating housing stock. The 2007-2011 CHAS data supports the need for affordable housing for elderly households. Census data indicated that almost 30% of elderly persons have a disability which supports the need for accessible housing units. Based on prior years outcomes of the Owner-Occupied Housing Rehabilitation Program, a significant number of the households assisted were elderly households. Generally, seniors are not able to afford the maintenance of their homes due to lower and fixed incomes. The Alliance for Aging, Inc. covers Miami-Dade and Monroe Counties. The Alliance for Aging (the Alliance) is responsible for planning, coordination, administering, and monitoring Area Agency on Aging programs. According to the Area Plan on Aging Program Module for the period January 1, 2013 – December 31, 2015⁷, the agency used several methods to collect information on the needs of senior Floridians including local surveys, Florida Department of Elder Affairs statewide survey, public hearings, and an Elder Helpline focus group. The needs identified from the assessment were for more and increased options or services in the following areas:

1. Transportation and mobility
2. Elder housing
3. Accessible mental and dental health services
4. Medication Management services
5. Respite care for Caregivers
6. Home-based services (short and long-term)
7. Better trained staff for Home-based services

According to the Area Plan on Aging, 19% of respondents over the age of 60 years provided care to others and the majority of caregiving elders (85%) care for another person over the age of 60. The needs identified by respondents include emotional support, information about resources, financial assistance, training on how to provide care, and assistance with household chores. The Alliance provides funding for respite services that provide caregiver stipends and funds a Caregiver Specialist position. The Caregiver Specialist provides crisis support, education and outreach to family caregivers, and raises awareness about home- and community-based services, among other responsibilities.

In regards to transportation, seniors in Miami-Dade County are served by transit buses as well as paratransit services provided by Special Transportation Service (STS) however elderly persons still have problems accessing transportation services. The Alliance utilizes Title III-B funding and state funding to support transportation to congregate meal locations and adult day care.

The surveys found that most seniors are aging in place and that 25% need help with minor repairs, 21% had major repairs, and 13% had roofing or plumbing issues.

⁷ Area Plan on Aging Program Module, January 1, 2013 – December 31, 2015, Published November 2012:
<http://www.allianceforaging.org/about-us/area-plan-on-aging>

A public hearing held in North Miami identified transportation, home-delivered meals, home visits to isolated elders, respite care, consumer medical supplies, and mental health services as the main needs for seniors. More socialization and recreation services and enrichment activities at senior centers were also identified as needs. The needs of elderly households were also determined from consultation with social service providers.

The Miami-Dade Community Action and Human Services Department provides a variety of services for elderly persons and persons with disabilities. Supportive services included care planning, Foster Grandparent Program, Home Care, Meals for the Elderly, Meals on Wheels, Retired & Senior Volunteer Program, Specialized Senior Centers, and Senior Companion Program. Services of disabled persons include Adult Day Care, Independent Living Program, case management, in-home support, group-therapy, family and individual counseling, and assistance in finding jobs and accessible housing.

Persons with HIV/AIDS

The Miami-Dade HIV/AIDS Partnership conducts an annual needs assessment. The 2014 Needs Assessment⁸ identified service utilization data under the Ryan White Program. The top service categories are outpatient medical care, oral health care, prescription drugs, mental health therapy/counseling, health insurance services, outpatient substance abuse treatment, transportation vouchers, food bank, residential substance abuse treatment, legal assistance, and outreach.

In 2013, the County expended \$20,956,338 in Ryan White Program funds to serve 9,624 clients for an average cost of \$2,178. The following table identifies the total number of unduplicated clients served by service category between 2009 and 2013.

Service Category	2009	2010	2011	2012	2013
MCM/PESN	8,444	8,457	8,322	8,293	8,368

Victims of Domestic Violence

The Florida Coalition Against Domestic Violence published a report titled *Real People, Real Needs, Real Commitment, Domestic Violence in Florida 2010-2011*⁹ which identified the reasons that victims of domestic violence remain in shelters for longer periods. The identified needs are lack of affordable housing, lack of employment, and outreach and advocacy services. The National Network to End Domestic Violence publishes an annual census on the number of adults and children seeking domestic violence services in the United States. The 2014 report¹⁰ provides information by state. According to the report there are 42 certified domestic violence centers in Florida which reported that there were 224 unmet requests for services on one day (September 10, 2014). The most frequent unmet need was housing, followed by financial assistance, and legal representation. The main cause for the unmet need was lack of funding. The domestic violence program reported a 21% reduction in government funding, 14% cut from private funding sources, and a 10% reduction in individual donations.

Discuss the size and characteristics of the population with HIV/AIDS and their families within the Eligible Metropolitan Statistical Area:

The Miami-Dade HIV/AIDS Partnership 2012-2015 Comprehensive Plan¹¹ for HIV/AIDS includes demographic data from the Florida Department of Health from 2010. According to the data, there were a total of 25,422 PLWHA in the County and 10,917 or 43% had unmet needs. The racial makeup of the HIV/AIDS population was 47% African American, 39% Hispanic, 12% White, and 1% other.

The Florida Department of Health 2013 Epidemiological Profile¹² for Miami-Dade County estimated that there were 26,490 PLWHA in Miami-Dade County. According to the Assessment, although Blacks

Figure 7 - HIV/AIDS Cases through 2013 - Miami Dade County

Discussion:

There is limited data available on the non-homeless special needs population in the City of North Miami especially for persons with alcohol or other drug addiction, persons with HIV/AIDS, and victims of domestic violence. Therefore, the discussion of the housing and supportive needs of these populations are primarily for Miami-Dade County.

The City utilizes CDBG funds for public service activities that provide services for members of special needs populations. Due to limited funding, the City also refers non-homeless persons requiring supportive housing to Miami-Dade County providers.

In regards to the housing needs, there are five subsidized rental properties located in the City of North Miami which provide 1,009 units for low income households. The City also utilizes CDBG and HOME funding to rehabilitate owner-occupied housing units which allows elderly persons to age in place and improves accessibility for persons with disabilities and seniors.

NA-50 Non-Housing Community Development Needs – 91.215 (f)

Describe the jurisdiction's need for Public Facilities:

Public facilities include senior centers, homeless facilities, youth centers, neighborhood facilities, health facilities, parks and recreational facilities and other facilities that are publicly owned or that are traditionally provided by the government, or owned by a nonprofit, and open to the public. The City of North Miami is in need neighborhood and community centers, youth centers, mental health facilities, and park improvements.

How were these needs determined?

The need for public facilities was determined through the community consultation process including resident surveys and input from focus groups. The resident survey asked members of the public to rank and prioritize activities and services and the following results were the priority assigned for public facilities:

- Homeless Shelters - Low
- Senior Centers – Low
- Neighborhood and Community Centers – High
- Youth Centers – High
- Mental Health Facilities - High

During a focus group meeting with representative from social service providers and residents of North Miami, one of the main non-housing community development needs identified was a resource centers for immigrants that would provide outreach and referral services to programs and services that reduced the poverty level of these individuals.

Public facility needs were also identified in the City's Capital Improvement Program (CIP) for FY 2014-2019. The CIP includes over \$5 million in funding for park projects that include improvements to Rucks Park to develop multi-purpose athletic fields, picnic pavilions, restroom and concession facilities, and an aquatic facilities. Other park and recreation projects include a dog park at North Bay Shore and new equipment at a Tot Lot Park.

Activities/Projects	FY 2015-2019 Needs
• Parks and recreation – court resurfacing	\$ 200,000
• Parks and recreation – hurricane shutters	\$ 60,000
• Parks and recreation – Rucks Park development	\$ 5,000,000
• Parks and recreation – Sasso Pool renovations	\$ 200,000
• Parks and recreation – Tot lot and dog park	\$ 50,000
Total	\$5,510,000

Describe the jurisdiction's need for Public Improvements:

Based on the City's FY 15-19 Capital Improvement Plan, the City of North Miami has identified the below list of public infrastructure and improvements projects which are needed over the four-year period starting from FY 14-15 and ending in FY 18-19. These activities/projects will be carried on a City wide basis and be mainly funded through the City's general fund, transportation surtax, and ad valorem revenue. CDBG funds will be to fund capital improvements and public facility projects within areas that are considered low- and moderate-income areas where more than 51% of the population have household incomes that are at 80% of the area median income or less as determined by HUD annually.

Activities/Projects	FY 2015-2019 Needs
• Sidewalks installation and repairs near roadwork	\$ 800,000
• Street resurfacing	\$ 3,650,000
• Arch Creek bike paths & bridges	\$ 20,000
• Capital improvements – Streets	\$ 1,100,000
• Downtown revitalization/beautification	\$ 1,959,418
• Install transit shelters	\$ 148,000
• Repair/improve roadway medians and curbs	\$ 412,000
• Water equipment	\$ 163,200
• Water line replacement	\$ 1,500,000
• Water meter replacement	\$ 5,224,820
• Upgrade of existing lime softening water plant	\$26,429,495
• Sanitary sewer rehabilitation – gravity improvement	\$ 9,750,000
• Storm water improvements	\$ 4,653,606
Total	\$55,810,539

How were these needs determined?

The public improvements needs were through a review of the City's FY 2015-2019 CIP Plan as well as from input from public survey and focus groups. A total of 68 participants that took the North Miami Consolidated Plan Public Survey ranked and prioritized the need for public infrastructure and 51% identified public infrastructure including improvements as a high need.

Describe the jurisdiction's need for Public Services:

The City of North Miami has identified the following public service needs for its low- and moderate-income population:

- Senior Services
- Youth Services
- Substance Abuse Prevention Programs
- Educational Support
- Services for Persons with Disabilities
- Health Services
- Fair Housing Services
- Child Care Services

How were these needs determined?

The public service needs were determined through the community consultation process including public meetings, focus groups, and public surveys. The public surveys identified services for seniors, youth, and persons with disabilities, educational support, childcare services, fair housing services, health services, and substance abuse prevention programs as High Priority activities. The responses identified legal services and services for persons with HIV/AIDS as Low Priority activities.

Housing Market Analysis

MA-05 Overview

Housing Market Analysis Overview:

Housing is an essential component of any community. It serves as the primary indicators of the health of the community. In the Consolidated Plan, this section is intended to describe the characteristics of the City's existing housing market, the supply and demand within the local housing market. According to the 2007-2011 ACS report, the City of North Miami featured 21,585 units of which 40% were 1- unit detached structure and 42% were 20 or more units, a fairly equal ratio in terms of low density single family residential units and high density multi-family residential units. The remaining housing stock (2 to 4 units and 5 to 19 units) were evenly distributed at 7% each except for the 1-unit attached at 4%. The owner-to-renter occupancy was approximately 45%/39%.

Based on the report, the housing stock was over 50 years which is considered an aging housing supply. 13,893 units or 76.67% of the total 18,120 occupied housing units were built between 1950 and 1979 and 1,890 or 10.53% before 1950. These units are more likely to need improvement and contain lead based paint. The older housing stock may not be suitable to serve persons with disabilities and must be updated. According to the ACS report, 54% of the owners and 60% of the renters were identified as having one or more of the four housing problems identified by HUD including lack of plumbing facilities; lack of kitchen facilities, overcrowding and cost burden. Furthermore, the housing condition data was described using income categories as a significant characteristic. It was estimated that 3,510 renters and 1,870 owners within the 0-50% of the area median household income had one or more housing problems. Based on our experience, owner households falling within these income categories are less likely to keep with maintenance and mortgage payments and renters are more likely to leave in substandard units.

Given the age of the units and the high percentage of low income households with one or more housing problems, the City has had to develop housing programs that addressed some of the needs in the 2010-2016 Consolidated Plan. The City has a Direct Homeownership Assistance program where it assisted owner-occupied household in improving their home, removing the lead based paint, and paint new homes. There is also a first time homebuyer program that provides assistance to eligible buyer seeking to purchase a home and that was presented in the 2012-2013 CAPER.

The ACS 2007-2011 report revealed that a higher percentage of the City's households were cost burden and severely cost burden. The households within the 0-30% of the area median household income that were severely cost burden or paying 50% or above for housing were at risk of being displaced or leaving in shelters. The City may seek to create programs that assist shelters or increase their current tenant based rental assistance. In 2012-2013, only 3 families were assisted under the tenant based rental assistance program (TBRA).

The City does not issue section 8 vouchers and does not manage any public housing units. All federally assisted units are administered by Miami Dade County. According to the Florida Housing Data Clearing House and the HUD- GIS Map, there are 5 assisted housing units including 2 low income Housing Tax Credits and three (3) 202 direct loan projects including 2 serving people with disabilities.¹³

(According to the Florida Housing Data Clearinghouse- Shimberg.ufl.edu- in 2013, the City's population in 2013 was 60,264 with household of 20,097 and homeownership rate of 51.55. Single family median sales prices in the City has declined as any City in Florida during the recession from 2009 and reaching its lowest point in 2012 with 124,450. However, it has increased \$155,500 in 2014. Median Sales for Condominiums had experience a significant drop during same period, reaching its lowest point in 2010 at \$54,000; however, it has grown by over 500% to \$235,000 in 2014. The average sale price for a single family was \$366,936 in 2014. Sales price continue to rise in South Florida and according the Florida Realtor, the median sales price for single family in the Miami-Fort Lauderdale –Pompano MSA was \$282,300 as of April 2015, an increase of 6.6% over last year and \$155,000 for condominiums.

MA-10 Number of Housing Units – 91.210(a)&(b)(2)

Introduction

The 2007-2011 ACS data reported a total of 21,585 housing units. Of the total, 8,678 or 40% were 1-unit detached structure and 9,114 or 40% were 20 or more units, indicating nearly an equal mix of single family and multi-family residential units. Of the 21,585 total housing units, there were 9,633 owner-occupied or 44.62% and 8,487 or 39.31% renter-occupied, for a total of 18,120 occupied housing units.

All residential properties by number of units

Property Type	Number	%
1-unit detached structure	8,678	40%
1-unit, attached structure	865	4%
2-4 units	1,473	7%
5-19 units	1,455	7%
20 or more units	9,114	42%
Mobile Home, boat, RV, van, etc.	0	0%
Total	21,585	100%

Table 26 – Residential Properties by Unit Number

Data Source: 2007-2011 ACS

Unit Size by Tenure

	Owners		Renters	
	Number	%	Number	%
No bedroom	205	2%	389	5%
1 bedroom	1,078	11%	3,841	45%
2 bedrooms	2,775	29%	3,095	36%
3 or more bedrooms	5,575	58%	1,162	14%
Total	9,633	100%	8,487	100%

Table 27 – Unit Size by Tenure

Data Source: 2007-2011 ACS

According to the 2007-2011 ACS report, 58% or 5,575 of the owner-occupied units were 3 bedrooms, followed by 29% or 2,775 of two-bedroom and 1,078 or 11% one bedroom units. Conversely, 45% or 3,081 of the renter occupied units were one bedroom units, 36% or 3,095 were 2 bedroom units and 1,162 or 14% were 3 bedroom units. The average size of household for both owners and renters were estimated at 3 persons per household.

Describe the number and targeting (income level/type of family served) of units assisted with federal, state, and local programs.

The 2007-2011 ACS reported in the needs assessment section an estimated 18,120 households in 2011, a reduction of 11% from 20,427 in 2000. The report described the type of households and categorized them by income levels. HUD defines low income families as families whose income is at or below 80% of the area median household income. The data estimated that there were a total of 3,635 households within the 0-30%; 3,525 within the >30 % to 50% income category and 3,840 within the >50% to 80% income category and these households are all eligible to receive federal, state and local assistance. HUD defines the 0-30% as extremely low income households; the >30 to 50% as very low income and >50% to 80% are low income households.

The Consolidated Annual Performance and Evaluation Report (CAPER 2013-2014) reported on housing accomplishments utilizing federal, state and local programs funding. The housing activities undertaken during the 2013-2014 fiscal year consisted of housing development, first time homebuyer assistance, housing rehabilitation, roof and window replacements, painting, hurricane shutter installation assistance, tenant based rental assistance and lead based paint inspections.

Under Direct Home Ownership assistance, there were 51 households assisted. There were 45 households assisted within the 0-50% income category and 19 households assisted within the >50% to 80% of the area median household income. Service was provided to 3 white, 43 blacks and 8 Hispanics.

Twenty seven homes received minor repair assistance. Of the 27 households, 24 were extremely low and very low income and 3 were low income. Seventeen of the 27 homes were occupied by Senior Citizens (62 and older). In addition, 4 single family units were completed using HOME funds; two of the recipients were very low income and 2 were low income. In addition, 1 extremely low and 2 low income households were provided with tenant based rental assistance. In summary, a total of 58 households were assisted during the 2013-2014 fiscal year.

Provide an assessment of units expected to be lost from the affordable housing inventory for any reason, such as expiration of Section 8 contracts.

The City of North Miami does not issue any section 8 contracts at this time. Miami-Dade County administered the federally assisted units. According to the Florida Housing Data Clearing House (FHDC), there are 5 federally assisted projects located in the City of North Miami. They include: Ahepa 421 apts. A 202 project with 80 elderly units which will expire in 2043; Buena Vista, a 20 unit-project for people with disabilities and financed with 202 direct loan will expire in 2017; Center Court, a 4% financed Low Income Housing Tax Credits (LIHTC) dedicated to family will expire in 2028; Cator Street LC with 28 units;

and Colonial apartments, a 202 project with 9 units targeting people with disabilities will expire in 2037. Based on the data 20 units could be lost in 2017.¹⁴

Does the availability of housing units meet the needs of the population?

According to the 2007-2011 ACS report, the City of North Miami had 9,633 owners and 8,487 renters. Of the 9,633 owners, 24.76% or 2,335 owners within the 50% and below of the area median household income were cost burden or paying 30% of their income towards housing compared to 15.57% or 1,500 owners within the >50% to 80% income category. There were 1,870 owners or 19% within the 50% and below of the area median income were paying 50% and above of their income for housing while 840 or owners or 8.7% of the owners within the 50% to 80% of the income limits paid 50% of their income for housing.

The numbers were significant higher for the renters. According to the report, 4,110 renters or 48% within the 50% and below of the area median income were paying 30% of their income for housing and 3,115 or 36.7 % of renters within the same income category were paying 50% and above of their income for housing. The number dropped for income categories of >50 to 80%; 12.2% of households were paying 30% of their income for housing and 10.35% were severely were paying 50% of their income for housing. The existing housing stock does not match the needs of the extremely low and very low income households. There are not sufficient available and affordable units for these households.

According to a 2013 rental housing market study completed by the Shimberg Center for Housing Studies, there is significant shortage of affordable and available units for households within the 0% to 80% of the area median household income. The study estimated that Florida has only 31 affordable and available units for every 100 households with incomes 0-30% area median income, a deficit of 315,000 units. That study completed same analysis for the larger counties in Florida including Miami Dade County, it was determined that Miami Dade County has 33 units affordable and available for every 100 households with incomes 0-30%, (a deficit of 48,885) and 38 units for every household within the 0-50% (a deficit of 83,671). There was no data reported at the city level but the study mentioned most areas of the state have shortfalls of affordable units at the 0-30% and 0-50%. Source: 2013 Rental Market Study: Affordable Housing Needs. http://www.shimberg.ufl.edu/publications/Full_RMS_Needs.pdf

The Florida Housing Finance Corporation inventory shows a list of properties that were developed in Miami Dade County for 1990 to 2010. 33%. http://flhousingdata.shimberg.ufl.edu/a/ahi_basic. The information was further analyzed to show that 77% or 21,312 of the units produced in Miami Dade County were at 60% of the area median household. 3,736 or 14% were produced at 35% to 50% and 1,321 or 5% were produced at 33%.

http://flhousingdata.shimberg.ufl.edu/a/ahi_neighborhood_charts

Describe the need for specific types of housing:

The 2007-2011 ACS in the needs assessment describes the number, type, tenure and size of housing. To determine the need for specific type of housings, there were 3 methods used. The first approach is to review household type and evaluate the number of households with the highest need for assistance using income category as the basis for evaluation. Using this approach, small family households with 4,485 households within the 0-80% of the area median income and 2,760 within the 0-50% of the area median income has the greatest need for housing assistance. The elderly group, 62 and older was the second largest category. There were 1,945 elderly aged 62 to 74 within the 0% to 80% of the area median income and 1,060 aged 75 and older that fell within the 0-80% of the area median household income.

The second approach is to review household tenure and determine the group with the highest need for assistance using income and cost burden as the basis for evaluation. According to the 2007-2011 report, there were 2,210 renters within the 0-30% income category and 1,900 within the >30 to 50% category and 1,040 within the 50% to 80% category that were paying above 30% of their income towards housing, higher than owners in all categories. The renters within the 0-30% area median household and paying 50% and above had the greatest need for assistance.

The 3rd approach is to review the number of bedroom available for renters. There were 8,487 rental units, only 1,162 or 14% are 3 bedroom units and the average household was three (3) persons. There were 1,275 or 15% renters experiencing overcrowding.

Using the above described methods to evaluate housing needs by household type, it was determined that the following housing types are needed:

- Affordable, smaller units such as 2 and 3 bedroom townhouses for sale
- Multi-units such as twin homes or duplex of 2 and 3 bedrooms for sale
- Affordable, rental units for extremely low and very low income households of 2 and 3 bedroom units
- Senior housing one and 2 bedroom units.
- Assisted senior housing one bedroom units.
- Transitional homes for households at risk of becoming homeless.

MA-15 Housing Market Analysis: Cost of Housing - 91.210(a)

Introduction

The cost of housing had significantly increased in Florida in mid-2000's and particularly in urban areas. According to report prepared by Shimberg Center for Housing Studies- Florida Housing Data ClearingHouse-2014, the City of North Miami Median sales prices for single family steadily increased from 2000 on and reached its peak in 2008 at \$221,000. During the recession, median sales price decreased for 3 consecutive years and was it lowest point in 2012 at \$124,450 and went up in 2014 to \$155,500. The average sales price for 2014 was \$366,936. For condominiums, the median sales price peaked at \$233,500 in 2007, slowed down during the economic recession, reaching its lowest point in 2011 at \$54,000 to increase to \$235,000 in 2011. (Source: Florida Department of Revenue, sales data files).

Low HOME Rent	602	645	773	894	997

Table 31 – Monthly Rent

Data Source: HUD FMR and HOME Rents

Is there sufficient housing for households at all income levels?

According to the 2000 US Census and the 2007 -2011 ACS report, the housing market experienced significant cost increases. The Median Home value grew by 129% and median contract rent by 54%. 67% of renters were paying \$500 to \$999 and 23% were paying \$1,000 to \$1,499. Under NA-10, according to the 2000 Census and the 2007-2011 ACS, the area median household income increased from 2000 (29,778) to 2011 (37,792) by 27%, a significant increase. However, if we use the definition of affordable housing as paying 30% of income for housing, the affordable monthly rent would \$945. A significant number of renters re paying more than \$945 for housing as shown on the rent paid above. HUD did not provide a monthly mortgage amount for owners; however, using the median sales price of \$155,000 in 2014, the mortgage would be higher than \$945, which represents 30% monthly housing ratio for the median household income of \$37,792.

In terms of affordability, the 2007-2011 ACS report identified 4,340 renters in the 0-30% area median income category, of which 2,210 or 51% were cost burden and 2,130 or 49% were severely cost burden. For the owners within the 0-30% income category, 1,830 or 55% were cost burden and 45% were severely cost burden. For the renters within the >30% to 50%, there were 2,885 households and of that total, 1,900 or 66% were cost burden and 34% were severely cost burden. For the owners, there were 2,175 within the >30 to 50% income category, 1,335 or 52% were cost burden and 48% were severely cost burden. Within the 50% to 80% income category, there were 1,920 renters of whom 54% were cost burden and 46% were severely cost burden. There were 2,340 owners and 1,500 or 64% were cost burden while 840 or 36% were severely cost burden.

The ACS report identified a total 3,475 affordable owner units and 7,065 affordable rental units. Of the rental units, 295 units were units affordable to households at 0-30%; 810 units were affordable at 50% and 5,900 for households at 80%. As indicated earlier, there were 4,340 renters within the 0-30%; 2,885 at >30 to 50% and 1,920 at >50% of 80%. There was a shortage of rental units for the 0-50%

income level. However, there was a surplus in the 50% to 80%, 5,900 affordable units versus 1,920 households in that category. There might be cases where the households in the 50 to 80% are renting in the 0-50% market.

For the owner household, no affordable unit data was provided for the 0-30% income category. There were only 925 affordable units at 50% income category and 2,175 households at 50% and below. There were 2,550 affordable units and 2,340 household owners in this category. For the owners, the deficit is within the household at 50% and below, particularly in the >30 to 50% since no data was available for the 0-30%.

How is affordability of housing likely to change considering changes to home values and/or rents?

The affordability of housing in the City of North Miami is likely to worsen, particularly for renter households within the 0-30% income category and 0-50% income category. According to the 2007-2011 ACS report, the Median Home Value is \$196,600 in 2011. According to the Shimberg Center for housing studies North Miami profile, the median sales price in 2014 was \$155,500 and continues to go up. According to the Florida Realtors, in April 2015, the statewide median sales price for is \$195,000 compared to \$175,000 in April of last year. Statewide, the average sales price was \$288,023 in April 2015 compared to \$266,511 last year. In the Miami-Fort Lauderdale- Pompano MSA, the median sale price for single family homes was \$282,500 and \$155,000 for condominiums. <http://www.floridarealtors.org/ResearchAndStatistics/Florida-Market-Reports/Index.cfm>.

How do HOME rents / Fair Market Rent compare to Area Median Rent? How might this impact your strategy to produce or preserve affordable housing?

According to HUD, the fair market rent for studio, 1, 2, 3 and 4 bedroom units are \$719; \$876, \$1,122; \$1,539 and \$1,799 respectively. The fair market rent is higher for all housing types than the Low Home and the High Home rents that are regularly used for most subsidized units including units financed with federal (HOME, LIHTC and CDBG) and State (SHIP) or local in some instances (Surtax for Miami Dade County).

The Shimberg Center for Housing Studies in a short study - Affordable Rental Housing Needs: Miami-Fort Lauderdale-West Palm Beach MSA- prepared an update to a 2013 Statewide Rental Market Study. It was reported that median rent increased from \$955 per month in 2000 \$1,100 in 2013. As of May 2015, according to a report published by Reator.com, the average rent price is \$1,795 for an inventory of 168 units. The median rental rate for a one bedroom unit was \$1,141 (available 59 units); \$1,573 for 2 bedrooms (available units 53); \$2,389 for 3 bedrooms (available units 35) and \$3,610 for 4 bedrooms (available units 11). The Current market rates in the City of North Miami per bedrooms are higher than the Fair Market Rent, Low and High Home Rents. With the current costs of housing, preserving affordable housing and producing affordable units using federal, state and local funds warrant consideration going forward.

MA-20 Housing Market Analysis: Condition of Housing – 91.210(a)

Introduction

The 2007-2011 ACS estimated a total of 9,633 owner-occupied and of the total owner occupied units, 54% had at least one of the four selected housing conditions as defined by HUD: (1) lack of complete plumbing facilities; (2) lack of kitchen facilities; (3) more than one person per room; and (4) cost burden greater than 30% of household income. Only 5% had 2 selected conditions among owners. Of the 8,487 renter occupied units, 60% had at least one of the four selected problems and 11% had 2 of the selected problems. Based on the data provided, over half of the occupied units may need some improvement.

Condition of Units

Condition of Units	Owner-Occupied		Renter-Occupied	
	Number	%	Number	%
With one selected Condition	5,199	54%	5,058	60%
With two selected Conditions	445	5%	904	11%

Table 35 - Vacant Units

Need for Owner and Rental Rehabilitation

According to the HUD data, 79% of the owner-occupied unit and 74% of the renter occupied units were built between 1950 and 1979. There were 54% of the owner-occupied units and 60% of the renter occupied units with one of the four selected housing problems based on HUD housing problems definition. Based on this data, there is a need for both owner and renter rehabilitation program. According to 2012-2013 Year Consolidated Annual Performance Report (CAPER), the city has made homeowner rehabilitation a priority. Under this program, there were 51 homeowners assisted with rehabilitation activities. Of the homes assisted, 20 were senior citizens or persons with special needs. The report did not address rental rehabilitation. However, rental rehabilitation is an identified need based on the data provided in the Comprehensive Housing Affordability Strategy (CHAS) report.

Estimated Number of Housing Units Occupied by Low or Moderate Income Families with LBP Hazards

The 2007-2011 ACS report as well as the 2007-2011 CHAS reports estimated the total number of units built before 1980 at 8,866 for owners and 6,916 for renters for a total of 15,882 with no children with possible exposure to Lead Based Paint. The estimated numbers for owner-occupied units with children built prior 1980 were 135 and 300 for renters. It was estimated in the Needs Assessment section that there were 3,635 households within the 0-30% income category; 3,525 within the >30-50% income category; and 3,840 within the 50% to 80% income category for a total of 11,000 low to moderate income households. Furthermore, the data shows there were a very high incidence of very low, low and moderate income households with one or more problems. There were 4,055 renters and 3,110 owners for a total of 7,165 households or 39.5% of the total 18,120 households with one or more housing problems within the 0-80% of the area median household income. If we apply that rate, the total number of low income households with no children with possible exposure to lead based paint is 6,280.

MA-25 Public and Assisted Housing – 91.210(b)

Introduction

According to the Public and Indian Housing (PIH) information center, there are 89 vouchers , 2091 moderate rehabilitation units, 9,219 public housing units and 14,606 vouchers- 33 project based and 14,573 tenant based. The City of North Miami does not have a public housing authority unit and does not issue voucher or administer public housing units. Miami Dade County Public Housing and Community Development administered all public housing units and section 8 vouchers in the County.

Data Source: PIC (PIH Information Center)

Describe the supply of public housing developments:

As indicated earlier, the City of North Miami does not issue any section 8 contracts at this time. Miami-Dade County administered the federally assisted units. According to the Florida Housing Data Clearing House (FHDC), there are 4 federally assisted projects located in the City of North Miami. They include: Ahepa 421 apts. A 202 project with 80 elderly units; Buena Vista, a 20 unit-project for people with disabilities; Center Court, a 4% financed LIHTC; and Colonial apartments, a 202 project with 9 units targeting people with disabilities. Of the 697 units, there are 381 one-bedroom units, 211 two-bedroom units and 23 3bedroom units.

Describe the number and physical condition of public housing units in the jurisdiction, including those that are participating in an approved Public Housing Agency Plan:

As indicated earlier, there were no public housing units in North Miami. All public housing and section 8 vouchers are administered by Miami Dade County. The Miami Dade County did not describe the conditions of the public housing separately in the 2013-2017 Consolidated Plan.

Public Housing Condition

Public Housing Development	Average Inspection Score
Not Applicable	Not Applicable

Table 37 - Public Housing Condition

Describe the restoration and revitalization needs of public housing units in the jurisdiction:

No data was provided on the conditions of the public housing units. However, the Shimberg Center for Housing Studies completed a study titled- 2013 Rental Market Study: Public and Assisted Housing where estimated number of public housing units was provided for large and small counties. Florida's total public housing unit dropped from 45,749 in 1996 to 34,213 in 2013.

The report also provided the HUD's Real Estate Assessment Center scores. Seventy-nine percent of the developments received scores of 75 and higher.

Describe the public housing agency's strategy for improving the living environment of low- and moderate-income families residing in public housing:

However, the Public Housing strategy is included and except of that plan is described below. The 5-year plan is expanding the supply of assisted housing and the objectives are as follows:

- Reduce the supply of assisted housing
- Acquire and build units or developments through public/private partnerships
- Improve the quality of assisted housing
- Increase customer satisfaction
- Concentrate on efforts to improve specific management functions
- Renovate and modernize public housing units
- Provide replacement public housing
- Increase assisted housing choices

MA-30 Homeless Facilities and Services – 91.210(c)

Introduction

The City of North Miami is a participant in the Miami-Dade County Continuum of Care (CoC). The lead applicant for the CoC is the Miami-Dade County Homeless Trust (the Trust). The Trust was created in 1993 by the Board of County Commissioners (BOCC) for the purpose of administering the proceeds of the 1% food and beverage tax, implementing the local CoC plan known as the Miami-Dade County Community Homeless Plan, and to serve in an advisory capacity to the BOCC on issues involving homelessness.

According to HUD's 2014 Homeless Populations and Subpopulations report, as of the January 2014 Point-in-Time (PIT) count, there were 4,156 homeless persons or 3,191 homeless households within the CoC boundaries. Of the 3,191 homeless households, 2,371 households were sheltered (1,454 households in emergency shelters and 917 households in transitional housing) and 820 households were unsheltered. The breakdown by homeless subpopulation follows:

Subpopulation	Number of persons
Chronically homeless	732
Severally Mentally Ill	988
Chronic Substance Abuse	873
Veterans	317
HIV/AIDS	114
Victims of Domestic Abuse	317

Figure 8 - Homeless Subpopulations - Miami-Dade County 2014

Table 38, Facilities and Housing Targeted to Homeless Households, was compiled with data from the HUD 2014 Housing Inventory County Report. According to the report, there were a total of 7,969 year round beds and 20 seasonal and 10 overflow/voucher beds reported by the CoC. The beds consisted of 3,649 emergency shelter, safe haven, and transitional housing year round beds and 4,320 permanent housing beds. Of the total bed inventory, 838 beds were dedicated to serve chronically homeless persons, 587 were dedicated to homeless veterans and their families, and 108 beds were dedicated to homeless youth age 24 and younger.

The Trust is not a direct service provider therefore Miami-Dade County partners with The Chapman Partnership (CPH), a non-profit organization that was responsible for the siting, construction, and operation of up to three Homeless Assistance Centers (HACs). The County also partners with several other agencies that provide housing and supportive services for homeless persons.

CPH has built two HACs, one in downtown Miami and the other in Homestead. Together the facilities house 800 residents. In addition to housing, the facilities provide comprehensive services including case management; legal services; support groups; budget planning and financial education; family enrichment and parenting classes; healthcare; dental care; mental health assistance; children services; job training, development, and placement services; and housing placement.

Facilities and Housing Targeted to Homeless Households

	Emergency Shelter Beds		Transitional Housing Beds	Permanent Supportive Housing Beds	
	Year Round Beds (Current & New)	Voucher / Seasonal / Overflow Beds	Current & New	Current & New	Under Development
Households with Adult(s) and Child(ren)	1,031		1,173	2,457	
Households with Only Adults	1,149		662	2,028	
Chronically Homeless Households	n/a		n/a	838	
Veterans	33		0	385	
Unaccompanied Youth	78		0	0	

Table 38 - Facilities and Housing Targeted to Homeless Households

There are numerous organizations that provide mainstream and non-mainstream services, housing for homeless persons and their families, as well as services and assistance to those at risk of becoming homeless. Mainstream benefits and services include education, child care services, healthcare services,

and public housing. The Miami-Dade County Directory of Housing and Services identifies over 14 agencies with several projects that provide permanent supportive housing and transitional housing as well as non-mainstream services including case management, counseling, referrals, recovery support, crisis intervention/resolution, budgeting/financial literacy classes, psychiatric treatments, and substance abuse treatment.

Describe mainstream services, such as health, mental health, and employment services to the extent those services are used to complement services targeted to homeless persons

According to the 2010 HUD Office of Policy Development and Research study titled 'Strategies for Improving Homeless People's Access to Mainstream Benefits and Services', mainstream services consist of publicly funded services, programs, and entitlements for low-income people that address basic needs, including, income and employment, housing, food and nutrition, health and behavioral health services, child welfare, and transportation.

In the City of North Miami, mainstream benefits, education, mental health and behavioral healthcare services, and public housing are provided by organizations such as the Department of Children and Families, VA Medical Center, Dade County Public Schools, Jackson Memorial Hospital, Citrus Health Network, Miami Dade Housing Agency, and the Social Security Administration.

The Florida Department of Children and Families has several programs that help families including TANF/food stamps, Medicaid, mental health and substance abuse, domestic violence, and child care.

The Miami-Dade County School District operates Project UP-START which assists schools with the identification, enrollment, and attendance of students that are homeless. Services include day-to-day case management, transportation, tutoring at shelters, and parenting groups and workshops.

Jackson Memorial Hospital/Public Health Trust is known for providing care to any persons that walks through its doors. Jackson Health System is an integrated healthcare delivery system that is comprised of Jackson Memorial Hospital; multiple primary care and specialty care centers; two long-term care nursing facilities; six Corrections Health Services clinics; a network of mental health facilities; Holtz Children's Hospital, Jackson Rehabilitation Hospital, Jackson Behavioral Health Hospital, Jackson North Medical Center and Jackson South Community Hospital.

The Miami Veteran Affairs Healthcare System offers a broad range of healthcare services as well as vocational rehabilitation and employment, education assistance, and various benefits and income sources.

Miami-Dade Public Housing and Community Development (PHCD) manages almost 9,200 units of public housing for the most disadvantaged members of the community. The agency also administers the Section 8 Housing Choice Voucher Program and provides 13,054 tenant-based vouchers. There are no public housing developments in the City of North Miami. Vouchers can be used outside of the County in other jurisdictions including North Miami and based on data available from the HUD CPD Mapping tool, 787 vouchers have been ported to North Miami census tracts.

Citrus Health Network is a Federally Qualified Health Center in Miami-Dade County. These centers serve medically underserved and uninsured residents of West Miami-Dade County and the City of Hialeah. The services provided including primary and preventative health care services. Other Federally Qualified Health Centers in Miami-Dade County include the Community Health of South Florida, Jessie Trice Community Health Center, Miami Beach Community Health Center, Banyan Health System, and Care Resource. There are two Federally Qualified Health Centers within the City of North Miami, the Douglas Gardens Community Mental Health Center and the Miami Beach Community Health Center North.

List and describe services and facilities that meet the needs of homeless persons, particularly chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth. If the services and facilities are listed on screen SP-40 Institutional Delivery Structure or screen MA-35 Special Needs Facilities and Services, describe how these facilities and services specifically address the needs of these populations.

There are several agencies and organizations that provide housing and supportive services to homeless persons in the Miami-Dade CoC region. The list below is comprised of organizations identified in the Directory of Housing and Services in Miami-Dade County¹⁵. The Directory includes resources for persons at risk of homelessness, currently homeless, and/or those requiring supportive services. The following is a list of facilities that serve the homeless population:

Volunteer of America of Florida – Hogar II

The services that are available to homeless persons include vocational and educational training, individual and group therapy, after-school tutoring, recovery support, crisis intervention/resolution, budgeting/financial literacy classes, psychiatric treatments, substance abuse treatment, medical assistance, parenting classes, self-sufficiency counseling, and independent living skills training.

Several agencies target their housing programs and supportive services to chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth. Some of the program and services that are available include:

- Camillus House Somerville Residence Program which targets disabled single-parent families and services include day care, referrals for health care and mental health services, life skills training, transportation, and intensive case management.
- Citrus Health Network – My Voice Project targets chronically homeless individuals and provides housing in the community and wrap around services.
- Lutheran Services Florida C.H.A.N.C.E Project, provides permanent housing for homeless individuals and families as well as supportive services that include financial workshops, transportation, and food bank.

The Directory of Housing and Services in Miami-Dade County also includes a listing of agencies that primarily provide supportive services for homeless individuals and families. The following agencies are identified in the Directory:

Bayview Center for Mental Health – Crossroads provides therapy, psychiatric, and case management services to dually diagnosed homeless individuals. The program also offers group, individual, and family counseling; medication management; and a nursing component. As clients stabilize and work towards self-sufficiency, on-going support is provided while the clients seek employment or complete job training.

Bayview Center for Mental Health – Mobile Assessment and Treatment Team (MATT) targets homeless persons with chronic mental illness. Services include outreach, screening, and case management services.

The Camillus House Mental Health Day Center specifically provides services to unsheltered, mentally ill, and chronically homeless persons. The agency provides outpatient mental health treatment services, referrals, life skill classes, and case management through its ‘Outpatient Treatment’ component and job development, social skills classes, and other engaging activities through the ‘Day Center’ component of the Program.

Camillus Health Concern through the Project Dade Cares project provides comprehensive healthcare to homeless families living in transitional housing, emergency shelters, and permanent housing programs.

Jewish Community Services of South Florida operates Project H.E.S.S., an employment and vocational services program which provides transportation assistance, work equipment, and training to homeless individuals and families. The agency also administers Project H.O.P.E which is a comprehensive employment services program.

Legal Services of Greater Miami assists homeless individuals and families including chronically homeless, women with children, veterans, victims of domestic abuse, and unaccompanied homeless youth, through the Homeless Legal Assistance Project. The legal services assist participants to overcome challenges in maintaining permanent housing, skills, and income.

Lutheran Services Florida provides financial and housing assistance including rental assistance, security deposit, utility deposits, and other limited assistance for child care and transportation needs related to employment.

MA-35 Special Needs Facilities and Services – 91.210(d)

Introduction

The City of North Miami provides special needs facilities and services through non-profit programs that serve one or more of the following groups: Elderly (62 years and older); Frail elderly (defined as an elderly person who requires assistance with three or more activities of daily living, such as bathing, walking, and performing light housework); Persons with mental, physical, and/or developmental disabilities; Persons with alcohol or other drug addiction; Persons with HIV/AIDS and their Families; and Victims of domestic violence, dating violence, sexual assault, and stalking. The public housing needs of North Miami residents are met by the Section 8 Housing Choice Voucher Program operated by the Miami Dade County Public Housing and Community Development Department.

Including the elderly, frail elderly, persons with disabilities (mental, physical, developmental), persons with alcohol or other drug addictions, persons with HIV/AIDS and their families, public housing residents and any other categories the jurisdiction may specify, and describe their supportive housing needs

The non-homeless special needs populations are typically in need of supportive housing and services. These needs are generally due to these individuals being on a fixed income, a lack of job opportunities, unaffordable health care, and substance abuse or mental health disorders. As a result, the supportive housing needs of these groups include but are not limited to affordable housing, rental subsidies, employment services, and affordable quality childcare. Supportive housing needs for persons with disabilities include group homes, assisted living center, nursing homes, health services, residential care, minor home modifications, employment assistance, and respite care. Elderly persons often need transportation, help accessing services, home-delivered meals, caregiver support, and residential repairs. Persons with alcohol or other drug addictions require individual and group counseling, case management, medication management, housing, transportation, and life skills training. Victims of domestic violence seeking help require emergency shelter, transitional to long-term housing, in addition to services for regaining independence such as education, training, employment, child care, transportation, legal services, and other services.

Describe programs for ensuring that persons returning from mental and physical health institutions receive appropriate supportive housing

The Bayview Center for Mental Health, located in the City of North Miami, serves persons with mental health needs. The Bayview Center provides consultation, counseling, and therapy services.

Specify the activities that the jurisdiction plans to undertake during the next year to address the housing and supportive services needs identified in accordance with 91.215(e) with respect to persons who are not homeless but have other special needs. Link to one-year goals. 91.315(e)

The City of North Miami will utilize CDBG funds for public service activities for low- and moderate-income persons. The specific public services activities to be carried out in FY 2015-2016 is dependent on the applications received during the City's RFP process.

MA-40 Barriers to Affordable Housing – 91.210(e)

Negative Effects of Public Policies on Affordable Housing and Residential Investment

The Housing Element of the City's Comprehensive Plan, which is currently being amended, includes as one of its goals "to ensure that housing in the City is decent, safe, and sanitary to serve the needs of the City's present and future residents." The City's housing stock is older and the inner core is built out with no land available for new construction. The City's main new development is *SoLe Mia*, formerly Biscayne Landings, a proposed mixed use development with a projected 4,000 residential units and \$1.7 million in commercial space. To date, 373 of the housing units have been developed. However, this major development does not include affordable housing. The Comprehensive Plan includes an analysis of anticipated housing needs based on estimated population growth and demographic trends in Florida.

Regulations and land use controls may create unintended effects of reducing the availability of affordable housing as they may significantly impact the location and type of housing and business investments and may increase the cost of development. The barriers to affordable housing in North Miami are:

- **Lack of resources for the development of affordable housing and infrastructure in support of affordable especially renter housing:** As grant sources, both Federal and State, are declining, resources for developing affordable housing are limited. Limited funding resources and the cost of retrofitting existing houses, are barriers to the availability and accessibility of housing for persons with disabilities. The majority of the City's CDBG and HOME grants (over 50%) is spent on owner-occupied housing rehabilitation. Some focus group and resident feedback encourage the investment of more federal funds on rental housing but it was determined by a majority of responses as a low priority except where used for HOME CHDO activities.
- **Exclusion of some affordable housing types from all residential districts:** Accessory dwelling units can accommodate new housing units in existing neighborhoods, provide housing options for lower income persons, and allow for efficient use of the city's existing housing stock and infrastructure. The City has "reserved" the policy of studying the feasibility of adopting an Accessory Dwelling Unit Ordinance in its Comprehensive Plan amendment.
- **Rezoning requirements may encourage NIMBYism:** Land for infill housing or large housing developments is limited and may require rezoning of parcels. The processing of applications for rezoning may require publication, personal notice, and a posted notice on the parcel to be rezoned. This procedure affords citizens the ability to comment on and influence the rezoning process and there may be resistance to rezoning efforts in some neighborhoods which coupled with the difficulty in assembling residential land reduces the availability of affordable housing.

Impediments to Fair Housing Choice

In addition to the regulatory barriers identified above, the City also conducted a HUD required Analysis of Impediments to Fair Housing Choice in 2004 and updated in 2010 (the latter published in February 2011). The impediments listed below were identified for the City of North Miami. According to the HUD

Fair Housing Planning Guide, impediments to fair housing choice are any housing related actions, omissions, or decisions:

- a. *That are taken because of someone's membership in one of the "protected classes" under the Federal Fair Housing Act (FHA) or Title VIII of the Civil Rights Act of 1968, and amended in 1988 (race, color, national origin, religion, gender, familial status, and disability) and that restrict housing choices or the availability of housing.*
- b. *That has the effect of restricting housing choices or the availability of housing choices on the basis of membership in the protected classes.*¹⁶

Impediments¹⁷

1. Discrimination on the basis of protected class in violation of federal, state, and local fair housing laws:

Families with children are denied housing through outright refusal to rent or other discriminatory practices; Housing providers are not making the accommodations and modifications necessary to make housing available to persons with disabilities Over 50% of the [fair housing] complaints received by H.O.P.E., Inc. identified disability as the basis for housing discrimination are based on failure to make reasonable accommodations.

2. Shortage of Affordable/Accessible Housing:

No area-wide cooperative effort to provide affordable housing; an insufficient number of accessible/homeless housing units

3. Lack of Knowledge of Fair Housing Protections and Redress under Fair Housing Laws:

While the need for Fair Housing training is evident, resident survey results show the positive impact of education and outreach as similar surveys conducted in the past have yielded far less desirable results. This is an indication that continuing investing in Fair Housing training can have the effect of creating a population of persons knowledgeable of their rights and responsibilities afforded under Fair Housing laws.

4. Fair and Equal Lending Disparities:

There are large differences in the market penetration rates for different racial and ethnic areas for refinance loans, resulting in higher levels of subprime lending in Hispanic and African-American areas

5. Strongly segregated housing market

6. No County-wide Cooperative Effort to Affirmatively Further Fair Housing

¹⁶ U.S. Department of Housing and Urban Development Office of Fair Housing and Equal Opportunity. Fair Housing Planning Guide: Volume 1 (Chapter 2: Preparing for Fair Housing Planning, page 2-7) March 1996

MA-45 Non-Housing Community Development Assets – 91.215 (f)

Introduction

The City of North Miami is a suburban city that is home to the Biscayne Bay Campus of Florida International University and the North Campus of Johnson & Wales University. Originally, the town was named Arch Creek which was associated with the opening of the Arch Creek Railroad Depot. The Town was later incorporated as the Town of Miami Shores, which was renamed the Town of North Miami in 1931. It was reincorporated as a City in 1953.

In terms of economic characteristics, according to the 2011 ACS data, 27,437 civilian persons 16 years and over are in the labor force of which 18% of persons between the ages of 16 and 24 are unemployed and 9.3% of persons between the ages of 25 and 65 are unemployed.

Sales and office occupations make up the largest segment (35.2%) of employed persons, followed by service occupations (24.4%), management, business, and financial occupations (15.7%), construction, extraction, maintenance, and repair occupations (11.2%), farming, fisheries and forestry occupations (7.2%), and production, transportation and material moving occupations (6.3%).

Based on the Business Activity table above, what are the major employment sectors within your jurisdiction?

The major employment sectors in North Miami are Arts, Entertainment, and Accommodations (4,249 workers); Education and Health Care Services (4,236 workers); and Retail Trade (3,166 workers). These three employment sectors account for 55% of the City's workforce.

Describe the workforce and infrastructure needs of the business community:

According to the 2011 ACS data, North Miami has a labor force of 31,274 persons and an unemployment rate of 12.3%. The educational attainment of the civilian employed persons age 16 and over is as follows: 31% graduated from high school; 28% has some college education; 22% obtained a Bachelor's

Degree of higher; and 19% did not graduate from high school. The majority of workers are employed in the Sales and Office, Service, and Management Business, and Financial sectors.

The Florida Research and Economic Information Database Application (FREIDA) provides industry employment and projections data by County. For Miami-Dade County, the industries projected to experience the largest growth between 2014 and 2022 are construction; health care and social assistance; management of companies and enterprises; professional, scientific, and technical services; and educational services.

The Economic Element of the City's Comprehensive Plan states that the City strives to maintain a high quality system of public infrastructure including transportation, parks, water and sewer, and other services to encourage economic development. One of the City's policies is to identify infrastructure improvements needed to support new and existing businesses and to incorporate the infrastructure priorities into the City's capital planning process. The infrastructure needs that are identified in the Comprehensive Plan include transportation needs specifically, adequate parking and access to employers. Fiber optic networks and citywide wireless internet services were also identified as infrastructure needs for the business community.

Describe any major changes that may have an economic impact, such as planned local or regional public or private sector investments or initiatives that have affected or may affect job and business growth opportunities during the planning period. Describe any needs for workforce development, business support or infrastructure these changes may create.

How do the skills and education of the current workforce correspond to employment opportunities in the jurisdiction?

According to the 2011 ACS, the top occupations in North Miami are Sales and Office (7,037), Service (4,866), Management, Business and Financial (3,132), and Construction, Extraction, Maintenance & Repair (2,245). Education and jobs training have a significant impact on persons seeking employment opportunities in North Miami. Most of the top occupations identified require less than high school, high school, or post-secondary vocational education. Persons in management, business, and financial occupations typically require a bachelor's degree. The majority of top occupations require a high school diploma or less and 44% of the total labor force has a less than high school education or a high school diploma or equivalent.

Describe any current workforce training initiatives, including those supported by Workforce Investment Boards, community colleges and other organizations. Describe how these efforts will support the jurisdiction's Consolidated Plan.

The North Miami Educational Foundation, Inc. (NMEFI) is a non-profit organization that provides scholarships to high school graduates to pursue post-secondary education. The scholarship is available exclusively to North Miami students. The initial source of funding for the scholarship was a 99-year lease agreement the City of North Miami entered into with developer Oleta Partners, to convert a 183 acre

site of undeveloped land, into Biscayne Landing, a development including restaurants and cafes which is adjacent to 25-story condo towers at One Fifty One at Biscayne. The developer is obligated to a community benefits package which includes the provision of \$750,000 to support the NMEFI.

Eligible students may pursue Associate in Art, Associate in Science, Bachelor in Art, and Bachelor in Science degrees at from any accredited Florida institution with a preference for one of the affiliated local institutions: Barry University, Florida International University (FIU), Johnson and Wales University, and Miami Dade College.

Miami Dade College offers a Corporate Training Program that specializes in customer service training. The Center for Corporate Training provides professional training to employees in various topics including communication and leadership, diversity, technical skills, wellness, and organization.

Does your jurisdiction participate in a Comprehensive Economic Development Strategy (CEDS)?

Miami-Dade County participates in the Comprehensive Economic Development Strategy (CEDS) for South Florida coordinated by the South Florida Regional Planning Council. The region also includes Broward and Monroe Counties. The CEDS is aligned with and conducted in concert with statewide, regional and local economic development planning efforts. The CEDS plan¹⁸ highlights the importance of developing a diverse and dynamic regional economy.

If so, what economic development initiatives are you undertaking that may be coordinated with the Consolidated Plan? If not, describe other local/regional plans or initiatives that impact economic growth.

The North Miami Economic Development Action Plan is a redevelopment strategy for the Downtown Commercial Corridor located between NE 125th Street from approximately NE 6th Avenue to NE 10th Avenue. Over ten years ago, the City utilized CDBG funds for the City Commercial Façade Rehabilitation to stimulate revitalization of the commercial area along the 700 and 800 blocks of NE 125th Street by constructing canvas awnings throughout the entire block, installing illuminated signs on each storefront, installing pedestrian orientation signs, installing new lightings, painting facades, repairing decorative tiles, and installing modeling and metal-works.

An Urban Land Institute (ULI) panel which convened in April 2009 at the request of the North Miami Community Redevelopment Agency and the City of North Miami recommended the creation of a pilot Business Attraction Program which provides up to \$10,000 in CDBG funding to specific types of businesses to locate in North Miami. During FY 2015-2016, the City has allocated \$50,000 in CDBG funding for an Economic Development activity that can be designed several ways including a microenterprise or small business loan program, business technical assistance, employment training, and community economic development.

MA-50 Needs and Market Analysis Discussion

Are there areas where households with multiple housing problems are concentrated? (include a definition of "concentration")

The ACS report 2007-2011 revealed that 4,015 renters in the 0-80% AMI income category had 1 or more of four severe housing problems as defined in the need section; that represented 47% of all household renters. There were 2,770 or 29% owner households within the same income category that had 1 or more of four severe housing problems. Included as Appendix II – North Miami Map with Low- and Moderate-Income Census Tracts is a Map of the North Miami CRA with CDBG Eligible Block Groups 2009 where the majority of the map is outlined as CDBG eligible block groups. CDBG Eligible Block Group is defined as an area that used CDBG block grant to benefit low to moderate income households or households earning 80% and below of the area median income.

Furthermore of the 19 census tracts as listed - 1.09; 1.20; 1.24; 1.28; 2.09; 2.17; 2.18; 2.19; 2.20; 3.05; 3.06; 3.07; 3.08; 4.05; 4.10; 4.13; 12.03; 12.04; 12.05 – the following 9 census tracts – 1.24; 2.09; 2.18; 2.19; 3.05; 3.06; 4.10; 4.13; 12.03 were moderate or within 80% and below of the area median income. The FFIEC information is for 2014.

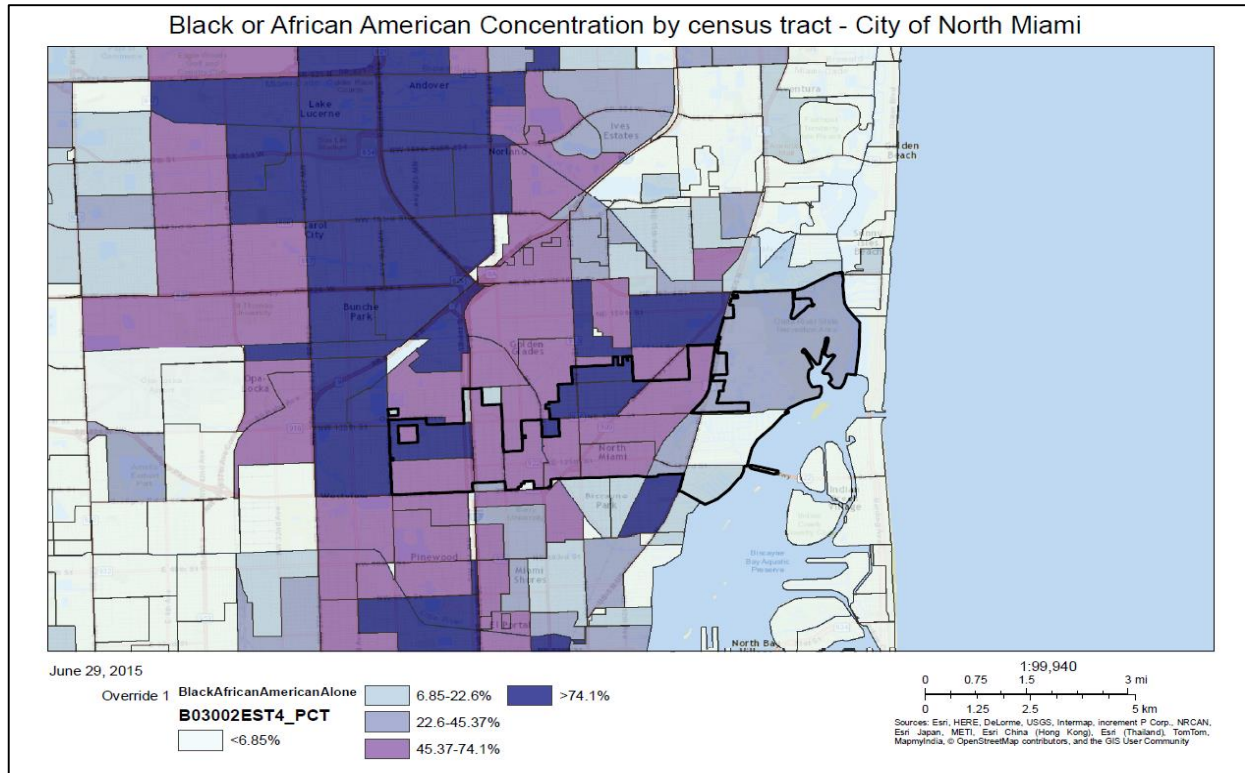

Source: FFIEC website: <https://geomap.ffiec.gov/FFIECGeocMap/GeocodeMap1.aspx>

Are there any areas in the jurisdiction where racial or ethnic minorities or low-income families are concentrated? (include a definition of "concentration")

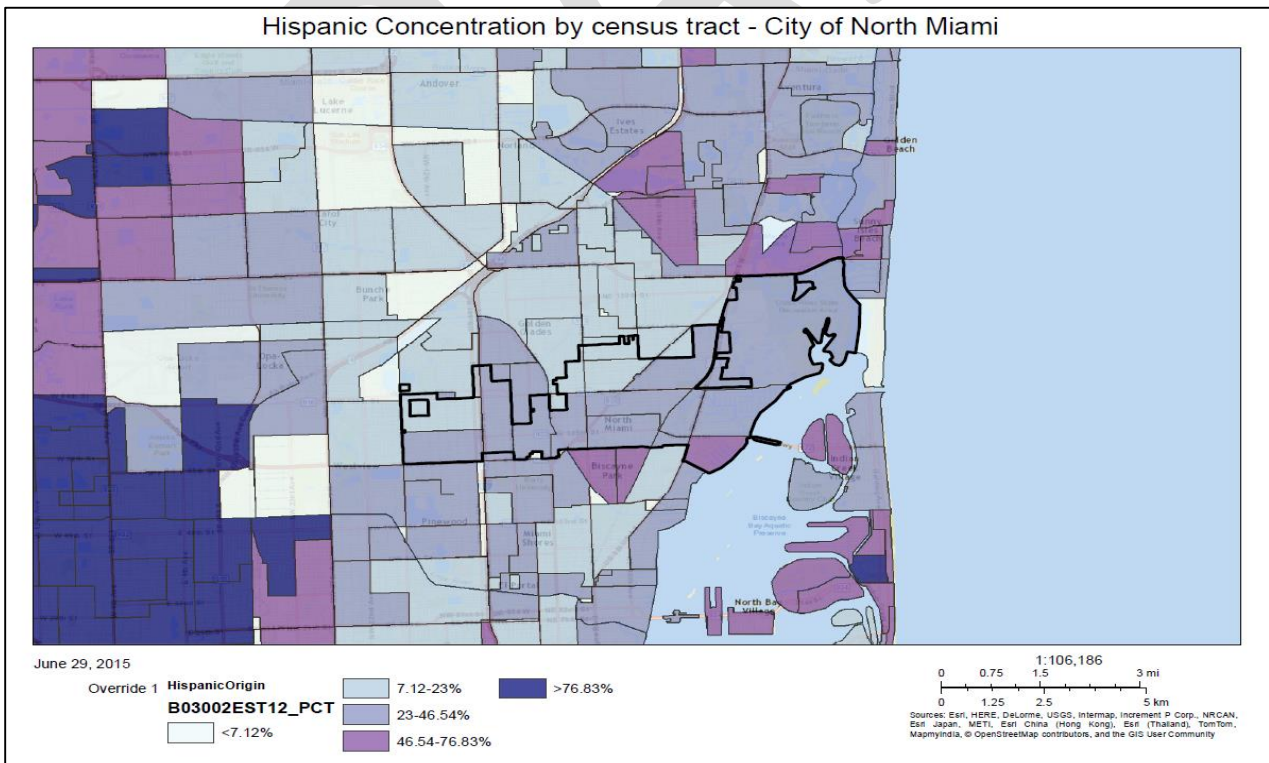

According to the 2014 FFIEC data, the 19 identified census tracts above had minority population ranging from 46.66 for Census Tract 12.05, the lowest among the 19 census tract to 97.92 for Census tract 4.05. Minority concentration is defined as any census tract where the percentage of minority is higher than 50% as the majority rule. All of North Miami's census tracts with the exception of CT 12.05 are minority concentrated.

Only 9 of these census tracts are considered moderate tract income level per FFIEC; the remaining ten census tracts contain 3 Upper Income and 7 Middle Income. It was determined that of 9 census tracts, (76.9%) had concentrations of Black/African Americans ranging from 44.2% to 72.9%, while 7 out of 13 tracts (53.8%) had concentrations of Hispanics ranging 22% to 33.8%.

Maps #1 and #2 show the census tracts in the City of North Miami with a concentration of Black/African Americans and Hispanics, respectively.

Map 1 - Black or African-American Concentration City of N Miami 2011

Map 2 - Hispanic Concentration for N Miami 2011

What are the characteristics of the market in these areas/neighborhoods?

According to the FFIEC 2014 report, 9 of the 19 Census tracts identified above were moderate income defined as 80% and below of the area median income. Within these income categories, the 2014 estimated tract family income ranged from \$27,903 in Census tract 3.06 to \$37,379 in Census tract 4.13. The percentage of households below poverty line was at its lowest, 2.37, in Census Tract 1.24 and at its highest in Census Tract 4.13. Within the moderate Census Tracts, owner occupied was calculated to be 6,299 compared to 1-4 family units at 9,844. This revealed diverse neighborhoods with a mixture of low and high density housing units. As discussed earlier, there were a high incidence of both renters and owners within the 0-80% income bracket that had one or more severe housing problems such as lack of kitchen or complete plumbing, overcrowding and severely cost burden.

Are there any community assets in these areas/neighborhoods?

The community assets in these areas are human assets. Of the 19 Census Tracts, 10 were middle income and upper income tract which often imply higher education and professional jobs. There are opportunities to create business services that will serve the upper and middle income. These higher income households are looking to purchase homes and create assets in the neighborhoods.

Are there other strategic opportunities in any of these areas?

The North Miami CRA area encompasses a large portion of the City of North Miami and coincides with the CDGB Eligible Block Group areas. There is an opportunity for the CRA to increase its involvement in development of services that will benefit both the low income population as well as the middle and upper income households. There are opportunities to do mixed-use projects, mixed income household that will address the needs identified in the need section above.

Strategic Plan

SP-05 Overview

Strategic Plan Overview

This section introduces the key points of the Strategic Plan. The data used for the analysis is the 2007-2011 prepopulated census and CHAS data and may not be the most recent.

Geographic Priorities: In general, the City of North Miami does not allocate the federal resources by geographic priorities. Proposed activities such as owner-occupied single family housing rehabilitation and emergency home repair, new construction and acquisition and rehabilitation of existing housing for homeownership, down payment assistance, public services, and homeless prevention are provided Citywide based on income eligibility. Proposed CDBG-funded slum and blight removal and infrastructure improvement activities will be targeted to the City's low- to moderate-income target areas. There are some public facilities and improvement projects that could be carried out Citywide but address the needs of low- to moderate-income limited clientele such as persons with disabilities.

Priority Needs: The City established priority needs through a community consultation process including a resident survey and an agency questionnaire, assessment of performance and program design, and historical funding allocations. The highest priority needs identified were rehabilitation of existing single family units to retain affordable housing stock with a specific focus on the elderly in need of emergency home repair; production of new homeownership housing units through new construction or acquisition and rehabilitation of existing units; homelessness prevention through tenant based rental assistance; public infrastructure and facilities; public services for elderly, youth, persons with disabilities, for crime prevention, child care, substance abuse prevention among others.

Influence of Market Conditions: The ACS 2011 median home value of owner-occupied units in North Miami was \$196,000 and the Median Contract Rent was \$840 monthly. Both homeowners and renters have experienced increases in housing costs. According to the ACS report, 54% of the owners and 60% of the renters were identified as having one or more of the four housing problems defined by HUD as including lack of plumbing facilities; lack of kitchen facilities, overcrowding and cost burden. The most common housing problems experienced by both renters and owners is cost burden where the household is paying more than 30% of their income for housing and severely cost burdened where they are paying more than 50% of their income for housing. OF 11,000 low- and moderate-income households, 81.7% are cost burdened with 57.3% being renters and 42.7% being owners. The City is having challenges in serving first time homebuyers due to low incomes and high housing prices coupled with low credit scores. Even with City subsidy, there is significant gap and homebuyer assistance funds have had to be reprogrammed.

Anticipated Resources: In February 2015, HUD informed the City of its FY 2015-16 funding allocation of \$746,909 in CDBG and \$197,700 in HOME entitlement grants. The City also estimated \$8,443.76 in CDBG program income for FY 2015-2016. Based on FY 2015-2016, the City estimates having available resources of \$3,734,545 in CDBG and \$988,500 in HOME for the five year period.

Institutional Delivery Structure: The Community Planning and Development Department (CPDD) of the City is the lead administrative agency for the Consolidated Plan and administering the HUD grants for the City. Other city departments and operating units such as Public Works and Parks and Recreation (public facilities and capital improvements), Code Enforcement Unit (demolition and clearance), Planning, Public Information, Finance, Economic Development (business assistance and job creation) are part of the City's service delivery system. The North Miami CRA will work with the CPDD in providing services to eligible beneficiaries and on economic development projects. Additionally, the City collaborates with the Miami-Dade Continuum of Care and local and regional non-profit organizations and social service agencies to provide public services. Service delivery is challenging due to reduction in grant and other funding, sources, higher demand for services, low capacity of some of the subrecipients, and program designs that may not be viable. The City will continue to provide outreach, education, and enforcement of fair housing regulations and encourage access to affordable housing as part of its Consolidated Plan certification of "affirmatively furthering fair housing."

Goals: Based on the City's needs assessment, funding priorities and available funding, below are the goals that the City intends to initiate and/or complete during the period of the Strategic Plan.

- Expand the supply of owner-occupied housing;
- Provide housing programs for persons at risk of being homeless;
- Maintain safe and affordable housing;
- Facilitate healthy and attractive neighborhoods;
- Improve the quantity and/or quality of public facilities and recreational facilities;
- Increase availability of public services for youth, elderly persons, persons with disabilities, the homeless, children, etc.; and
- Expanding economic opportunities.

Public Housing: The City does not have a public housing authority and there are no public housing units located within the City. However, the Miami-Dade Public Housing Authority has 787 Section 8 Housing Choice Vouchers to assist residents to rent homes from private landlords in North Miami. The City can further its goal of expanding the supply of owner-occupied housing by collaborating with the PHCD to encourage section 8 voucher holders that are living in the City of North Miami to participate in the FSS Housing Choice Voucher Homeownership Program.

Barriers to Affordable Housing: The City will continue actions to reduce barriers to affordable housing which include lack of resources for the development of housing and supportive infrastructure especially for rental housing through its HOME CHDO allocation, exclusion of some affordable housing types from all residential districts, and potential misperception of affordable housing leading to NIMBYism (Not in

My Backyard sentiment). In addition, fair housing impediments identified by the City in 2010 including inadequate knowledge of fair housing issues, fair and equal lending disparities, and a strongly segregated housing market will be addressed. Strategies include cost effective construction, use of Universal Design concepts, technical assistance on energy efficiency, promoting and supporting private housing investment, leveraging other funding sources, developer incentives and planning and land use policies.

Homelessness Strategy: The City does not seem to have a large homeless population. However, as a member of the Miami-Dade Continuum of Care (CoC), the City will engage with the CoC regarding needs, homeless count, and strategies around its goal of homeless prevention.

Lead Based Paint Hazards: The City will continue to test homes constructed prior to 1978 for lead-based paint for households seeking assistance under the City's Housing Rehabilitation programs.

Anti-Poverty Strategy: The City will use CDBG funds to improve neighborhood conditions, quality of life, emergency assistance and social services to reduce poverty for its low- and moderate-income residents. As well, the City will leverage CDBG funds to create economic opportunities through microenterprises and small business assistance, job creation, and business technical assistance. Housing rehabilitation grant funds from CDBG and HOME funds will help owner-occupants to reduce their cost burden due

Monitoring: The CPDD implements monitoring procedures for all organizations and agencies that receive CDBG and HOME funds including non-profit organizations, City staff in other departments receiving CDBG funds, contractors, and individuals. The City conducts risk assessments to focus monitoring and technical assistance to agencies that need it. The City will use monitoring tools from the HUD Resource Exchange with modifications for implementing the 2013 HOME Final Rule.

SP-10 Geographic Priorities – 91.215 (a)(1)

Geographic Area

The Consolidated Plan regulations require the city to describe the geographic areas of the city in which it will direct assistance during the ensuing program year. Although it is not mandatory to establish locally designated target areas where efforts will be concentrated, HUD strongly encourages grantees to do so.

The City of North Miami does not have geographic priorities as part of the Five Year Consolidated Plan.

Per the 2010 Census, the City of North Miami is comprised of 19 census tracts. As shown in the table in Section NA-30 Disproportionately Greater Need: Discussion – 91.205(b)(2), page 51, all the census tracts, with the exception of census tract 12.05 have a tract minority percentage of 50% or more

For North Miami, the census tracts with the greatest percentage of persons of Hispanic ethnicity are as follows in descending order: 1.20; 1.09; 1.24; 3.08; 2.20; 3.06; 3.07; 2.19; 4.10; and 20.09.

See attached map as Appendix II – North Miami Map with Low- and Moderate-Income Census Tracts illustrating the City's low- to moderate-income target areas.

General Allocation Priorities

Describe the basis for allocating investments geographically within the jurisdiction (or within the EMSA for HOPWA)

Generally, the City does not direct its assistance based primarily on those target areas. The CDBG and HOME regulations allow for resources to be allocated based on the income characteristics of beneficiaries. As such, the City allocates its resources for public service activities, affordable housing and emergency home repair Citywide.

CDBG funded public facilities, code enforcement, and infrastructure improvement activities will be located in the City's low- to moderate-income (LMI) census tracts if they meet an area benefit national objective. The area benefit qualification is an activity of which the benefits are available to the residents of an area where at least 51% of the population are LMI. Activities under "public facilities" such as homeless shelters or removal of architectural barriers may meet a "limited clientele" national objective. Limited clientele activities benefit persons, at least 51% of whom are LMI.

The North Miami Community Redevelopment Area, adopted in 2003, covers 60% of the City and includes LMI census tracts. The Area is generally bounded on the west by the City's boundary; on the east by Biscayne Boulevard; and on the north and south by the City Boundary. A separate CRA Boundary includes the "Munisport" property east of Biscayne Boulevard, and adjacent mangrove preserve areas east to the adjacent FIU property on the east, and three (3) properties fronting on the north side of NE 151st Street, and from Biscayne Boulevard east to the FIU Campus Western Boundary as well as a 17.06-acre area generally between NE 123rd Street on the north, 18th Avenue on the west and the alley paralleling Sans Souci Boulevard on the south.

SP-25 Priority Needs - 91.215(a)(2)

Priority Needs

Priority Need Name	Priority Level	Population	Goals Addressing
Production of new housing units	High	Low- and Moderate-Income HH	Expand supply of owner-occupied housing. Obj.: DH1.1
Acquisition and rehabilitation of existing units	High	Low- and Moderate-Income HH	Expand supply of owner-occupied housing. Obj.: DH1.2
Financial assistance to eligible Homebuyers	High	Low- and Moderate-Income HH	Expand supply of owner-occupied housing. Obj.: DH1.3
Transitional housing and emergency shelter	Low	Very Low, Low- and Moderate-Income HH	Provide housing programs to homeless and at risk for homelessness. Obj.: DH2.1
Homeless Prevention	High	Very Low, Low- and Moderate-Income HH	Provide housing programs to homeless and at risk for homelessness. Obj.: DH2.2
Rental Assistance (tenant based rental assistance)	High	Very Low-, Low- and Moderate-Income HH	Provide housing programs to persons at risk for homelessness. Obj.: DH2.2
Affordable Rental Housing	Low	Very Low-, Low- and Moderate-Income HH	Provide housing programs to persons at risk for homelessness. Obj.: DH2.3
Rehabilitation of existing units	High	Low- and Moderate-Income HH, Elderly HH	Maintain safe and affordable housing. Obj.: DH3.1
Code Enforcement/ Demolition	Low	Low-and Moderate-Income HH	Healthy and attractive neighborhoods. Obj.: SL1.1
Public Infrastructure and Improvements	High	Low-and Moderate-Income HH	Healthy and attractive neighborhoods. Obj.: SL1.2
Parks, Recreational Facilities including ADA improvements	High	Low-and Moderate-Income HH	Healthy and attractive neighborhoods and access to quality public facilities Obj.: SL1.3
Public Services, General	High	Low-and Moderate-Income persons and HH	Provision of public services Obj.: SL2.1
Job Creation and Retention	High	Low-and Moderate-Income persons	Expanding economic opportunities Obj.: EO1.1
Small Business Assistance/ Microenterprises	Low	Low- and moderate-income persons	Creating and expanding economic opportunities Obj.: EO1.2

Table 46 – Priority Needs Summary

Narrative (Optional)

The priority needs for the City listed above was based on input from public meetings, focus groups, and an online survey for residents and one for agencies providing services, as well as the City's previous use of CDBG and HOME funds. The resident survey was completed by 94 persons. The agency survey assessed the previous year's output and projections for 2014 for the various services provided by the nine agencies that responded. The five-year priorities listed above as High are those priorities that the City anticipates addressing with CDBG funds provided funding remains at the existing level or at higher levels and the needs remain the same over the five years. Needs that were assigned a low priority are those needs that the city will address if HUD related funds are made available, or if not made available the city will consider providing certifications of consistency for other agencies' applications for federal assistance. Priorities were determined for extremely low-income, low-income, and moderate -income based on the population characteristics of those persons being served. For example, homeless services often address the needs of extremely low-income persons, some service providers and developers focus on the needs of low income persons, and, per the CDBG regulations, activities that are designed to exclusively serve a group of persons within the following categories may be presumed to be low- and moderate-income: abused children, battered spouses, elderly persons, adults meeting the Bureau of the Census' Current Population Reports definition of "severely disabled," homeless persons, illiterate adults, and persons living with AIDS.

SP-30 Influence of Market Conditions – 91.215 (b)

Influence of Market Conditions

Affordable Housing Type	Market Characteristics that will influence the use of funds available for housing type
Tenant Based Rental Assistance (TBRA)	According to the 2007-2011 ACS report, there were 5,150 renter households that were cost burden and 3,195 households that were severely cost burden. The 2015 fair market rent is as follows: \$907, \$1,162, \$1,594; and \$1,863 for one bedroom, 2 bedrooms, 3 bedrooms and 4 bedrooms respectively. Miami-Dade County administers section 8 vouchers or oversees public housing units. According to the PIH information Center and the Miami Dade 2013-2017 Consolidated Plan, there were 14,606 vouchers and 9,219 public housing units and based on the Miami Dade Consolidated Plan, the waiting list is currently closed with 70,000 on the tenant based list and 40,000 remaining on the project based list. The City may consider allocating HOME funds for TBRA outside of the County Program
TBRA for Non-Homeless Special Needs	Miami Dade provides all assistance to special needs and disabled. There are 522 units for disabled of the 14,607 vouchers according to the PIC (PIH Information Center)
New Unit Production	Market forces influencing the development of new units for the City of North Miami, a built city, is mostly availability of land. The cost of land, infrastructure improvements, and construction costs, availability of private investments and dispositions of these units are all factors influencing new unit production. Availability of CDBG funds for housing production and particularly for acquisition and predevelopment and HOME funds for construction will help to increase production.
Rehabilitation	The age of housing stock, the housing conditions and the ability for the owner households to re-invest in their home are mainly the factors influencing rehabilitation. The City may choose to increase allocation of funds under their Direct Homeownership Assistance Program
Acquisition, including preservation	Age of structure, infrastructure improvement and willingness of owners, particularly absentee owners to dispose of their properties.

Table 47 – Influence of Market Conditions

SP-35 Anticipated Resources - 91.215(a)(4), 91.220(c)(1,2)

Introduction

The City of North Miami receives Community Development Block Grant (CDBG) and HOME Investment Partnership Program (HOME) funds from HUD as an entitlement participant in its Community Planning and Development programs. The first year funding for the five year Consolidated Plan was confirmed by HUD and used as a basis to estimate the available federal resources for the five year period by multiplying the first year allocation by five. In subsequent years, the actual annual allocation for each year may vary depending on what is approved by the Congress for Community Planning and Development programs. Goals, objectives and activities will be adjusted in the applicable Annual Action Plans. The City also factors in an estimate of program income that is to be received each year and will vary from the estimate depending on the amounts actually received. The table below identifies the resources for the City's Consolidated Plan for FY 2015-2019. It also shows State Housing Initiatives Partnership (SHIP) Program funds which will be used for leverage with CDBG for housing rehabilitation and also used as a match for HOME for housing rehabilitation and first time homebuyer assistance.

It should be noted that resource allocations from leveraged sources may also vary annually as will supplemental resources that will be used to leverage projects. Anticipated leverage amounts for the City of North Miami may vary based on the financing structure of individual projects or programs funded, as well as market conditions and other intervening variables during the Consolidated Plan period.

Anticipated Resources

Program	Source of Funds	Uses of Funds	Expected Amount Available Year 1				Expected Amount Available Reminder of ConPlan \$	Narrative Description
			Annual Allocation: \$	Program Income: \$	Prior Year Resources: \$	Total: \$		
CDBG	Public - federal	Housing Rehabilitation, Economic Development, Public Services, Public Facilities, Planning & Administration	746,909	8,443.76		755,352.76	3,021,411.04	The expected amount available for the remainder of the Con Plan includes \$33,775 in program income for the period.
HOME	Public - federal	CHDO Set-aside, Housing Rehabilitation, Homebuyer Assistance, Tenant Based Rental Assistance, Program Administration	197,700			197,700	790,800	
SHIP	State - Non federal	Housing Rehabilitation, Homebuyer Assistance, Program Administration	188,000			188,000	376,000	SHIP funds will be available for only three of the Plan and will be used as leverage for CDBG and match for HOME funds

Table 48 - Anticipated Resources

Explain how federal funds will leverage those additional resources (private, state and local funds), including a description of how matching requirements will be satisfied.

Funds provided to community based organizations, though not required, will be matched by those organizations with funds from other sources such as other public and private sector grants, fundraising, and fees. The Plan recognizes that the limited CDBG public service funding is often a small part of these organizations' budgets. For the HOME Program, the City is required to match 25 percent of its HOME allocation with funds from other sources. Under the 2013 HOME Final Rule, "the value of contributions to the development of HOME-assisted or HOME-eligible homeownership projects can "count" toward match credit only (1) in the amount by which the investment reduced the sales price to the homebuyer, or (2) if development costs exceed the fair market value of the housing, in an amount by which the contribution enabled the housing to be sold for less than its development cost."¹⁹ For HOME funded homeownership housing activities that include down payment and closing cost assistance for owner-occupied housing rehabilitation, the City will leverage SHIP funds through the State of Florida and discounted first mortgages and other permanent contributions from private sector lending institutions. HOME matching requirements are applied on a project by project basis. SHIP funds in the amount of \$564,000 be available over three of the five years of the Consolidated Plan and will be use for housing rehabilitation and homeownership assistance activities under HOME and CDBG.

Tax increment financing from the North Miami CRA may also be leveraged to benefit households in CDBG target areas which are coterminous with the CRA area.

CDBG funding will be used to supplement local bond funds, general funds, and ad valorem tax financing in the amount of \$61,320, 539 for public facilities and improvements and parks and recreation activities/projects. CDBG funds for demolition and code enforcement shall be leveraged with general funds to achieve the City's slum and blight removal objectives. The planning and administrative costs of managing the federal grant programs such as partial staff, other direct and indirect costs will also be funded from general fund dollars.

If appropriate, describe publically owned land or property located within the jurisdiction that may be used to address the needs identified in the plan

The City does not have publically owned land or property that will be used to address the needs identified in this plan.

Discussion

The City does not have access to surplus land for the purposes of building affordable housing. Any acquisition would happen through the actions of a non-profit organization.

¹⁹ Section by Section Summary of the 2013 HOME Final Rule, page 35, HUD Exchange, <https://www.hudexchange.info/onecpd/assets/File/Section-by-Section-Summary-2013-HOME-Final-Rule.pdf> , accessed June 20, 2015

SP-40 Institutional Delivery Structure – 91.215(k)

Explain the institutional structure through which the jurisdiction will carry out its consolidated plan including private industry, non-profit organizations, and public institutions.

Responsible Entity	Responsible Entity Type	Role	Geographic Area Served
City of North Miami Community Planning and Development	Government	Planning and administration, Owner-occupied Rehabilitation, Economic development, public services, homebuyer assistance, HOME CHDO set aside, public facilities, rental assistance	Jurisdiction
North Miami Parks and Recreation	Government	Non-homeless special needs, public facilities	Jurisdiction
North Miami Public Works	Government	Non-homeless special needs, neighborhood improvements, public facilities	Jurisdiction
North Miami Code Enforcement	Government	Slum and Blight Removal	Jurisdiction
North Miami Community Redevelopment Agency (CRA)	Government	Economic development, Tax increment financing, housing rehabilitation, commercial façade improvements	
Miami-Dade County Public Housing and Community Development	Government	Homebuyer assistance, homeless services, public services, Section 8 Housing Choice Vouchers, etc.	Region
Miami-Dade County Homeless Trust	Continuum of Care	Homelessness Non-homeless special needs, public services	Region
Haitian American Community Development Corporation	Non-profit organization, HOME CHDO	Affordable rental and homeownership units, housing counseling	Region

Table 49 - Institutional Delivery Structure

Assess of Strengths and Gaps in the Institutional Delivery System

The City of North Miami and its partners have been successful in assisting low- and moderate-income persons utilizing federal funding through HUD as well as by leveraging funding from state, local, and private sources. Overall, the non-profit organizations providing CDBG funded public services are well established and experienced. However, it was noted from focus groups that the small size of public service grants are not commensurate with the grant obligations required. The public services activity under CDBG is limited to 15% of the City's allocation. As the CDBG grant is reduced each year, it was suggested that the City consider increasing the size of each grant and reducing the number of subrecipients and fund those that will provide maximum impact for each grant.

The City has experienced staff and a long history of carrying out its housing rehabilitation programs under CDBG and HOME. Over 50 percent of the City's federal grant allocation under both the HOME and CDBG programs are spent on housing rehabilitation activities. The City does not seem to have much of a homeless problem and the Miami-Dade County Homeless provides for the needs of homeless persons on a regional basis.

The primary challenge with administering the Consolidated Plan programs however has been the lack of adequate funding to maintain existing levels of service as well as address the increased demand for services. With the consistent reduction in CDBG and HOME funds over the past five years, the Community Planning and Development Department has undergone several staff reductions. However, the federal grant obligations such as planning, program compliance, reporting, and meeting performance measures have not decreased. Currently, the City only has one HOME CHDO, based in Miami, with the capacity and experience to carry out the HOME CHDO set-aside mandate. While the organization's experience and capacity is a plus especially with the new requirements of the 2013 HOME Final Rule, it is also a risk that the City has to place all of its resources with only one capable organization.

Another challenge in the service delivery system is that the North Miami CRA has been restructured over the past two years and there seems to be a proposed change in priority away from affordable housing and direct assistance to households. This will remove a potential source of funding for Consolidated Plan activities if that occurs. The CRA's Redevelopment Plan expires in October 2016 and is being updated. In addition, business façade improvement loan programs being carried out both by the CRA and by Community Planning and Development are not receiving strong responses due to match requirements and perceptions of the business value of such improvements. This program design needs to be reviewed.

Table 50 - Homeless Prevention Services Summary

Describe how the service delivery system including, but not limited to, the services listed above meet the needs of homeless persons (particularly chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth).

As mentioned previously, the City does not have a discrete homeless prevention strategy. As noted in its 2011 Annual Action Plan, “the City of North Miami does not have a significant Homeless population and as such have no available resources to assist this relatively small homeless population. There is also no public housing located in the City to house these residents. Their housing needs are met by Miami-Dade County Homeless programs; emergency shelters, transitional housing, public housing and social service providers.

In 2009, the City received Homeless Prevention and Rapid Re-housing Program funds under the ARRA Program that will assist residents who are homeless and at the risk of becoming homeless. This program will serve mainly minority and elderly residents, who because of their limited incomes are generally the first to need assistance with rent and utility payments. The program will also provide additional services deemed necessary to move families from homelessness to permanent housing.”

Describe the strengths and gaps of the service delivery system for special needs population and persons experiencing homelessness, including, but not limited to, the services listed above.

The main strength in the delivery of services is the organization structure of the CoC. The Miami-Dade Homeless Trust has been managing the CoC since 1993 and has developed a well-coordinated structure for the delivery of services to special need persons and persons experiencing homelessness. The CoC completed a review of the implementation of the Miami-Dade County Community Homeless Plan in December 2013 which included looking at the core strategies and initiatives of the 1994 approved Plan, and 2004 additions, and “developed new initiatives and strategies designed to further align the key categories of the Plan to the current identified policies and priorities identified by the United States Department of Housing and Urban Development.”²⁰ As noted on the Homeless Trust’s website, “a copy of the alignments to the Plan, called PRIORITY HOME, reflecting these additional initiative and strategies, as well as updates on the implementation of the core Plan strategies and initiatives, was available for comment. These additional initiatives and strategies build around the core Plan, which includes housing (Emergency, Transitional, Permanent and Rapid Re-Housing), outreach and supportive services.”

The CoC’s implementation of the plan is administered by the Homeless Trust Board, various committees, and groups that meet on a regular basis to review accomplishments and update the plan. The organizational structure and capacity of the CoC makes services more accessible to homeless persons and persons with special needs. The CoC also provides a broad range of services to meet the needs of homeless persons especially those that are chronically homeless. These services are linked to mainstream benefits, treatment, and employment assistance thereby encouraging self-sufficiency and the long-term goal to end homelessness.

Challenges in the service delivery system include the limited availability of emergency shelters and transitional housing as well as navigating the housing system. Persons in need of supportive services may be unable to benefit from the services if they are unable to access housing facilities or other housing options in a timely manner. Limited financial resources also pose a challenge as the homeless population in the region has increased.

The City has not conducted a homeless count. So, it is difficult to ascertain the extent of homelessness in the City. Regarding homelessness prevention, the City has consistently provided a small allocation for

²⁰ Miami-Dade Homeless Trust website, <http://www.miamidade.gov/homeless/>, accessed June 20, 2015

tenant based rental assistance which is often used as a strategy for homelessness prevention. Due to staff constraints and the perceived extent of homelessness here, the City is not an active participant in the CoC such as being on committees and attending meeting but maintains connection through email, website, and publications.

Provide a summary of the strategy for overcoming gaps in the institutional structure and service delivery system for carrying out a strategy to address priority needs.

The City can and has overcome some of the funding challenges by participating in regional and countywide efforts which enable better coordination through various systems such as those that serve the homeless population and provide affordable housing by leveraging County funds. The City can also increase its participation in the CoC and encourage the initiation of a homeless count in the City to determine the extent of homelessness and how to address it.

As HUD develops new programs or changes priorities, the CoC and the City should consider accessing different funding sources and partnering with other agencies that have similar goals and objectives. Within the delivery system, the CoC should also encourage a more cohesive structure amongst providers so that there is coordination and partnership in service provision areas. Utilizing the Homeless Management Information System (HMIS) efficiently will assist in CoC planning and project development, and facilitate provider awareness of available services. The City will also leverage its HOME funding using Miami-Dade County subsidy in programs such as its first time homebuyer program as well as funding through the Florida State Housing Initiatives Partnership (SHIP) Program to increase available funding.

The Community Planning and Development Department will ensure that there is close coordination between the Building and Zoning Department regarding expediting permits for housing rehabilitation projects. The Department will also work closely with other City Departments, the North Miami CRA, its HOME CHDO, banks and realtors to increase and improve the supply and quality of affordable housing in the City.

Additionally, in order to make the best use of the resources that are available, individuals and families seeking assistance should be assessed by housing and supportive services providers to ensure that there is effective targeting of the resources to the appropriate persons.

The City will use consultant resources to carry out some planning and administrative activities under the 20% CDBG cap and 10% HOME cap or through activity delivery costs to reduce legacy costs. The City will continue funding a part of the planning and administrative cost of the housing and community development through the use of general funds and administrative funding through non-federal sources such as the State of Florida SHIP program.

SP-45 Goals Summary – 91.215(a)(4)

Goals Summary Information

Goal Name	Start Year	End Year	Category	Geographic Area	Needs Addressed	Funding	Goal Outcome Indicator
Expand supply of owner-occupied housing. Obj.: DH1.1/DH1.2	2015	2019	Affordable Housing – CHDO Administered	Citywide	New construction or Acquisition and Rehab of Existing Units	HOME CHDO Set-aside \$148,275	Homeowner housing units 5
Expand supply of owner-occupied housing. Obj.: DH1.3	2015	2019	Affordable Housing - City Administered	Citywide	Financial Assistance to eligible homebuyers	HOME \$100,000	Financial subsidy for homebuyers: 5 HH
Provide housing programs to homeless and at risk for homelessness. Obj.: DH2.2	2015	2019	Housing	Citywide	Homeless Prevention	HOME \$12,500	Persons served: 10
Maintain safe and affordable housing. Obj.: DH3.1	2015	2019	Affordable Housing	Citywide	Rehabilitation of Existing Units	HOME \$628,875	Homeowner housing units rehabilitated: 20
Maintain safe and affordable housing. Obj.: DH3.1	2015	2019	Affordable Housing	Citywide	Rehabilitation of Existing Units	CDBG \$1,819,679	Homeowner housing units rehabilitated: 60
Maintain safe and affordable housing. Obj.: DH3.1	2015	2019	Affordable Housing	Citywide	Emergency Repair of Existing Units - Elderly	CDBG \$150,000	Homeowner housing units rehabilitated: 25

Table 51 – Goals Summary

Goal Descriptions

The following is a description of the goals (highlighted) that the City will pursue through the Consolidated Plan:

1. Funds will be used to **expand the supply of owner-occupied housing** for low- to moderate-income households through the construction of new infill housing and/or the acquisition and

rehabilitation of vacant existing housing for sale and the provision of down payment and closing costs assistance to eligible families to purchase existing houses.

2. Funds will be used **provide housing programs to those who are at risk of homelessness** including rental assistance to prevent homelessness.
3. Funds will be used to **assist eligible homeowners to maintain safe and affordable housing** through minor home repairs for basic systems such as HVAC, plumbing, and roof repairs as well as substantial rehabilitation. Activity delivery costs for completing the activity is also included in the allocation. This goal includes emergency repairs for persons who are elderly.
4. Funds will be used to **foster healthy, stable and attractive neighborhoods, access to quality public facilities, and blight removal** by funding neighborhood code enforcement activities such as demolition, neighborhood public infrastructure and improvements including water, sewer, drainage, and sidewalks, and neighborhood park improvements including ADA improvements.
5. Funds will be used to **assist residents with a broad spectrum of public services activities to enhance their living environment** including child care, mental health services, health services, youth services, domestic violence services, substance abuse services, services for elderly, services for the elderly, and education.
6. Funds will be used to **create communities that held residents to reach self-determination by creating, maintaining, or expanding economic opportunities** through the creation or retention of jobs for eligible persons, job skills training, and assistance to businesses or microenterprises.

Along with the above, it is the City's goal to administer the grant programs to meet federal performance and statutory requirements including expenditure and commitment deadlines and ensure that funds are being used in compliance. Oversight and management of the grant activities including, but not limited to: coordination, monitoring and evaluation associated with carrying out multi-activity projects.

Estimate the number of extremely low-income, low-income, and moderate-income families to whom the jurisdiction will provide affordable housing as defined by HOME 91.315(b)(2)

Over the five year Plan period, the City estimates that 19 extremely-low income households, 40 low-income households, and 44 moderate-income households will be assisted with housing rehabilitation. In addition, five (5) low-income households and five (5) moderate-income households will be assisted through homeownership housing using HOME funds.

SP-50 Public Housing Accessibility and Involvement – 91.215(c)

Need to Increase the Number of Accessible Units (if Required by a Section 504 Voluntary Compliance Agreement)

Section 504 of the Rehabilitation Act of 1973 prohibits discrimination on the basis of disability in any program or activity that receives financial assistance from any federal agency. The Miami Dade County Public Housing and Community Development Department (PHCD) has committed to complying with the requirements of the ADA and Section 504 by providing reasonable accommodation in its housing programs and services to persons with disabilities.

The PHCD is actively engaged in developing accessible housing for persons with disabilities through the modification and development of housing facilities and other services, in accordance with a Voluntary Compliance Agreement (VCA) with HUD.

The provisions of the VCA included the construction or conversion of a minimum of 5% or 478 of its 9,543 total housing units to accessible units no later than December 31, 2010.

Activities to Increase Resident Involvements

The City of North Miami does not own or operate any public housing developments or public housing programs. The city has relies upon the services of the PHCD Department for the provision of public housing. The PHCD has a Resident Services Unit (RSU) that acts as an advocate for resident issues on behalf of the Agency by development supportive relationships with residents and Resident Councils. RSU is responsible for facilitating the provision of life enrichment services and activities and fostering positive relationships between residents and the Agency.

Is the public housing agency designated as troubled under 24 CFR part 902?

The PHCD is not designated as “troubled”.

Plan to remove the ‘troubled’ designation

Not applicable

SP-55 Barriers to affordable housing – 91.215(h)

Barriers to Affordable Housing

Please see Section *MA-40 Barriers to Affordable Housing – 91.210(e)* beginning on pages 92 for a discussion of the barriers to affordable housing that is inserted here as a read-only copy of the text provided in that section.

Strategy to Remove or Ameliorate the Barriers to Affordable Housing

The Community Planning and Development Department has developed partnerships with other city departments, community based organizations, banks and realtors to increase and improve the supply and quality of affordable housing in the City through education and preservation of existing housing stock. The Housing Division, Zoning and Planning units will work closely together to identify any regulatory barriers to affordable housing and revise or eliminate such regulations when possible.

The Comprehensive Plan (the Plan) includes goals and objectives that encourage the preservation of the existing housing stock and new housing construction to meet the needs of existing and future residents include minorities, elderly persons, persons with disabilities, and low- and moderate-income households. The Plan also calls for a variety of housing types to accommodate the diverse lifestyles and housing needs. Diverse neighborhoods include transit-oriented development, mixed-use districts, townhouses, small lot detached residential development, and senior residential properties. Some of the key goals in the Housing Element of the Plan that seek to reduce private and public barriers to affordable housing are as follows:

- Promote and support public and private investment in the city's existing housing stock for the purposes of: necessary maintenance and safety; renovation to improve attractiveness, function, comfort, safety, and sustainability; renovation to improve desirability, marketability, and value; and preservation of existing housing options, when appropriate;
- Enable and support, through technical assistance to residents, improvements and implement standards that increase energy efficiency and conservation, reduce cost-of-ownership, and improve the city's housing stock;
- Seeking and leveraging non-federal financing sources and pursuing housing partnerships with the private for-profit and non-profit housing providers;
- Amending the City's Housing Guidelines and Land Development Code to encourage the use of Universal Design concepts;
- Provide for the location of group homes and other special needs housing in residential locations and avoid concentration in only some census tracts;

The housing related goals of City's Comprehensive Plan conform to the City's Development Code since the development standards include regulations that permit various housing types and also grant exceptions or waivers to the zoning standards, in some instances.

It will also be important to integrate Comprehensive Plan strategies for housing and community development with the Consolidated Plan and Annual Action Plans. Some other strategies that can be utilized to encourage the development of affordable housing include:

- Permitting zero-lot lines homes in some residential districts which enables the use of small lots for new development. Developers of affordable housing are able to reduce costs by utilizing less land and can pass savings on to the end-user;
- One-stop permitting process to secure site permit and building permits which saves time though the approval process;
- Special exception to waive or reduce parking requirements when housing is specifically designed and intended for use by the elderly, persons with disabilities, or other occupants who typically may not own automobiles;
- Not requiring infill housing to meet current zoning standards such as minimum dwelling unit areas and setback requirements.
- Offering developer incentives including tax abatements, permit/development fee waivers, expedited permitting, infrastructure cost participations, and electrical rate discounts, as applicable, to encourage and enable affordable residential projects.

Recommendations to Address Impediments to Fair Housing Choice

A summary of the recommendations made in response to impediments identified in the City's 2010 Impediments to Fair Housing Choice is provided below.²¹ These recommendations are intended to remove and/or ameliorate the barriers to affordable housing identified.

1. *Discrimination on the Basis of Protected Class in Violation of Federal, State, and Local Fair Housing Laws -Recommendations*

- Ensure continued availability of comprehensive fair housing enforcement services;
- Provide fair housing education and training to housing providers for fair housing compliance; to community residents for awareness of housing discrimination; to City employees and Community Based Organizations for discrimination identification and referral;
- Implement a fair housing campaign using broadcast and print media in Spanish and Creole;
- Provide financial support for enforcement of fair housing laws (including testing);
- Review and revise, as appropriate, zoning policies to expand the areas in which congregate living facilities are permitted; and support the use of alternative dispute resolution; and
- Develop a referral process for Fair Housing complaints that includes contact information.

2. *Shortage of Affordable/Accessible Housing - Recommendations*

- Advocate for and assist in establishing an area-wide Task Force including the public and private sector to create a plan to identify sites and develop transitional housing;

²¹ City of North Miami Analysis of Impediments to Fair Housing Choice, prepared by Housing Opportunities Project for Excellence, Inc. (HOPE) published February 2011, Section VII, pages 90-93

- Require strong affirmative marketing programs for all affordable housing developments;
- Provide information and technical assistance on housing development programs;
- Encourage housing providers to participate in the Section 8 Housing Voucher program;
- Encourage mixed-income and mixed tenure (rental and homeownership) developments;
- Continue to support pre-and post-purchase/delinquency/predatory lending/mortgage fraud counseling and down payment assistance for low and moderate income homebuyers;
- Increase the amount of accessible housing by conducting design and construction training for area architects, developers and inspectors for greater accessibility in new and existing houses;
- Pursue City leadership in increase housing accessibility through the use of universal design; and
- Require City funded housing providers to follow Fair Housing Design & Construction rules

3. *Lack of Knowledge of Fair Housing Protections and Redress under Fair Housing Laws - Recommendations*

- Conduct on-going fair housing media campaign using broadcast and print media;
- Dedicate a portion of the City's website to Fair Housing, with links an online survey; and
- Appoint an entity to interact with the media to discuss racial/ethnic issues

4. *Fair and Equal Lending Disparities - Recommendations*

- Reduce the large differences in the market penetration rates for different racial and ethnic areas for refinance loans and reduce levels of subprime lending in minority areas;
- Implement a publicity campaign promoting the principles of Fair Lending for targeted audiences and create educational materials in English, Spanish, and Creole;
- Provide financial support to the "Predatory Lending Initiative" for City residents; and
- Require and monitor annual reports from all area lenders comparing loans by race/ethnicity

5. *Strongly Segregated Housing Market- Recommendations*

- Provide technical assistance training in Affirmative Marketing for City funded housing projects, City staff, community advocates, and financial institutions;
- Provide culturally competent fair housing education for persons with Limited English Proficiency; and
- Ensure that the City's own advertising reflects and appeals to diverse communities

6. *No County-wide Cooperative Effort to Affirmatively Further Fair Housing- Recommendations*

- Encourage and support for the Miami-Dade Office of Human Rights and Fair Employment Practices to become a Fair Housing Assistance Program (FHAP);
- Advocate for elected officials to acknowledge the need for regional fair housing cooperation;
- Conduct a community-wide annual fair housing event during National Fair Housing Month
- Follow the Fair Housing Performance Standards for Consolidated Plan Certifications and Compliance with Community Development Block Grant Performance Review ;

SP-60 Homelessness Strategy – 91.215(d)

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

The City of North Miami does not receive any funding to assist homeless persons or residents who are at-risk of becoming homeless. Homeless individuals and families are referred to the Miami-Dade County Homeless programs.

The Miami-Dade County Housing Trust Board conducted a review of the Miami-Dade Community Homeless Plan and developed new initiatives and strategies around housing, outreach, and supportive needs. The 2014 update to the Miami-Dade County Community Homeless Plan²² provides a comprehensive strategy for addressing the housing and services needs of the homeless population for the County, its municipalities and five entitlement jurisdictions. The Homeless Plan was updated in 2014 and the outreach, assessment, and placement implementation strategies include:

- Establishing a mobile street outreach, assessment and placement program. Currently there are two agencies that provide countywide coordinated, assessment, and placement.
- Implementing of a toll-free hotline for centralized access to the CoC.
- Creating a specialized outreach team that focuses on the chronically homeless/mentally ill.
- Conducting geographical tracking and establishing a baseline of individuals experiencing chronic homelessness.
- Developing and implementing an indoor meal program as a means to engage homeless individuals.
- Creating a registry of the chronic homeless persons in Miami-Dade County.
- Improve effectiveness of outreach.

The Outreach, Assessment, and Placement (OAP) process includes on-the-street preliminary assessments and typical information and referral that encompasses five areas: outreach engagement, preliminary psycho-social assessments, placement/referrals, follow-up and re-engagement (for individuals placed into housing by OAP who leave and return to the streets). The OAP coordinated with other specialized outreach programs, that include the Department of Veterans Affairs mobile Health Care for Homeless Veterans program team, a Health Care for the Homeless-funded outreach team (Camillus Health Concern) that provides medical outreach, and mental health outreach teams (Safe Haven "SPORT" teams).

²² Miami-Dade County Community Homeless Plan, Updated December 6, 2013:
<http://www.miamidade.gov/homeless/library/2014-homeless-plan.pdf>

Addressing the emergency and transitional housing needs of homeless persons

The strategy for addressing the emergency shelter and transitional housing needs of homeless persons is outlined in the 2014 Miami-Dade County Community Homeless Plan. Emergency shelters are any facility with the primary purpose of providing a temporary shelter for the homeless and which does not require signing of leases or occupancy agreements. Transitional housing is defined as housing where all program participants have signed a lease or occupancy agreement, to facilitate the movement of homeless individuals and families into permanent housing within 24 month or longer. The County's strategy to address the emergency shelter and transitional housing needs of homeless persons includes:

- Expanding the inventory of emergency shelters and transitional housing.
- Creating safe havens.
- Creating Case Rate Program to place chronically homeless service resistant persons.
- Implementing a hotel/motel program to address homeless families.
- Assessing the effectiveness of non-treatment transitional housing programs.

As of 2014, 114 new emergency beds were added to the inventory and the County exceeded its goals in terms of expanding the number of transitional housing and permanent housing beds. There are currently 28 safe havens in the County. The hotel/motel program is being implemented and the County is monitoring utilization of the program and developing alternatives to reduce length of stay, improve access to case management, and expedite referrals to rapid re-housing.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again.

The County has made the expansion of permanent housing units targeting chronically homeless persons the top priority in the CoC. Some of the strategies employed by the County to assist chronically homeless individuals and families include:

- Expanding Housing First model and training providers on model.
- Expanding Rapid Re-housing programs.
- Developing and implementing a plan for the use of \$15 million in General Obligation Bond funds for the development of permanent supportive housing.
- Establishing a central waiting list for placement into all Trust- funded permanent supportive housing programs.
- Generating an additional 200 beds set-aside for chronically homeless individuals and an additional 50 beds for chronically homeless families.
- Remove barriers to accessing permanent housing placement due to legal issues.

- Working with permanent supportive housing providers to identify and coordinate with mainstream resources and systems to ensure chronically homeless clients access to support services.

There are six Housing First programs that provide 240 units of housing and additional Housing First units are expected to become available. The County is continuing to work with local entitlement jurisdictions to prioritize funding for rapid re-housing programs. The central waiting list initiative was approved in September 2013 and is currently being implemented.

The Community Homeless Plan stated that the County will develop and implement a plan for the use of \$15 million in General Obligation Bond dollars for the production of permanent supportive housing with the goal of ending family/youth homelessness. Verde Gardens, a Permanent Supportive Housing Project with 145 townhomes was completed in 2011.

Other initiatives that are underway include directing new funding opportunities towards creation of permanent supportive housing which target chronically homeless persons, using all HOME set-aside capital funds to support only permanent housing for chronically homeless persons, and providing a scoring preference in the NOFA competition for permanent supportive housing renewal projects that propose to serve chronically homeless persons.

Help low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families who are likely to become homeless after being discharged from a publicly funded institution or system of care, or who are receiving assistance from public and private agencies that address housing, health, social services, employment, education or youth needs

On a countywide basis, the homeless prevention strategy includes the expansion of the Homeless Helpline to include homeless prevention, implementation of a homeless prevention funds that will cover rent/mortgage and utility assistance, establishment of an inter-agency discharge policy to prevent homelessness upon institutional discharge, development of a Homeless Prevention Assessment tool, and alignment of all homeless prevention programs to reduce duplication and improve efficiency.

The City of North Miami utilized HOME funding for the operation of a Tenant Based Rental Assistance (TBRA) Program that provides one-time assistance to families whose rent have increased and can no longer afford to remain in that unit, those whose units are being gentrified, as in condo conversion or as result of unforeseen circumstances. Between program years 2010-2013, 14 households were provided with tenant based rental assistance for a total HOME expenditure of \$14,332 or an average of \$1,023 per household. According to the City's CAPERS, of the 14 households assisted, two were extremely low income, nine were very low income, and three were low income. By funding the TBRA program, the City prevented these families from becoming homeless.

SP-65 Lead based paint Hazards – 91.215(i)

Actions to address LBP hazards and increase access to housing without LBP hazards

To reduce the risk of lead poisoning, information will be distributed to participants in City housing programs. The City will follow strict HUD guidelines for testing and abatement of lead-based paint and other hazardous substances, and require compliance from its contractors and subcontractors. The City has a list of licensed, prequalified contractors who are available to perform appropriate abatement and/or removal procedures if lead-based paint is present.

CHAS data from Section MA-20 showed that of the total 18,120 occupied housing units in the City, 15,782 or 87.1% were built prior to 1980, and of those 435 or 2.8% have children present. For purposes of the Consolidated Plan units built before 1980 occupied by household with children serves as a default baseline of the units that contain lead-based paint hazard.

According to the 2011 Annual Childhood Lead Poisoning Surveillance Report prepared by the Florida Department of Health²³, exposure to lead-based paint was one of the top sources of lead poisoning accounting for 16% of cases statewide. In 2011, there was 39,226 screenings in Miami-Dade County and 43 new cases of lead poisoning was diagnosed among children under 6 years of age. There were also 7 persistent cases from a previous year, for a total of 50 lead poisoning cases in the county.

The City of North Miami will continue to promote lead hazard reduction through the City's Lead-Based Paint (LBP) Assessment Program. The City will require lead risk assessment on properties being rehabilitated with CDBG and HOME funding that were built prior to 1978 to identify lead-based paint hazards, perform interim control measures to eliminate any hazards that are identified, or in lieu of a risk assessment, perform standard treatments throughout a unit. Notices and requirements regarding testing and removal of lead-based paint will be provided to program participants, contractors and project sponsors.

How are the actions listed above related to the extent of lead poisoning and hazards?

The actions listed above addresses units that may pose a lead-based paint threat based on the age of the housing stock. The LBP Assessment Program also addresses units that are occupied by at-risk populations, such as children. The actions will identify, assess, and prevent lead poisoning and hazards.

How are the actions listed above integrated into housing policies and procedures?

The City utilizes CDBG and HOME funds for lead-based paint hazard reduction. The above actions are incorporated in the City's housing program guidelines for both CDBG and HOME and for homeownership and rental housing (if done through a HOME CHDO) activities funded by the City.

²³ 2011 Annual Childhood Lead Poisoning Surveillance Report, Florida Department of Health Healthy Homes and Lead Poisoning Prevention Program, published August 2012. <http://www.floridahealth.gov/environmental-health/lead-poisoning/documents/2011annualchildhoodlead10-26-12.pdf> Retrieved July 21, 2015

SP-70 Anti-Poverty Strategy – 91.215(j)

Jurisdiction Goals, Programs and Policies for reducing the number of Poverty-Level Families

According to the U.S. Census Quick Facts (2009-2013) for the City of North Miami, 26.7% of the population lives below the poverty level compared to the poverty rate for Florida which is 16.3%.²⁴ The Census Bureau uses a set of money income thresholds that vary by family size and composition to determine who is in poverty. If a family's total income is less than the family's threshold, then that family and every individual in it is considered in poverty. In addition, the median household income for the City for the same period was \$36,134.

The City is currently in the process of amending its Comprehensive Plan and the Housing and Economic Elements of the Plan both seek to promote jobs, increase revenue and provide financial stability. The Economic Element's primary goal is to "improve the economic viability of residents through provision of balanced housing and employment opportunities, attraction and retention of business and promotion of fiscal strength and stability in the community." Strategies include the development of an Economic Development Action Plan, encouraging business growth for in-City job opportunities, reducing circulation issues, providing jobs for diverse income groups, and support expansion of existing businesses through municipal system improvements. The City also established goals to encourage an environmentally-friendly business environment, develop and maintain strategic partnerships with economic development organizations and developing downtown development action and concept plan policies. Two of the goals of the Housing Element are to promote adequate and affordable housing opportunities for existing residents and future growth and to evaluate housing opportunities within areas proximate to educational anchor institutions for student housing.

The above goals serve to reduce the incidence of poverty. Public services that provide services to LMI, homeless persons and families are also critical for reducing poverty by taking families out of crisis.

Through its CDBG grant, the City will provide funding for business assistance, job creation or retention and services that support employment including job training and employment readiness.

How are the Jurisdiction poverty reducing goals, programs, and policies coordinated with this affordable housing plan?

It has long been recognized that affordable housing opportunities are only part of the strategy towards economic self-sufficiency and viability. Housing has to be paired with income opportunities so that the lives of low- and moderate-income households can be improved so that they are able to purchase housing. Often there is not enough subsidy to provide for the needs of these families. For example, over the past three years, the City has allocated funding for homebuyer assistance but has recognized that

²⁴ United States Census Bureau website, Quick Facts, City of North Miami.
<http://quickfacts.census.gov/qfd/states/12/1249450.html> , accessed June 21, 2015

the increasing cost of housing and lower income levels and higher poverty rates in the City has challenged the City's ability to help families. Homebuyer assistance funds have had to be reprogrammed because the subsidy was not enough even when combined with other external source to meet the need.

The goals of the City of North Miami's Comprehensive Plan Housing Element implements and updates the provisions of the Five-Year Consolidated Plan. The Economic Development of the Plan clearly states that housing production and economic development efforts should be clearly aligned.

The City utilizes CDBG funds to improve neighborhood conditions and quality of life for its low- and moderate-income residents. The City provides funding for activities that work to reduce poverty by providing emergency assistance and social services. The City will continue to provide funding for improving housing conditions through housing rehabilitation and emergency repair, neighborhood improvements, increasing job opportunities and other economic investment through affordable housing.

SP-80 Monitoring – 91.230

Describe the standards and procedures that the jurisdiction will use to monitor activities carried out in furtherance of the plan and will use to ensure long-term compliance with requirements of the programs involved, including minority business outreach and the comprehensive planning requirements

The City's Community Planning and Development staff and/or external entities will conduct ongoing fiscal and programmatic monitoring of the City's subrecipient in order to comply with CDBG and HOME program requirements. Monitoring will include various methods such as including monitoring requirements in subrecipient agreements, desktop reviews, monthly reporting, invoice reviews, construction inspections, onsite fiscal and programmatic review, and the Annual Comprehensive Annual Performance and Evaluation Reporting (CAPER) system. The City must ensure that it receives adequate information from program participants that will enable the City to meet its obligations to HUD. Monitoring also involves setting clear baselines in the subrecipient agreement and subrecipient orientation. The City will follow the premise of monitoring early and often.

Monitoring Plan

The Community Revitalization Division implements monitoring procedures for all organizations and agencies that receive CPD (CDBG and HOME) funding including subrecipients, non-profit organizations, City departments and divisions, contractors, and individuals that receive assistance. Projects administered by the City and its subrecipients are also monitored by the City's regular auditing procedures. Due to staff levels and other resources and the workload requirements for onsite monitoring, the City will use a "Risk Based" Monitoring system where specific criteria is used to score subrecipients as high or low risk. The criteria will include:

- Experience – how long has the agency been carrying out the activity and/or existed;
- Staffing capacity (number and experience of staff);
- Program type or complexity - new program designs and economic development activities are considered high risk by themselves;
- Past performance - how has the agency expended its funding in a timely manner and on eligible costs; and
- Monitoring and audit issues that are serious, recent, and have not been addressed or satisfactorily resolved by the organization.

A threshold score will be determined and organizations that fall below the threshold must be monitored onsite annually until performance improves. All organizations will be subject to desk top reviews on an ongoing basis, as well as review of monthly reporting and the City will take actions to address non-compliance up to and including withdrawal of funds and cancellation of contract.

Subrecipient Compliance

With respect to the CDBG and HOME programs, a subrecipient workshop should be held during the grant application process, outlining the programmatic and fiscal requirements of the programs. Technical assistance is provided as a group to assist in the application process and also on a one-on-one basis to address specific concerns of agencies. The City also conducts a pre-award screening to assess the capacity of the agency's administrative and fiscal management systems and ability to successfully complete the proposed activities.

Subrecipients attend a mandatory Grant Administration workshop to cover the necessary reporting and reimbursement requirements. Additional workshops may also be held on specific topics such as regulatory requirements, complying with federal regulations, timeliness, and other program related issues, as needed. During activity implementation, the progress of activities and eligibility of expenditures is tracked throughout the contract period by review of required reporting and invoicing and onsite monitoring.

HOME Program Monitoring

The HOME program monitoring includes a review of progress on performance of contracted activities, financial controls, compliance with federal regulations and required local policies, including but not limited to outreach to potential clients and minority and women owned business enterprises, and affirmative marketing for multifamily rental opportunities. The City's housing program guidelines will be revised to include the new 2013 HOME Final Rule requirements such as the treatment of occupancy and the commitment deadlines to ensure HOME program compliance.

Capital Improvement Projects

Community Planning and Development monitors capital improvement projects for procurement, Uniform Relocation Act, Environmental Review, Section 3, Davis-Bacon, and compliance with other labor regulations, when applicable, to funded projects. The Community Planning and Development Department will execute interdepartmental agreements with other departments that receive CDBG funds to ensure grant compliance. These agreements should include the major CDBG and crosscutting regulations.

CAPER

The Community Planning and Development Department monitors its overall accomplishments annually when it prepares the Consolidated Annual Performance Evaluation Report (CAPER). The CAPER reports on progress towards meeting the goals and objectives of the Five-Year Consolidated Plan and Annual Action Plans.

CITY OF NORTH MIAMI COMMUNITY PLANNING & DEVELOPMENT

2015 – 2016 FIRST YEAR ANNUAL ACTION PLAN

Community Planning and Development Department
The City of North Miami
776 NE 125 Street
North Miami, FL 33161

Prepared in conjunction with:
ASK Development Solutions, Inc.

**THIS DOCUMENT CAN BE PROVIDED IN ALTERNATIVE FORMAT IF
REQUESTED**

FY 2015-2016 ANNUAL ACTION PLAN

Expected Resources

AP-15 Expected Resources – 91.220(c)(1,2)

Introduction

For FY 2015-2016 which is the first year of the Consolidated Plan period, the City has received notification of its allocation of \$746,909 in CDBG funds and \$197,700 in HOME funds from HUD. The City also anticipates that it will have \$8,443.76 in CDBG program income for FY 2015-2016 to be used for housing rehabilitation activities.

Anticipated Resources

Program	Source of Funds	Uses of Funds	Expected Amount Available Year 1				Expected Amount Available Reminder of ConPlan \$	Narrative Description
			Annual Allocation: \$	Program Income: \$	Prior Year Resources: \$	Total: \$		
CDBG	Public - federal	Housing Rehabilitation, Economic Development, Public Services, Public Facilities, Planning & Administration	746,909	8,443.76		755,352.76	3,021,411.04	The expected amount available for the remainder of the Con Plan includes \$33,775 in program income for the period.
HOME	Public - federal	CHDO Set-aside, Housing Rehabilitation, Homebuyer Assistance, Tenant Based Rental Assistance, Program Administration	197,700			197,700	790,800	
SHIP	State - Non federal		188,000			188,000	376,000	SHIP funds will be available for only three of the Plan and will be used as leverage for CDBG funds and as match for HOME funds

Table 52 - Expected Resources – Priority Table

Explain how federal funds will leverage those additional resources (private, state and local funds), including a description of how matching requirements will be satisfied

Funds provided to community based organizations, though not required, will be matched by those organizations with funds from other sources such as other public and private sector grants, fundraising, and fees. The Plan recognizes that the limited CDBG public service funding is often a small part of these organizations' budgets. For the HOME Program, the City is required to match 25 percent of its HOME allocation with funds from other sources. Under the 2013 HOME Final Rule, "the value of contributions to the development of HOME-assisted or HOME-eligible homeownership projects can "count" toward match credit only (1) in the amount by which the investment reduced the sales price to the homebuyer, or (2) if development costs exceed the fair market value of the housing, in an amount by which the contribution enabled the housing to be sold for less than its development cost."²⁵ For HOME funded homeownership housing activities that include down payment and closing cost assistance for owner-occupied housing rehabilitation, the City will leverage SHIP funds through the State of Florida and discounted first mortgages and other permanent contributions from private sector lending institutions. HOME matching requirements are applied on a project by project basis. SHIP funds in the amount of \$188,000 will be received for FY 2015-2016 and will be used both as leverage for CDBG housing rehabilitation and a match for HOME housing rehabilitation and homebuyer assistance activities.

Tax increment financing from the North Miami CRA may also be leveraged with CDBG and HOME funds.

CDBG funding will be used to supplement local bond funds, general funds, and ad valorem tax financing in the amount of \$61,320,539 for public facilities and improvements and parks and recreation activities/projects. CDBG funds for demolition and code enforcement shall be leveraged with general funds to achieve the City's slum and blight removal objectives. The planning and administrative costs of managing the federal grant programs such as partial staff, other direct and indirect costs will also be funded from general fund dollars.

If appropriate, describe publically owned land or property located within the jurisdiction that may be used to address the needs identified in the plan

The City does not have publically owned land or property that will be used to address the needs identified in this plan.

Discussion

The City does not have access to surplus land for the purposes of building affordable housing. Any acquisition would happen through the actions of a non-profit or for-profit organization.

²⁵ Section by Section Summary of the 2013 HOME Final Rule, page 35, HUD Exchange, <https://www.hudexchange.info/onecpd/assets/File/Section-by-Section-Summary-2013-HOME-Final-Rule.pdf>, accessed June 20, 2015

Annual Goals and Objectives

AP-20 Annual Goals and Objectives

Goals Summary Information

The following table shows the annual goals and objectives for the City of North Miami for FY 2015-2016 CDBG and HOME funding including CDBG program income of \$8443.76:

Goal Name	Start Year	End Year	Category	Geographic Area	Needs Addressed	Funding	Goal Outcome Indicator
Expand supply of owner-occupied housing. Obj.: DH1.1/DH1.2	2015	2016	Affordable Housing – CHDO Administered	Citywide	New construction Or Acquisition and Rehab of Existing Units	HOME \$29,655	Homeowner housing units built:- 1
Expand supply of owner-occupied housing. Obj.: DH1.3	2015	2016	Affordable Housing - City Administered	Citywide	Financial Assistance to eligible homebuyers	HOME \$20,000	Financial subsidy for homebuyers: 1 HH
Provide housing programs to at risk homeless. Obj.: DH2.2	2015	2016	Housing	Citywide	Homeless Prevention through Rental Assistance	HOME \$2,500	Persons served: 2
Maintain safe and affordable housing. Obj.: DH3.1	2015	2016	Affordable Housing	Citywide	Rehabilitation of Existing Units	HOME \$125,775	Homeowner housing units rehabilitated: 4
Maintain safe and affordable housing. Obj.: DH3.1	2015	2016	Affordable Housing	Citywide	Rehabilitation of Existing Units	CDBG \$383,936	Homeowner housing units rehabilitated: 12
Maintain safe and affordable housing. Obj.: DH3.1	2015	2016	Affordable Housing	Citywide	Emergency Repair of Existing Units - Elderly	CDBG \$30,000	Homeowner housing units rehabilitated: 5

Goal Name	Start Year	End Year	Category	Geographic Area	Needs Addressed	Funding	Goal Outcome Indicator
Healthy and attractive neighborhoods. Obj.: SL1.1	2015	2016	Non-housing community development	Eligible LMI areas	Code Enforcement/ Demolition	CDBG \$0	Buildings demolished: 0
Healthy and attractive neighborhoods. Obj.: SL1.2	2015	2016	Non-housing community development	Eligible LMI areas	Public Infrastructure and Improvements	CDBG \$30,000	Persons benefitted: 7,000 persons
Provision of public services Obj.: SL2.1	2015	2016	Non-housing community development	Citywide	Services for the elderly, youth, persons with disabilities, crime & safety, child care, etc.	CDBG \$87,036	Non-housing Public Service benefit: 1,000 persons
Assistance to microenterprises or small businesses/Job created Obj.: O3.1	2015	2016	Non-housing community development	Citywide	Job creation and retention, Business assistance	CDBG \$50,000	Business assisted - 8 Jobs created- 5
Provision of public services Obj.: SL2.1	2015	2016	Non-housing community development	Citywide	Services for youth-summer employment	CDBG \$25,000	Non-housing benefit: 40 persons
Grant administration	2015	2016	Non-housing community development	Citywide	Grant administration and service delivery	CDBG \$149,381 HOME \$19,770	Not applicable

Table 53 – Goals Summary

Goal Descriptions

The following is a description of the goals (highlighted) that the City will pursue through the FY 2015-2016 Annual Action Plan:

1. Funds will be used to **expand the supply of owner-occupied housing** for low- to moderate-income households through the construction of new infill housing or the acquisition and rehabilitation of vacant existing housing for sale and the provision of down payment and closing costs assistance to eligible families to purchase existing houses.
2. Funds will be used **provide housing programs to those who are at risk of homelessness** including rental assistance to prevent homelessness.
3. Funds will be used to **assist eligible homeowners to maintain safe and affordable housing** through minor home repairs for basic systems such as HVAC, plumbing, and roof repairs as well as substantial rehabilitation. This goal includes emergency repairs for persons who are elderly.
4. Funds will be used to **foster healthy, stable and attractive neighborhoods, access to quality public facilities, and blight removal** by funding neighborhood code enforcement activities such as demolition, neighborhood public infrastructure and improvements including water, sewer, drainage, and sidewalks, and neighborhood park improvements including ADA improvements.
5. Funds will be used to **assist residents with a broad spectrum of public services activities to enhance their living environment** including child care, mental health services, health services, youth services, domestic violence services, substance abuse services, services for elderly, services for the elderly, and education.
6. Funds will be used to **create communities that held residents to reach self-determination by creating, maintaining, or expanding economic opportunities** through the creation or retention of jobs for eligible persons, job skills training, and assistance to businesses or microenterprises.

Along with the above, it is the City's goal to administer the grant programs to meet federal performance and statutory requirements including expenditure and commitment deadlines and ensure that funds are being used in compliance. Oversight and management of the grant activities including, but not limited to: coordination, monitoring and evaluation associated with carrying out multi-activity projects.

Estimate the number of extremely low-income, low-income, and moderate-income families to whom the jurisdiction will provide affordable housing as defined by HOME 91.315(b)(2)

The City estimates that four (4) extremely-low income households, eight (8) low-income households, and nine (9) moderate-income households will be assisted with housing rehabilitation. In addition, one (1) low-income households and one (1) moderate-income households will be assisted through homeownership housing using HOME funds.

Projects

AP-35 Projects – 91.220(d)

Introduction

The following table contains the projects that the City will fund in FY 2015-2016 using CDBG and HOME funds. Up to 20% of the CDBG grant and 10% of the HOME grant can be expended on Planning and Administration. State of Florida SHIP and City general funds will be leveraged with the federal funds. CDBG funds allocated to Public Services will be awarded through a Request for Proposal process for eligible and qualified Community Based Organizations (CBOs). No more than 15% of the CDBG grant can be expended on public service activities. The specific public service activities to be funded will be based on the priority set by the Consolidated Plan and applications submitted by the CBOs.

Projects – FY 2015-2016

Project Name	Description	Funding Estimate \$	Expected Resources \$	Annual Goals	Target Areas	Priority Needs Addressed	Goal Outcome Indicator
HOME CHDO Home ownership	New construction or acquisition rehabilitation of existing houses	29,655	29,655	Expand supply of owner-occupied housing.	City-wide	Produce new housing units	1 housing unit LMI
HOME First Time Homebuyer	Financial subsidies to eligible buyers	20,000	20,000	Expand supply of owner-occupied housing.	City-wide	Financial Assistance to eligible home buyers	1 HH LMI
HOME Tenant Based Rental Assistance	Rental assistance	2,500	2,500	Homeless housing programs	City-wide	Rental Assistance	2 persons Low income
HOME S/F Owner Rehab	Assistance to owner occupants for major repairs	125,775	125,775	Maintain safe and affordable housing	City-wide	Rehab of existing units	4 housing units LMI
CDBG S/F Emergency Repairs -elderly	Assistance to owner occupants for emergency repairs	30,000	30,000	Maintain safe and affordable housing	City-wide	Rehab of existing units	5 housing units Very low

Administration CDBG & HOME	Grant Admin.	169,151	169,151	Admin. & planning	City-wide	Admin	N/A

Table 54 – Project Information

Describe the reasons for allocation priorities and any obstacles to addressing underserved needs

Allocation priorities were based on the City's housing and community development needs assessment contained in the Consolidated Plan. Ongoing efforts to address the identified needs amidst dwindling financial resources at the federal and local level also requires the City to focus its funding to the activities of highest priority. HUD community development funding has been reduced by nearly 30% since FY2010. Housing market conditions related to demand and supply of both rental and homeownership, as well as the availability of affordable housing also determine the use of housing related funding such as HOME allocations. The City is challenged to develop and implement a well-coordinated and integrated outcome-driven service delivery system that meets the City's housing and community development needs and goals within the limits of available funding.

AP-38 Project Summary

Project Summary Information

The following are the descriptions for the proposed program activities and related regulatory citations for the FY 2015-2016 Annual Action Plan:

Community Development Block Grant Program

1. Housing-Rehabilitation Activities (24 CFR 570.202, 570.201)

- a. **Single Family Rehabilitation Program** – Provide funding for residential rehabilitation for low- and moderate-income homeowners of single-family owner-occupied homes. Administered by the City of North Miami's Community Planning and Development Department (CPDD), the program seeks to preserve and enhance neighborhoods by maintaining existing housing stock for low income families by making the homes safe, decent and in compliance with the City's minimum housing code and the uniform building code. Repair items include the major building systems. Repairs or replacements can be made for weatherization improvements, lead-based paint hazard control/stabilization in units built prior to 1978. Approximately 12 homes will be rehabilitated with a rehab cost of up to \$25,000 plus \$5,000 per unit. Seven (7) units should require LBP hazard reduction procedures. The allocation includes housing rehabilitation activity delivery costs. FY 2015-2016 Project funding is \$375,492 in CDBG grant funds and \$8,433.76 in CDBG program income for a total of \$383,936. The program is City-wide.
- b. **Emergency Home Repair for the Elderly**– Provide funding for the correction of health and safety hazards for elderly low- to moderate-income homeowners who are 65 years and older. The emergency grant may involve repair or replacement of such basic equipment as HVAC system, water heaters, entry doors, roofing and plumbing and gas lines. Approximately five (5) homes will be repaired with a rehab cost of up to \$6,000 per unit. Project funding is \$30,000 in CDBG grants. The program is targeted City-wide.

2. City of North Miami Infrastructure and Physical Improvements (24 CFR 570.201(c)) –

Administered by the City of Miami's Public Works and Parks and Recreation Departments , this project is funded at \$30,000 in CDBG grants. This project will provide for equipment purchase at the Griffin Trails Gateway Park. The equipment will allow for accessibility by persons with disabilities. It is anticipated that 7,000 persons will benefit from this project.

3. Public Services (24 CFR 570.201(e))– Provide funding to up to eight (8) local and regional non-profit organizations to provide public services, including but not limited to, programs for the elderly and youth, homeless assistance, education, counseling, health, persons with disabilities, substance abuse, mental health, child care, and crime prevention. These activities will primarily benefit low- to moderate-income households or persons and will be selected and awarded through a Request for Proposal process in the fall. It is anticipated that 1,200 persons will benefit from this project which will be funded at \$112,036 in CDBG funds including \$25,000 for a youth employment project administered by the City.

4. **CDBG Economic Development – Microenterprise Assistance (24 CFR 570.201 (o)), Special Economic Development (24 CFR 570.203)** – Provide funding to the CPDD Economic Development Unit to initiate CDBG funded special economic development activities that could include microenterprise assistance, small business loans, technical assistance to businesses and community economic development such as projects that address a lack of affordable housing accessible to existing or planned jobs. Economic development assistance may also qualify if it is located in a designated slum and blight area. It is anticipated that eight (8) businesses will benefit from this project which will be funded at \$50,000 in CDBG funds
5. **CDBG Program Administration/Planning –24 CFR 570.205 and 570.26** - Provide funding to the City of North Miami CPDD for the administration of the CDBG program. An amount of \$149,381 in CDBG funds will be used to partially cover the planning and administrative costs.

HOME Investment Partnership (HOME) Program

1. **HOME Single Family Rehabilitation Program (24 CFR 92.205 (a))** – Provide funding for residential rehabilitation for low- and moderate-income homeowners of single-family owner-occupied homes. Administered by the City of North Miami's CPDD, the program seeks to preserve and enhance neighborhoods by maintaining existing housing stock for low income families by making the homes safe, decent and in compliance with the City's minimum housing code and the uniform building code. Repair items include the major building systems. Repairs or replacements can be made for weatherization improvements, lead-based paint hazard control/stabilization in units built prior to 1978. This project will be funded at \$125,775 in HOME funds and four (4) homes will be rehabilitated at an average unit cost of \$25,000. However, the program allows for assistance of up to \$40,000. Project is City-wide.
2. **HOME CHDO Housing Set-aside (24 CFR 92.300, 24 CFR 92.205 (a))** – HOME certified Community Housing Development Organizations (CHDOs) will construct new single family homes or acquire and rehabilitate existing homes for sale to low-and moderate-income families. Homes will meet Energy Star guidelines as well as all City of North Miami housing and zoning standards. This project will be funded at \$29,655 in HOME CHDO set aside. One home will be developed. Targeted area is City-wide.
3. **HOME Tenant Based Rental Assistance (24 CFR 92.209)** – Administered by the City's CPDD, the program will assist in preventing homelessness by providing financial assistance to families experiencing financial difficulties. Assistance will be rent/utility subsistence payments not to exceed \$1,500 per household. This project will be funded at \$2,500 in HOME grants and will serve two (2) persons.
4. **HOME First Time Homebuyer Program (24 CFR 92.205 (a))** – Administered by the CPDD, funds are used to assist first-time homebuyers to purchase an existing home within the city limits by reducing down payment and closing costs. Homes will meet or exceed minimum property

standards. It is projected that one (1) household will be assisted with grants at an amount of up to \$20,000 per unit. This project will be funded at \$20,000 in HOME grants and will be leveraged with SHIP funding and Miami-Dade County HOME funds. Targeted area is city-wide.

5. **HOME Program Administration (24 CFR 92.207)** – Provide funding to the City of North Miami CPDD for the administration of the HOME program. An amount of \$19,770 in HOME funds will be used to partially cover the planning and administrative costs

DRAFT

AP-50 Geographic Distribution – 91.220(f)

Description of the geographic areas of the entitlement (including areas of low-income and minority concentration) where assistance will be directed

The City of North Miami does not have geographic priorities as part of the Five Year Consolidated Plan.

The City of North Miami is comprised of 19 census tracts. Per the 2010 Census, the City of North Miami is comprised of 19 census tracts. As shown in the table In Section NA-30 Disproportionately Greater Need: Discussion – 91.205(b)(2), Page 51, all the census tracts, with the exception of census tract 12.05 have a tract minority percentage of 50% or more.

For North Miami, the census tracts with the greatest percentage of persons of Hispanic ethnicity are as follows in descending order: 1.20; 1.09; 1.24; 3.08; 2.20; 3.06; 3.07; 2.19; 4.10; and 20.09.

The North Miami CRA will also be a target area for funding because 60% of the City is within the CRA and many census tracts have LMI populations.

See attached map as Appendix II – North Miami Map with Low- and Moderate-Income Census Tracts illustrating the City’s low- to moderate-income target areas.

Geographic Distribution

Target Area	Percentage of Funds

Table 55 - Geographic Distribution

Rationale for the priorities for allocating investments geographically

Generally, the City does not direct its assistance based primarily on those target areas. The CDBG and HOME regulations allow for resources to be allocated based on the income characteristics of beneficiaries. As such, the City allocates its resources for public service activities, affordable housing and emergency home repair Citywide.

Discussion

CDBG funded public facilities, code enforcement, and infrastructure improvement activities will be located in the City's low- to moderate-income census tracts if they meet an area benefit national objective. The area benefit qualification is an activity of which the benefits are available to the residents of a particular area where at least 51% of the population are low- to moderate-income. Activities under "public facilities" such as homeless shelters or removal of architectural barriers may meet a "limited clientele" national objective. Limited clientele activities are defined as activities which benefit a limited clientele, at least 51% of whom are low- or moderate-income persons.

Affordable Housing

AP-55 Affordable Housing – 91.220(g)

Introduction

During FY 2015-2016, the City of North Miami will utilize CDBG and HOME funds to assist 25 non-homeless households with rehabilitation of owner-occupied housing units, rental assistance, acquisition of an existing housing unit, and provide funding to a CHDO to assist in the development of affordable housing.

The City's housing stock is aging and low- and moderate-income homeowners cannot afford to maintain or repair their homes. For this reason, rehabilitation of owner-occupied housing has been determined to be a high priority. The home repair needs of elderly persons will also be addressed under the CDBG Elderly Emergency Repair Program.

One Year Goals for the Number of Households to be Supported	
Homeless	0
Non-Homeless	20
Special-Needs	5
Total	25

Table 56 - One Year Goals for Affordable Housing by Support Requirement

One Year Goals for the Number of Households Supported Through	
Rental Assistance	2
The Production of New Units	1
Rehab of Existing Units	21
Acquisition of Existing Units	1
Total	25

Table 57 - One Year Goals for Affordable Housing by Support Type

Discussion

Rental Assistance

HOME funds of \$2,500 has been allocated to the Tenant Based Rental Assistance Program to provide security deposits for approximately two low income renter households.

Production of New Units

HOME funds in the amount of \$29,655 will be set-aside for a Community Housing Development Organization (CHDO) to assist in the development of one affordable housing unit for purchase by a first-time homebuyer.

Rehabilitation of Existing Units

The City of North Miami's main housing programs are the CDBG Housing Rehabilitation Program and the HOME Single Family Rehabilitation Program. For FY 2015-2016, the City has allocated \$375,214 for its CDBG Housing Rehabilitation Program. This program will provide eligible single-family homeowners with deferred payment loans of up to \$25,000, with an additional \$5,000 available for change orders. Activity delivery costs are also included in the allocation. The City will rehabilitate 12 single family homes under this program.

The City has allocated \$125,775 of its HOME funding to the HOME Single Family Rehabilitation Program for FY 2015-2016. This program will assist four (4) low- and moderate-income homeowners with home repairs.

The City will also carry out a smaller rehabilitation program providing emergency repairs for elderly persons. CDBG funds of \$ 30,000 has been allocated to the program and it is estimated that this program will repair five (5) units.

Acquisition of Existing Units

The City has a goal of assisting one first-time homebuyer with purchase of an existing home. Funds will come from the HOME Program in the form of a deferred payment loan. The City has allocated \$20,000 to the First-time Homebuyer Program. These funds will be leveraged with SHIP funds through the State of Florida and Miami-Dade County HOME funding to be able to serve more North Miami residents.

AP-60 Public Housing – 91.220(h)

Introduction

The City of North Miami does not have a public housing agency. The public housing needs of the City's residents are met by the Miami-Dade Public Housing and Community Development Department (PHCD) which operates the Section 8 Housing Choice Voucher Program and owns public housing units in Miami-Dade County. Under the Section 8 program, eligible North Miami residents are able to rent privately owned housing units with the voucher subsidy. According to the HUD CPD Mapping Tool, there are 787 Section 8 vouchers being utilized in North Miami census tracts.

Actions planned during the next year to address the needs to public housing

This section is not applicable because there are no public housing units in the City of North Miami.

Actions to encourage public housing residents to become more involved in management and participate in homeownership

PHCD operates the Family Self-Sufficiency Program (FSS) for their public housing residents and Section 8 Housing Choice Voucher holders. The FSS Program provides opportunities for job training, counseling, and other forms of supportive services, so participants can obtain the skills necessary to achieve self-sufficiency.

PHCD operates two homeownership programs: Housing Choice Voucher Homeownership Program and the Public Housing Homeownership Program. The former assists voucher recipients with the purchase of a home using a voucher subsidy. Along with homeownership opportunities, the program provides counseling, self-sufficiency, training, and support. According to the Five-year PHA Plan, the program is limited to 200 FSS program participants and at the time of the preparation of the Five-year PHA Plan, there were 163 families in the FSS program.

The City could collaborate with the PHCD to encourage section 8 voucher holders that are living in the City of North Miami to participate in the FSS Housing Choice Voucher Homeownership Program. This strategy which will be in line with the City's goal of expanding the supply of owner-occupied housing.

If the PHA is designated as troubled, describe the manner in which financial assistance will be provided or other assistance

PHCD is not designated as a troubled PHA.

Discussion

Not applicable

AP-65 Homeless and Other Special Needs Activities – 91.220(i)

Introduction

The City of North Miami does not have a significant homeless population and as such the housing needs of the City's homeless population are met by Miami-Dade County Homeless programs.

Describe the jurisdictions one-year goals and actions for reducing and ending homelessness including

The City of North Miami will refer any homeless persons seeking assistance to the housing and supportive service providers that are part of the Miami-Dade County CoC.

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

The County's Outreach, Assessment, and Placement teams will conduct on-the-street preliminary assessment and referral on a countywide basis. Mobile outreach teams are assigned to specific geographic areas in the County and also visit areas frequented by homeless persons daily or weekly.

Addressing the emergency shelter and transitional housing needs of homeless persons

The City did not allocate any funds to the housing needs of homeless persons since homelessness is not a priority need in the City. Homeless are referred to Miami-Dade County social services agencies.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

The City does not have sufficient resources to implement a homeless prevention program. Inquiries from residents for homeless prevention services are referred to Miami Dade County Homeless Trust.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); or, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs

The City of North Miami will utilize HOME funding of \$2,500 for security deposits under the Tenant Based Rental Assistance Program. For FY 2015-2016, approximately two (2) low income households will benefit from the program.

AP-75 Barriers to affordable housing – 91.220(j)

Introduction:

Actions it planned to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment

The Community Planning and Development Department has developed partnerships with other city departments, community based organizations, banks and realtors to increase and improve the supply and quality of affordable housing in the City through education and preservation of existing housing stock. The Housing Division, Zoning and Planning units will work closely together to identify any regulatory barriers to affordable housing and revise or eliminate such regulations when possible.

Some of the key goals in the Housing Element of the Comprehensive Plan that seek to reduce private and public barriers to affordable housing align with the Consolidated Plan and the Annual Action Plan. See section SP-55.

Discussion:

The housing related goals of City's Comprehensive Plan conform to the City's Development Code since the development standards include regulations that permit various housing types and also grant exceptions or waivers to the zoning standards, in some instances.

It will also be important to integrate Comprehensive Plan strategies for housing and community development with the Consolidated Plan and Annual Action Plans. Some other strategies that can be utilized to encourage the development of affordable housing include:

- Permitting zero-lot lines homes in some residential districts which enables the use of small lots for new development. Developers of affordable housing are able to reduce costs by utilizing less land and can pass savings on to the end-user;
- One-stop permitting process to secure site permit and building permits which saves time though the approval process;
- Special exception to waive or reduce parking requirements when housing is specifically designed and intended for use by the elderly, persons with disabilities, or other occupants who typically may not own automobiles;
- Not requiring infill housing to meet current zoning standards such as minimum dwelling unit areas and setback requirements.
- Offering developer incentives including tax abatements, permit/development fee waivers, expedited permitting, infrastructure cost participations, and electrical rate discounts, as applicable, to encourage and enable affordable residential projects.

AP-85 Other Actions – 91.220(k)

Introduction:

This section of the Annual Action Plan outlines the City of North Miami's planned actions to meeting underserved needs, fostering and maintaining affordable housing, reducing lead-based paint hazards, reducing the number of poverty-level families, and developing institutional structure. The City plans to fund and/or implement a number of projects that will foster and maintain affordable housing with the primary activity being owner-occupied rehabilitation. Actions to reduce lead-based paint hazards are addressed through the housing rehabilitation programs which follow the lead-based paint requirements for units constructed prior to 1978. The Community Planning and Development Department will pursue closer relationships with other City departments and non-profit and for-profit partners to develop a stronger institutional structure and improved coordination of projects.

Actions planned to address obstacles to meeting underserved needs

For FY 2015-2016, the City of North Miami has allocated \$112,036 in CDBG funding for public service activities that will benefit populations that are traditionally underserved. The public services funding will support agencies that serve low- and moderate-income persons, elderly persons, and persons with disabilities. The City will also assist low income neighborhoods by addressing public facility needs with \$30,000 in CDBG funding. The City will also provide financial assistance to businesses under the CDBG Program in exchange for creating or retaining jobs to be held by low and moderate income persons.

Actions planned to foster and maintain affordable housing

During FY 2015-2016, the City of North Miami will preserve affordable housing and increase the affordable housing stock for households with incomes between 0%-80% AMI by implementing or funding the following activities:

- Utilize CDBG and HOME funding for the rehabilitation of owner-occupied housing units;
- Address the emergency repair needs of seniors with CDBG funding of \$30,000;
- Support the development of new affordable housing with the HOME CHDO set-aside;
- Provide financial assistance to eligible households to acquire existing homes through the First-time Homebuyer Program; and
- Provide one-time financial assistance for security deposits to prevent homelessness.

Actions planned to reduce lead-based paint hazards

The City will address lead-based paint hazards with the implementation of the owner-occupied rehabilitation program. HUD regulations at 24 CFR Part 35 requires that lead-based paint hazards be controlled before the rehabilitation of a housing unit, particularly if children under the age of 6 years occupy the units. The City will conduct the required LBP assessment based on the level of federal funds invested in the rehabilitation of units constructed prior to 1978.

Actions planned to reduce the number of poverty-level families

The City plans to introduce a Microenterprise Loan Program that will provide a maximum loan of \$5,000 to eligible business owners that may be low- and moderate-income and may require the creation or retention of jobs for LMI persons. The City is also providing funding for a variety of housing programs that will promote the economic sustainability of families.

Actions planned to develop institutional structure

The North Miami Community Planning and Development Department currently coordinates with several City departments, non-profit organizations, and public entities to meet the goals and objectives of the Consolidated Plan. In order to carry out the activities that are proposed for FY 2015-2016, the Community Planning and Development Department will continue to improve the coordination of projects with relevant departments and organizations including the City's Housing Division and Building and Zoning Department as far as the expediting of permits for housing rehabilitation projects. The City will also work closely with local housing organizations, developers, local banks and mortgage companies, the Haitian American Community Development Corporation, the City's Community Redevelopment Agency, and the Miami-Dade OCED to coordinate efforts to assist provide affordable housing for low and moderate income households.

Actions planned to enhance coordination between public and private housing and social service agencies

During FY 2015-2016, the City will utilize CDBG and HOME funding to support both public and private housing programs as well as public service activities implemented by social service agencies. The City will provide technical assistance to partners to ensure that the goals and objectives of the Consolidated Plan and Annual Action Plan are effectively implemented. The City will continue to consult with the Miami-Dade County CoC and the County's Public Housing and Community Development Department to ensure that the needs of any homeless persons in the City and persons in need of public housing assistance are met.

Discussion:

Not applicable.

Program Specific Requirements

AP-90 Program Specific Requirements – 91.220(I)(1,2,4)

Introduction:

For FY 2015-2016, the City of North Miami expects to receive CDBG funding of \$746,909 and HOME funding of \$197,700. CDBG funds will be used to funds housing, public service activities, microenterprise loan program, and a public facility project. The HOME Program will fund a CHDO activity, tenant based rental assistance program, first-time homebuyer program, and a single-family rehabilitation program.

Community Development Block Grant Program (CDBG)

Reference 24 CFR 91.220(I)(1)

Projects planned with all CDBG funds expected to be available during the year are identified in the Projects Table. The following identifies program income that is available for use that is included in projects to be carried out.

1. The total amount of program income that will have been received before the start of the next program year and that has not yet been reprogrammed	\$8,443.76
2. The amount of proceeds from section 108 loan guarantees that will be used during the year to address the priority needs and specific objectives identified in the grantee's strategic plan	\$0
3. The amount of surplus funds from urban renewal settlements	\$0
4. The amount of any grant funds returned to the line of credit for which the planned use has not been included in a prior statement or plan.	\$0
5. The amount of income from float-funded activities	\$0
Total Program Income	\$8,443.76

Other CDBG Requirements

1. The amount of urgent need activities	\$0
---	-----

HOME Investment Partnership Program (HOME)

Reference 24 CFR 91.220(I)(2)

1. A description of other forms of investment being used beyond those identified in Section 92.205 is as follows:

The City of North Miami will not utilize HOME funding in any other form except those stated in Section 92.205.

2. A description of the guidelines that will be used for resale or recapture of HOME funds when used for homebuyer activities as required in 92.254, is as follows:

HOME funds will be used to undertake a first-time homebuyer program. Eligible households may receive up to \$40,000, depending on funding availability and gap financing needed, for closing cost and down payment assistance. The City of North Miami utilizes the recapture provisions at Section 92.254 (a) (5) of the HOME regulations. The City of North Miami will use the recapture provision to recapture all or a portion of the HOME subsidy upon sale of the property to any willing buyer. The amount subject to recapture shall be based on the amount of HOME subsidy that was required to make the housing affordable to the initial purchaser. The City shall reduce the amount of HOME funds to be recaptured on a prorated basis depending on the period of time the housing was owned and occupied by the eligible homeowner. If the property is sold prior to the end of the City's mortgage term, all or part of the City's remaining assistance is due and payable from the net proceeds, to the extent sufficient proceeds are available. If the net proceeds (i.e., the sales price minus loan repayments other than HOME funds, and closing costs) are not sufficient to recapture the remaining HOME investment and allow the homeowner to recover the amount of the homeowner's down-payment and any capital improvement investment, the City's recapture provisions may share the net proceeds. The net proceeds may be divided proportionally, as set forth in the mathematical formulas at 24 C.F.R., 92.254 (ii)(A)(1). The City may at its sole discretion allow the homeowner to recover his or her entire investment, including down payment and non-City assisted capital improvements, prior to recapturing the HOME investment.

3. A description of the guidelines for resale or recapture that ensures the affordability of units acquired with HOME funds? See 24 CFR 92.254(a)(4) are as follows:

The City of North Miami follows the HOME affordability requirements outlined at 24 CFR 92.254(a) (4). The minimum period of affordability is dependent on the amount of homeownership assistance. The affordability requirements are as follows: Under \$15,000 – 5 years; \$15,000 - \$ 40,000 – 10 years; and over \$40,000 – 15 years.

4. Plans for using HOME funds to refinance existing debt secured by multifamily housing that is rehabilitated with HOME funds along with a description of the refinancing guidelines required that will be used under 24 CFR 92.206(b), are as follows:

The City of North Miami does not plan to use HOME funds to refinance existing debt secured by multifamily housing that is rehabilitation with HOME funds.

Discussion:

Eligible applicants to the HOME Single Family Housing Rehabilitation Program are homeowners with income at or below 80% AMI with a house in need of repair. Priority is given to households that include elderly persons, persons with disabilities, and large families. Homebuyers are also required to meet income requirements and must have sufficient income to qualify for private financing, repay debt, and

maintain the housing units. Additionally, homebuyers must not have owned a home in the last three years, with certain exceptions. Applicants to the City's HOME rehabilitation and homebuyer programs are funded on a first-qualified, first-served basis and forms may be picked up at the City's Housing and Community Development offices.

The 2013 HOME Final Rule implemented several changes to the HOME program including, but not limited to HOME CHDO capacity, commitment and expenditure deadline, rental of properties that have not been sold, and threshold for commitment of HOME funds to a project. The City plans to update the HOME section of its housing program policies to reflect those changes and ensure HOME compliance.

DRAFT

Appendix I – Public and Agency Survey and Meeting Input

Consolidated Plan Public Survey Results

Ninety-eight 98 residents responded to the North Miami Consolidated Plan Public Survey. Four of the surveys were incomplete. Of the 94 valid responses, 93 persons or 98.9% indicated they were residents of North Miami.

Eighty-nine percent indicated that they lived in the 33161 area code. The next largest percent of zip codes indicated consisted of a tie between residents living in area code 33168 and 33181 both comprising of 3.4% of the participants surveyed, respectively. The remaining zip codes broke down as the following: 2.2% indicated they lived in the 33167 area code (9.7%), and 1.1% indicated “Other” listing their zip code as “33138”. Finally 5 or .5% of the total participants skipped the question entirely.

Regarding the racial and ethnic profile of the respondents, of the 89 persons who completed the question the largest number of participants, 68.5% or 61 persons, identified themselves as African-American. The second largest group was a tie, at 11.2%, between participants who identified themselves as “Other” and participants who identified themselves as Caucasian/White. For the participants who identified themselves as “Other” they noted they preferred to identify themselves as “Haitian” or “Haitian-American”. The remaining participants broke down as follows with: 6.7% identified themselves as Hispanic, 3.4% identified themselves as Not Hispanic, and 1.1% identified themselves as Asian American. Finally 5 or .5% of the total participants skipped the question entirely.

The majority of participants were spread across 4 age groups. The largest representation were from the 29.2%, or 26 participants, who identified themselves as being in the age bracket of 56-67. The next largest age bracket were those between the ages of 36 and 45 making up 20.2%, or 18 of the participants surveyed. Seventeen participants indicate they were aged between 46 and 56 and came in as third largest making up 19.1% of those surveyed followed by 15 participants selected they were aged between 25 and 35 making up 16.9%. The rest of the group was made up of 8 participants or 9.0% identifying as being between the ages of 68-78, 5 participants identifying as 18-24 coming in at 5.6% of participants, and 1 participants indicating they were over the age of 78 which made up only 1.1% of the

participants. Finally 1.6% of participants skipped the question. Finally 5 or .5% of the total participants skipped the question entirely.

When asked if anyone in their household had a disability 24 participants, 27.0%, indicated they did while 65 participants, 73.0%, indicated they did not.

How many people live in your household? (Select one answer)		
Answer Options	Response Percent	Response Count
1	5.6%	5
2	31.5%	28
3	22.5%	20
4	22.5%	20
5	11.2%	10
6	5.6%	5
7	1.1%	1
over 7	0.0%	0
<i>skipped question</i>		5

Participants were asked how many people lived in their household. The majority of participants, 31.5%, indicated they lived in a 2 person household. Participants living in 3 and 4 person households were tied making up 22.5 percent of the participants respectively. Participants in 5 person households rounded out the 3rd largest group of participants, comprising of 11.2% of those surveyed. The rest of the answers broke down as follows: 1 person households and 6 person household tied as well making up 5.6% of the populations. Finally, 1.1% of participants, 1 person, indicated they lived in a 7 person household.

When asked about income, 22.7% of respondents selected their annual income as being between 30,001 and \$45,000, followed by 18.2% of participants selecting under \$20,001 and \$25,000. The third largest percentage of participants, 17.0%, selected an annual income between \$18,001 and \$20,000. Finally the highest income bracket, those with a reported income of above \$55,000 made up 10.2% of participants surveyed. The remaining participants broke down as follows: \$25,001 - \$30,000 (9.1%), \$12,501 - \$15,000 (5.7%), \$18,000-\$20,001(5.7%), \$5,000 - \$12,500 (3.4%), \$45,001 - \$55,000 (3.4%), and under \$5.000 (3.4%).

In the survey the public was asked to identify and rank the following activities/services that they would like to see in the City of North Miami in the next five years (2015-2019). They were also asked to prioritize their responses as either High Need, Low Need, or No Need. The results were as follows:

Activities/ Services	Priority Assigned
Affordable Housing - for Renters	Low Need
Affordable Housing - for Homeownership	High Need
Owner-occupied rehabilitation including emergency home repair	High Need
Special needs housing (including persons with HIV/AIDS, the elderly, and persons with disabilities)	Low Need
Transitional Housing	Low Need

Activities/ Services	Priority Assigned
Shelters for homeless persons and victims of domestic violence	Low Need
Homelessness prevention including rental assistance and rapid re-housing	High Need
Services for Seniors	High Need
Public Infrastructure (including improvements to streets, sidewalks, water and sewer, etc.)	High Need
Slum and Blight Removal including demolition and clearance	Low Need
Economic Development - Small Business or Microenterprise Assistance	Low Need
Senior Centers	Low Need
Neighborhood and community centers	High Need
Youth Centers	High Need
Legal services	Low Need
Economic Development - Job Creation or Retention Opportunities	High Need
Infrastructure for redevelopment	Low Need
Removal of architectural barriers and accessibility	Low Need
Services for Youth including after school programs	High Need
Services for persons with HIV/AIDS	Low Need
Code enforcement	Low Need
Non-residential historic preservation	Low Need
Domestic Violence Prevention Programs	Low Need
Economic Dev. - Employment training or technical assistance services	High Need
Crime Prevention Programs	High Need
Commercial Rehabilitation	High Need

Activities/ Services	Priority Assigned
Substance abuse prevention programs	High Need
Educational Support	High Need
Mental Health Facilities	High Need
Services for Persons with Disabilities	High Need
Health Services	High Need
Fair housing services	High Need
Child Care Services	High Need
Other (Please Specify)	No Need

Answer Options	1 High Need	2 Low Need	No Need	Rating Average	Response Count

Other (please specify)				22	22

In addition, some participants specified “Other” Activities or Services as high need and listed “lights in the street and clean up rental apartments on NE 6 Ave between NE 125St-NE 145ST.

In your opinion, what are some of the challenges and barriers to meeting the City's under-served Housing and Community Development Needs by Category.

- Owner-occupied housing rehabilitation and emergency home repair
- Acquisition, Improvement, or Construction of Public Facilities including parks and recreational facilities
- Construction, Reconstruction, or Improvements to Public Infrastructure (including streets, sidewalks, etc.)
- Rental Housing
- Homeownership Housing
- Services for Homeless Individuals and Families
- Shelters for homeless persons and victims of domestic violence
- Homeless prevention including rapid re-housing
- Public Services (including for seniors, youth, crime prevention, child care, health, education, victims of domestic violence, etc.)
- Economic Development (including business assistance, business facade improvement, job creation, etc.)
- Services and housing for special populations including the mentally ill, elderly, persons with disabilities and substance abuse issues, etc.
- Other housing and community development needs not mentioned above

When asked about challenges and barriers to meeting the City's under-served Housing and Community Development Needs the overwhelming majority of participants, 90.4%, selected *Owner-occupied housing rehabilitation and emergency home repair* as the biggest challenge. The next challenge was far behind with 27.7% selecting *Construction, Reconstruction, or Improvements to Public Infrastructure (including streets, sidewalks, etc.)*.

Focus Group Members Responses	
<i>Housing and Community Development Needs</i>	<i>Priority of Need</i>
Affordable Housing- Rental	High

Appendix III – Public Notice

**NOTICE OF PUBLIC MEETINGS
CITY OF NORTH MIAMI
COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG)
HOME INVESTMENT PARTNERSHIP PROGRAM (HOME)
FISCAL YEARS 2015-2019 CONSOLIDATED PLAN
FISCAL YEAR 2015-2016 ANNUAL ACTION PLAN**

The City of North Miami is an entitlement community eligible to receive assistance under the U.S. Department of Housing and Urban Development (HUD) through the Community Development Block Grant (CDBG) and HOME Investment Partnerships (HOME) programs. The City is expected to receive \$746,909 in CDBG funds and \$197,700 in HOME funds for Fiscal Year (FY) 2015-2016. CDBG and HOME funds will be used for public facilities and infrastructure improvements, public services, affordable housing-related projects, and economic development. Projects must generally benefit low- and moderate-income persons. The Consolidated Plan is a five year vision and strategic plan of how these funds will be used to help address the City's housing and community development needs. The Annual Action Plan will describe how the City will use funds allocated each year to address the objectives and goals outlined in the Consolidated Plan. The City must submit these two plans in order to receive the funding from HUD.

As mandated by the Federal regulations at 24 CFR Part 91, the City is starting a collaborative and community planning process. As part of the planning process, the City will be conducting public meetings and focus groups to solicit input on housing and community development needs, priorities, and the use of program funds. The information gathered will be combined with other data and summarized in the "Five-Year Consolidated Plan" for FY 2015-2019 and the "Annual Action Plan" for FY 2015-2016.

Persons living and working in North Miami are encouraged to attend and participate in these discussions. The locations and dates of meetings are provided below.

Wednesday, June 10, 2015 Time: 7-8 pm Planning Commission Meeting City Council Chambers 776 NE 125 Street, North Miami 33161	Friday, June 12, 2015 Time: 7-8 pm Joe Celestin Center 1525 NW 135 Street, North Miami 33167
Tuesday, July 7, 2015 Time: 7pm Planning Commission Meeting City Council Chambers 776 NE 125 Street, North Miami 33161	Tuesday, July 14, 2015 Time: 7pm City Council Meeting Public Hearing City Council Chambers 776 NE 125 Street, North Miami 33161

The City will also be issuing an online survey to receive public comments. Please visit the City's website at <http://www.northmiamifi.gov/> and/or follow us on Facebook.

Upon completion of the Consolidated Plan and Annual Action Plan, the documents will be available on the City's website and at other locations in the City for a 30-day period from July 15, 2015 to August 13, 2015 to receive written public comments before submission to HUD. As required by HUD, public comments will be added to the Plans.

Anyone unable to attend these meetings but wishing to make their views known may do so by submitting written comments to:

Marie-Frantz Jean-Pharuns at the City of North Miami, Community Planning and Development, 12400 NE 8 Ave, North Miami, FL 33161 or email at: Mjean-pharuns@northmiamifi.gov

Individuals with disabilities or persons with Limited English Proficiency requiring auxiliary aids or services in order to effectively participate in the meetings should contact the City by calling no later than four (4) days prior to the proceedings. Telephone 305-893-6511 ext 12142 for assistance. If hearing impaired, telephone our TDD line at (305) 893 7936 for assistance.
